Ephraim George Squier, 1853 **Nicaragua's Other Revolution** Michael Dodson, Laura Nuzzi O'Shaughnessy, 2000-11-09

The 1979 rebellion in Nicaragua was the first in modern Latin America to be carried out with the active participation and support of Christians. Like all revolutions the Nicaraguan Revolution has provoked controversy and hostility and the Christian presence has been a focal point in the debate. In this work Michael Dodson and Laura Nuzzi O'Shaughnessy offer a detailed study of the religious sources of the revolution set against the background of the revolutionary traditions of the United States. Nicaragua's Other Revolution places the experience of the Nicaraguan Revolution in a historical framework that extends back to the Protestant Reformation and in an institutional framework that encompasses the whole of Nicaraguan politics. Examining the broad process of religious change this work explores how that process interacted with the political struggles that culminated in the revolution. Dodson and O'Shaughnessy conclude that the religious values and attitudes arising out of postconciliar renewal in the church contributed powerfully to demands for revolutionary change in Nicaragua. In England and America the Protestant Reformation gave a tremendous boost to demands for democratic changes in society and politics. This work shows that something similar happened in Catholic Central America in the post-Medellin period. Changes in religious thought and action were part of and served to reinforce and stimulate a wider movement for social and political change. Without denying the importance of Marxism the authors demonstrate that other important influences are at work there. Originally published in 1990. A UNC Press Enduring Edition. Education and Revolution in Nicaragua Robert Arnove, 1986. Arnove presents a glimpse of the Nicaraguan educational system during the first five years of the Sandinista revolution, July 1979-84. The author provides an excellent bibliography concerning Latin American comparative education and the book would be of educational value to both undergraduate and graduate students. World Weeds LeRoy Holm, Jerry Doll, Eric Holm, Juan V. Pancho, James P. Herberger, 1997-03-05. Responsible for a high proportion of the world's crop losses, weeds take away food that the world badly needs. They decrease the quality and quantity of vegetable fibers, wool, and hides and interfere with fishing, irrigation, hydroelectric power production, and the movement of shipping vessels. In order to recognize the true magnitude of the weed problem and to be better equipped to design effective weed control methods, it is vital to identify and learn as much as possible about the many different species of this destructive agricultural predator. The culmination of four decades of global research, *World Weeds* presents comprehensive and up-to-date information on over 100 weeds, addressing recent changes in such areas as crop tillage methods, herbicide use, and agricultural

Sandinista Nicaragua's Resistance to US Coercion Héctor Perla, Jr, 2017-02-17 How was the Sandinista National Liberation Front FSLN of Nicaragua able to resist the Reagan Administration s coercive efforts to rollback their revolution Hector Perla challenges conventional understandings of this conflict by tracing the process through which Nicaraguans both at home and in the diaspora defeated US aggression in a highly unequal confrontation He argues that beyond traditional diplomatic military and domestic state policies a crucial element of the FSLN s defensive strategy was the mobilization of a transnational social movement to build public opposition to Reagan s policy within the United States thus preventing further escalation of the conflict Using a contentious politics approach the author reveals how the extant scholarly assumptions of international relations theory have obscured some of the most consequential dynamics of the case This is a fascinating study illustrating how supposedly powerless actors were able to constrain the policies of the most powerful nation on earth
