Hawker,2014-01-01 The years between 1922 and 1961 often referred to as the Dark Ages of Northwest Coast art have largely been ignored by art historians and dismissed as a period of artistic decline Tales of Ghosts compellingly reclaims this era arguing that it was instead a critical period during which the art played an important role in public discourses on the status of First Nations people in Canadian society Hawker s insightful examination focuses on the complex functions that Northwest Coast objects such as the ubiquitous totem pole played during the period He demonstrates how these objects asserted the integrity and meaningfulness of First Nations identities while simultaneously resisting the intent and effects of assimilation enforced by the Canadian government s denial of land claims its ban of the potlatch and its support of assimilationist education Those with an interest in First Nations and Canadian history and art history anthropology museology and post colonial studies will be delighted by the publication of this major contribution to their fields      **Cultural Heritage in Transit** Deborah Kapchan,2014-04-03 Are human rights universal The immediate response is yes of course However that simple affirmation assumes agreement about definitions of the human as well as what a human is entitled to under law bringing us quickly to concepts such as freedom property and the inalienability of both The assumption that we all mean the same things by these terms carries much political import especially given that different communities national ethnic religious gendered enact some of the most basic categories of human experience self home freedom sovereignty differently But whereas legal definitions often seek to eliminate ambiguity in order to define and protect the rights of humanity ambiguity is in fact inherently human especially in performances of heritage where the rights to sense to imagine and to claim cultural identities that resist circumscription are at play Cultural Heritage in Transit examines the intangibilities of human rights in the realm of heritage production focusing not only on the ephemeral culture of those who perform it but also on the ambiguities present in the idea of cultural property in general who claims it who may use it who should not but does In this volume folklorists ethnologists and anthropologists analyze the practice and performance of culture in particular contexts including Roma wedding music Trinidadian wining Moroccan verbal art and Neopagan rituals in order to draw apart the social political and aesthetic materialities of heritage production including inequities and hierarchies that did not exist before The authors collectively craft theoretical frameworks to make sense of the ways the rights of nations interact with the rights of individuals and communities when the public value of artistic creations is constituted through international law Contributors Valdimar Tr Hafstein Deborah Kapchan Barbro Klein Sabina Magliocco Dorothy Noyes Philip W Scher Carol Silverman      *Visit Europe with Me* Sophia Deng,2007-11 An Asian female s solo travel backpacking through Europe personal encounters observations
