## **In A Dark Time A Prisoners Struggle For Healing And Change:**

**In the Shadow of Death** Elizabeth Beck, Sarah Britto, Arlene Andrews, 2007-02-08 The press called Martin's actions a crime spree. Already convicted of armed robbery, Martin was facing the death penalty. In less than two weeks the jury would decide his fate. Terrified that his son would be sentenced to die, Phillip did the only thing he felt he could do in an act of faith and desperation: in his garage, with the car exhaust running, Phillip made the consummate sacrifice to spare his son the ultimate punishment. Ironically, his suicide presented Martin with another chance at life: the jury, moved by Martin's loss, spared his life. Phillip's story, like those of the other parents, siblings, children, and cousins chronicled in this book, vividly illustrates the precarious position family members of capital offenders occupy in the criminal justice system. At once outsiders and victims, they live in the shadow of death, crushed by trauma, grief, and helplessness. In this penetrating account of guilt and innocence, shame and triumph, devastating loss and ultimate redemption, the voices of these family members add a new dimension to debates about capital punishment and how communities can prevent and address crime. Restorative justice theory, which views violent crime as an extreme violation of relationships, searches for ways to hold offenders accountable and meets the needs of victims and communities torn apart by the crime. It organizes these narratives and integrates offenders' families into the process of transforming conflict and promoting justice and healing for all. What emerges from hundreds of hours worth of in-depth interviews with family members of offenders and victims, legal teams, and leaders in the abolition and restorative justice movements is a vision of justice strongly rooted in the social fabric of communities. Showing that forgiveness and recovery are possible in the wake of even the most heinous crimes while holding victims' stories sacred, this eye-opening book bridges the pain of living in the shadow of death with the possibility of a reparative form of justice. Anyone working with victims, offenders, and their families—from lawyers and social workers to mediators and activists—will find this riveting work indispensable to their efforts.

Dead Wrong Richard A. Stack, 2006-09-30 Attitudes toward the death penalty have changed dramatically throughout the course of history, evolving from times when public executions were occasions of solemn and pious ritual to excuses for raucous entertainment and finally to the modern era of private, bureaucratized, mechanized, and sanitized executions that are out of sight and out of mind. Conforming thus to modern sensibilities, state-sanctioned killing is somehow more acceptable to us than public hangings would have been because we can imagine that the inmate's death is relatively painless and not in violation of the Eighth Amendment's prohibition against cruel and unusual punishment. This may or may not be true. Stack presents compelling arguments to the contrary. What is certain is that *Dead Wrong* demonstrates beyond a doubt that death row is itself a form of psychological torture and of slow, painful dehumanization. Polls indicate that 75 percent of Americans favor the death penalty, but they also show that minds change when individuals are confronted with the facts. This book was written to offer those facts and to change those minds. The United States is alone among Western democracies in its support for capital punishment, which was only briefly abolished.

throughout this country between 1972 and 1976 Today 38 states have some form of capital punishment Yet studies show that the death penalty is not a deterrent to crime that racial disparities in the implementation of capital punishment are rampant and that all kinds of procedural errors incompetent defense lawyers and mistaken eyewitness identifications lead to an alarming number of wrongful convictions Attitudes toward the death penalty have changed dramatically throughout the course of history evolving from times when public executions were occasions of solemn and pious ritual to those when it was an excuse for raucous entertainment and finally to the modern era of private bureaucratized mechanized and sanitized executions conducted out of sight and out of mind Conforming thus to modern sensibilities state sanctioned killing is somehow more acceptable to us than public hangings because we can imagine that the inmate's death is relatively painless and not in violation of the Eighth Amendment's prohibition against cruel and unusual punishment This may or may not be true Stack presents compelling arguments to the contrary What is certain is that *Dead Wrong* demonstrates beyond a doubt that death row is itself a form of psychological torture and of slow painful dehumanization Gareth B.
