Senate, 1901 **The Ambassador's Wife** Catherine Grace Frances Gore, 1863 **The Development of the West of Scotland 1750-1960** Anthony Slaven, 2013-11-05 The economic and social problems of modern Scotland are at the centre of current debate about regional economic growth social improvement and environmental rehabilitation In this book as relevant today as when it was first published in 1975 Anthony Slaven argues that the extent and causes of these problems are frequently underestimated thus making development policies less than fully effective The major economic and social weaknesses of the west of Scotland are shown to be rooted in the regions former strengths The author demonstrates how although the region and its people have resisted change a thriving and self reliant nineteenth century economy based on local resources and manpower has given way in the present century to vanishing skills and products unemployment and social deprivation Since 1945 economic and social planning has helped to improve the situation although many difficulties remain Seen in the historical perspective provided by this revealing study the present industrial problems of the west of Scotland and their remedies become clearer Mr Slaven argues that the older industries deserve more help for without this he believes the ineffectiveness of development policies is likely to be perpetuated This book was first published in 1975 Proceedings of the ... Annual Meeting of the Most Worshipful Grand Lodge, Ancient Free and Accepted Masons of the State of Illinois Freemasons. Grand Lodge of Illinois, 1901 *An Environmental History of Medieval Europe* Richard Hoffmann, 2014-04-10 How did medieval Europeans use and change their environments think about the natural world and try to handle the natural forces affecting their lives This groundbreaking environmental history examines medieval relationships with the natural world from the perspective of social ecology viewing human society as a hybrid of the cultural and the natural Richard Hoffmann s interdisciplinary approach sheds important light on such central topics in medieval history as the decline of Rome religious doctrine urbanization and technology as well as key environmental themes among them energy use sustainability disease and climate change Revealing the role of natural forces in events previously seen as purely human the book explores issues including the treatment of animals the tragedy of the commons agricultural clearances and agrarian economies By introducing medieval history in the context of social ecology it brings the natural world into historiography as an agent and object of history itself

Political Sociology of Adult

Education Carlos Alberto Torres, 2013-09-03 Critical Theorist Carlos Alberto Torres offers a political sociology of adult learning and education based on Critical Social Theory and the always inspiring work of Paulo Freire Empirically grounded and theoretically sophisticated this new book follows the footsteps of his classic book published in the early nineties *The Politics of Nonformal Education in Latin America* Torres book offers comparative and international sociological analyses of adult learning and education an area in which there is an obsession with practice and an aversion to theory with some notable and laudable exceptions but which has the potential to provide avenues for social justice education in ways that no other systems and policies can This book revitalizes social theory in education and provides ample evidence of the power of adult learning and education examining a variety of policy documents connected with the various adult education congresses promoted by the UNESCO which are thoroughly scrutinized for what they bring to or omit from the policy agenda In the context of new developments in adult learning and education particularly the impact of multiple globalizations neoliberalism and the new role of international organizations in reconceptualizing lifelong learning new evidence based research new narratives and the vibrancy of social movements striving for a new and possible world it is clear that new theoretical designs were needed making this is a must read book

Spanish Society, 1400-1600 Teofilo F Ruiz, 2014-09-11 *Spanish Society* depicts a complex and fascinating country in transition from the late Middle Ages to modernity It describes every part of society from the gluttonous nobility to their starving peasants Through anecdotes a lively style and portraits of figures such as St Teresa of Avila and Torquemada the book reflects the character and humour with which the common Spaniard endured an often wretched lot Beginning with a description of the geography political life and culture of Spain from 1400 to 1600 the unfolding narrative charts the country's shifts from one age to the next It unveils patterns of everyday life from the court to the brothel from the haves of the aristocracy and clergy to the have nots of the peasantry and the urban poor Historical records illuminate details of Spanish society such as the transition from medieval festivities to the highly scripted spectacles of the early modern period the reasons for violence and popular resistance and the patterns of daily living eating dressing religious beliefs and concepts of

honour and sexuality This compelling account includes historical examples and literary extracts which allow the reader direct access to the period From the street theatre of village carnivals to the oppressive Spanish Inquisition it gives an abiding sense of Spain in the making and renders vivid the colours of a passionate history **The Viennese Revolution of 1848** R. John Rath,2013-12-18 Liberalism in the nineteenth century sense of the term came to Austria much later than it came to western Europe for it was not until the 1840s that the industrial revolution reached the Hapsburg Empire bringing in its train miserable working conditions and economic upheaval which created bitter resentment among the working classes and a longing for a Utopia that would cure the ills of mankind This new found liberalism largely self contained and uninfluenced by liberal movements outside the empire centered mainly in the idea of individual freedom and constitutional monarchism In the end the revolution failed because the moderates proved too weak to control the radical excesses and the radicals in growing desperation tried to turn the rebel idea into a democratic and at the extreme a republican one Fear of this extremism finally drove the moderates into the counterrevolutionary camp Since the Viennese rebels fought to achieve many of the goals fundamental to democracy historians have generally tended to idealize the revolutionaries and forget their shortcomings R. John Rath has sought to evaluate the revolution from the point of view of the political ideologies of 1848 rather than those of the mid twentieth century Moreover he has clearly and objectively stated the case for both the left and the right pointing out the failures and shortcomings of each At its publication this was the first detailed English language book on the Viennese Revolution of 1848 in more than a hundred years The author has not confined himself to the bare bones of history In his descriptions of the times and lively portrayals of the chief actors of the revolution he has vividly restaged a drama of an ideal that failed *Small Groups* John M. Levine,Richard L. Moreland,2008-02-19 Research on small groups is highly diverse because investigators who study such groups vary in their disciplinary identifications theoretical interests and methodological preferences The goal of this volume is to capture that diversity and thereby convey the breadth and excitement of small group research by acquainting students with work on five fundamental aspects of groups The volume also includes an introductory chapter by the editors which provides an overview of the history of and current state of the art in the field Together with introductions to each section discussion questions and suggestions for further reading make the volume ideal reading for senior undergraduate and graduate students interested in group dynamics **History of Harrison County** H.Haymond, **Supreme Court of the State of New York Appellate Division First Department** ,1901

household violence teen pregnancy and encounters with the criminal justice system social science literature on how racism affects the everyday interactions of African American families is limited How does racism come home to and affect African American families If a father in an African American family is denied employment on the basis of his race or a wife is demeaned at work by racist slurs how is their family life affected Given the lack of social science literature responding to these questions this volume turns to an alternative source in order to address them literature Engaging with novels written by African American authors it explores their rich depictions of African American family life showing how these can contribute to our sociological knowledge and making the case for the novel as an object and source of social research As such it will appeal to scholars and students of the sociology of the family race and ethnicity cultural studies and literature
