Wilderburbs Lincoln Bramwell, 2014-09-01 Since the 1950s the housing developments in the West that historian Lincoln Bramwell calls wilderburbs have offered residents both the pleasures of living in nature and the creature comforts of the suburbs Remote from cities but still within commuting distance nestled next to lakes and rivers or in forests and deserts and often featuring spectacular views of public lands wilderburbs celebrate the natural beauty of the American West and pose a vital threat to it Wilderburbs tells the story of how roads and houses and water development have transformed the rural landscape in the West Bramwell introduces readers to developers homeowners and government regulators all of whom have faced unexpected environmental problems in designing and building wilderburb communities including unpredictable water supplies threats from wildfires and encounters with wildlife By looking at wilderburbs in the West especially those in Utah Colorado and New Mexico Bramwell uncovers the profound environmental consequences of Americans desire to live in the wilderness *The Last Stand of the Pack* Arthur Carhart, 2017-12-01 This critical edition explores the past and future of wolves in Colorado Originally published in 1929 *The Last Stand of the Pack* is a historical account of the extermination of what were then believed to be the last wolves in Colorado Arthur H Carhart and Stanley P Young describe the wolves extermination and extoll the bravery of the federal trappers hunting them down while simultaneously characterizing the wolves as cunning individuals and noble adversaries to the growth of the livestock industry and the settlement of the West This is nature writing at its best even if the worldview expressed is at times jarring to the twenty first century reader Now almost 100 years later much has been learned about ecology and the role of top tier predators within ecosystems In this new edition Carhart and Young's original text is accompanied by an extensive introduction with biographical details on Arthur Carhart and an overview of the history of wolf eradication in the west chapters by prominent wildlife biologists environmentalists wolf reintroduction activists and ranchers Tom Compton Bonnie Brown Mike Phillips Norman A Bishop and Cheney Gardner and an epilogue considering current issues surrounding the reintroduction of wolves in Colorado Presenting a balanced perspective these additional chapters address views both in support of and opposed to wolf reintroduction

Coloradans are deeply interested in wilderness and the debate surrounding wolf reintroduction but for wolves to have a future in Colorado we must first understand the past The Last Stand of the Pack Critical Edition presents both important historical scholarship and contemporary ecological ideas offering a complete picture of the impact of wolves in Colorado
