Jesus And The Early Church:

The World of Jesus and the Early Church Craig A Evans, 2022-05-03 How do religious texts impact the way communities of faith understand themselves In *The World of Jesus and the Early Church Identity and Interpretation in Early Communities of Faith* Craig Evans leads an interdisciplinary team of scholars to discover and explain how the dynamic relationship between text and community enabled ancient Christian and Jewish communities to define themselves To this end scholars composed two sets of essays The first examines how communities understood and defined themselves and the second looks at how sacred texts informed communities about their own self understanding and identity in earliest stages of Christianity and late Second Temple Judaism Whether revealing new understandings of Jesus before Pilate the rituals governing the execution and burial of criminals or the problems of dating ancient manuscripts *The World of Jesus and the Early Church* draws the reader into the world of the early Christian and Jewish communities in fresh and insightful ways

Render to Caesar Christopher Bryan, 2005-08-25 At the end of the 20th century postcolonialism described the effort to understand the experience of those who had lived under colonial rule This kind of thinking has inevitably brought about a reexamination of the rise of Christianity which took place under Roman colonial rule How did Rome look from the viewpoint of an ordinary Galilean in the first century of the Christian era What should this mean for our own understanding of and relationship to Jesus of Nazareth In the past Jesus was often depoliticized treated as a religious teacher imparting timeless truths for all people Now however many scholars see Jesus as a political leader whose goal was independence from Roman rule so that the people could renew their traditional way of life under the rule of God In *Render to Caesar* Christopher Bryan reexamines the attitude of the early Church toward imperial Rome Choosing a middle road he asserts that Jesus and the early Christians did indeed have a critique of the Roman superpower a critique that was broadly in line with the entire biblical and prophetic tradition One cannot worship the biblical God the God of Israel he argues and not be concerned about justice in the here and now On the other hand the biblical tradition does not challenge human power structures by attempting to dismantle them or replace them with other power structures Instead Jesus message consistently confronts such structures with the truth about their origin and purpose Their origin is that God permits them Their purpose is to promote God's peace and justice Power is understood as a gift from God a gift that it is to be used to serve God's will and a gift that can be taken away by God when misused *Render to Caesar* transforms our understanding of early Christians and their relationship to Rome and demonstrates how Jesus teaching continues to challenge those who live under structures of government quite different from those that would have been envisaged by the authors of the New Testament

McKinion, 2001-08 A collection of primary texts revealing how early Christians practiced their faith Life and Practice in the Early Church brings together a range of primary texts from the church's first five centuries to demonstrate how early Christians practiced their faith Rather than focusing on theology these original documents shed light on how early believers did church addressing such practical questions as how did the church administer baptism How were sermons delivered How did the early church carry out its missions endeavors Early Christian writings reveal a great deal about the tradition as well as the wider culture in which it developed Far from being monolithic the documents which present the voices of the early church fathers in their own words demonstrate variation and diversity regarding how faith was worked out during the patristic period The texts illuminate who was eligible for baptism what was expected of worshippers how the Eucharist was celebrated and how church offices and their functions were organized Contextual introductions explain practices and their development for those with little prior knowledge of Christian history or tradition The pieces included here all in accessible English translation represent such sources as Justin Martyr Tertullian the Cappadocians Cyril of Jerusalem John Chrysostom and Augustine Doctrines of God and Christ in the Early Church Everett Ferguson, 1993 An integrated overview of history The volume in this series are arranged topically to cover biography literature doctrines practices institutions worship missions and daily life Archaeology and art as well as writings are drawn on to illuminate the Christian movement in its early centuries Ample attention is also given to the relation of Christianity to pagan thought and life to the Roman state to Judaism and to doctrines and practices that came to be judged as heretical or schismatic Introductions to each volume tie the articles together for an integrated understanding of the history Offers insights and understanding The aim of the collection is to give balanced and comprehensive coverage selected on the basis of the following criteria original and excellent research and writing subject matter of use to teachers and students groundbreaking importance for the history of research background information for issues and opinions Understanding the development of early Christianity and its impact on Western history and thought offers valuable insights into the modern world and the present state of Christianity It also provides perspective on comparable developments in other periods of history and reveals human nature in its religious dimension *The Early Church* Morwenna Ludlow, 2008-12-17 How did the early Christians manage to establish a religion and institution which despite persecution flourished and grew How did their initial experience of being a despised minority in the Roman Empire shape their sense of privileged identity and uniqueness And how was it that at least at the outset the first believers were able to exist alongside the same shared traditions rituals and beliefs of the Jews despite the Jewish rejection of Jesus as Messiah The Christian community was born out of paradox its faith in a man who was also the anointed one or Christ of God and its growth and development often echoed those complex and contradictory origins Morwenna Ludlow discusses the fragile context as well as the emerging core beliefs of the early Church including divine creation salvation eschatology the humanity and divinity of Christ and the inter relationships of the Trinity between 50-600 CE She also examines the process of Christian

self definition in response to groups on the edge of the Church such as Gnostics Marcionites Montanists and Manichaeans as well as in relation to Judaism Bringing to vivid life the remarkable history of the early Church in all its conflict and struggle the author shows why such a successful faith was able to rise out of such improbable and unpromising beginnings

The Spirit of Early Christian Thought Robert Louis Wilken,2003-01-01 Many of the problems afflicting American education are the result of a critical shortage of qualified teachers in the classrooms The teacher crisis is surprisingly resistant to reforms and is getting worse This analysis of the causes underlying the crisis seeks to offer concrete affordable proposals for effective reform Vivian Troen and Katherine Boles two experienced classroom teachers and education consultants argue that because teachers are recruited from a pool of underqualified candidates given inadequate preparation and dropped into a culture of isolation without mentoring support or incentives for excellence they are programmed to fail Half quit within their first five years Troen and Boles offer an alternative a model of reform they call the Millennium School which changes the way teachers work and improves the quality of their teaching When teaching becomes a real profession they contend more academically able people will be drawn into it colleges will be forced to improve the quality of their education and better prepared teachers will enter the classroom and improve the profession
