**All Rise** Robert W. Fuller, 2006-06-11 A look at the damage abuses of power inherent with rank do to private relationships public institutions and how to prevent it In his groundbreaking book *Somebodies and Nobodies* Robert Fuller identified a form of domination that everyone has experienced but few dare to protest rankism or abuse of the power inherent in rank Low rank signifying weakness marks people for abuse and discrimination in much the same way that race religion gender and sexual orientation have long done In *All Rise* Fuller examines the personal professional and political costs of rankism and provides compelling models and strategies for realizing a post rankist world in which everyone's dignity is upheld Fuller makes the case that rankism is the chief remaining obstacle to achieving liberty and justice for all and shows how we can root it out He doesn't propose that we do away with rank without it organizations become dysfunctional but rather argues for a dignitarian society in which rankism is no longer tolerated He begins by demonstrating how rankism is rife in our social and civic institutions and then explores alternative dignitarian models for education health care politics and religion *All Rise* describes an emerging politics of dignity that bridges the conservative liberal divide to put the We back in We the people It argues that democracy is a work in progress and that its next natural step is the building of a dignitarian society *All Rise* gives us a clear mandate for transforming our society into a true democracy Rosalind Wiseman author of *Queen Bees and Wannabes* the inspiration for the film *Mean Girls* and *Queen Bee Moms and Kingpin Dads* Fuller has it right many are just plain tired of the somebodies stealing their dignity He provides us a roadmap to a better society one that's characterized by equal dignity for all Robert Spanogle National Adjutant The American Legion *All Rise* gives us the essential tools to fight abuses of rank and to build high performing institutions and organizations based on respect It is the operating manual for leaders who recognize the latent power of each individual to make a difference in a free and fair society Wes Boyd Co founder MoveOn.org [Jihad the Jerk at Work](#) Edward M. Quranic verses and the Prophetic traditions relating to jihad will be the focus of this study. The main thrust of the study is to understand how interpretations of jihad vary. It is seen as being both defensive and aggressive by traditionalists only defensive and mainly about moral improvement by progressive Muslims and being insurrectionist aggressive eternal and justifying violence against civilians by radical Islamists. One purpose of the book is to understand how the radical interpretation came to South Asia. The book also explains how theories about jihad are influenced by the political and social circumstances of the period and how these insights feed into practice legitimizing militant movements called jihad for that period.

**Game On** David Bockino, 2024-04 Game On tells the story of how and why the sports media industry grew to become one of the most important and profitable components of the global entertainment landscape.

**Terror in France** Gilles Kepel, 2025-06-24 The virulent new brand of Islamic extremism threatening the West. In November 2015 ISIS terrorists massacred scores of people in Paris with coordinated attacks on the Bataclan concert hall, cafés and restaurants and the national sports stadium. On Bastille Day in 2016 an ISIS sympathizer drove a truck into crowds of vacationers at the beaches of Nice and two weeks later an elderly French priest was murdered during morning Mass by two ISIS militants. Here is Gilles Kepel's explosive account of the radicalization of a segment of Muslim youth that led to those attacks and of the failure of governments in France and across Europe to address it. It is a book everyone in the West must read. Terror in France shows how these atrocities represent a paroxysm of violence that has long been building. The turning point was in 2005 when the worst riots in modern French history erupted in the poor largely Muslim suburbs of Paris after the accidental deaths of two boys who had been running from the police. The unrest or French intifada crystallized a new consciousness among young French Muslims. Some have fallen prey to the allure of war of civilizations rhetoric in ways never imagined by their parents and grandparents. This is the highly anticipated English edition of Kepel's sensational French bestseller first published shortly after the Paris attacks. Now fully updated to reflect the latest developments and featuring a new introduction by the author, Terror in France reveals the truth about a virulent new wave of jihadism that has Europe as its main target. Its aim is to divide European societies from within by instilling fear, provoking backlash and achieving the ISIS dream shared by Europe's Far Right of separating Europe's growing Muslim minority community from the rest of its citizens.

**Tangled Roots: Social and Psychological Factors in the Genesis of Terrorism** J. Victoroff, 2006-11-14 The book is organized to assist readers in finding the topics that interest them the most. What do we really know about the contributing causes of terrorism? Are all forms of terrorism created equal or are there important differences in terrorisms that one must know about to customize effective counter strategies? Does poverty cause terrorism? Are terrorists typically crazy, vengeful, misled or simply making an entirely sensible choice? Why would people blow themselves and others up? Is the war on terrorism even a useful idea? Is it being fought wisely or are much better ideas staring policy makers in the face? Do leaders of targeted nations wilfully neglect the best solutions? Most of the lessons in this book concern the basic human ingredients that combust to

produce violent extremism Thus regardless of the mutations that occur in substate terrorism the timeless scholarship here will hopefully be somewhat helpful even to our grandchildren *Her Blind Heart* London,2020-07-13 When Faith Dies Will Hope In Love Prevail Together for fifteen years Jihad and Zena Thomas loved each other deeper than words could describe They d been through numerous obstacles together but in the end their love always prevailed When trouble moves into their neighborhood their marriage is put to the ultimate test Armondo Diaz s life comes crashing down when a witness to a murder threatens his freedom The clock begins to tick away as he searches high and low to locate the individual not hesitating to kill families to avoid prison Now set on a collision course to cross paths with Jihad a street gangsta turned family man both men are in a fight for their lives and the lives of the ones they hold closest to their hearts There are no rules as these two invisible enemies begin a war of revenge in attempts to avenge lost loved ones From the bullet riddled blocks of Chicago Illinois to the grimey streets of Gary Indiana and then the gang infested small towns of Wisconsin the war between Jihad and Armondo turns legendary Heaven's Bankers Harris Irfan,2015-03-10 A leading Islamic finance banker sheds light on an industry with growing global influence A superb introduction to a fascinating subject Financial Times A trillion dollar financial industry has revolutionized the global economy Governments and corporations across the Islamic world have turned to finance that complies with Shari a law in order to fund economic growth Even in the West Islamic finance became an important alternative source of funding when the conventional finance industry was reeling from the effects of the financial crisis From its origins in the seventh century Islamic finance has sought to develop core ethical principles that are based in the foundations of Islam and Shari a But with an increasing Western interest is it able to remain true to the principles of its faith Can it maintain its ideals of social jus tice Or is Islamic finance guilty of the very dangers it seeks to avoid In Heaven s Bankers Harris Irfan one of the world s leading Islamic finance bankers gives unparalleled insight into the heart of this secretive industry From his personal ex perience of working with leading bankers scholars and law yers he debunks the myths of Islamic banking analyzes its greatest deals and looks to the future of a system that has reprioritized the very nature of money itself Islam in the West Abe W. usually express positive opinions about Islam thereby arguing that the knowledge about and attitudes towards Islam are interrelated
