The heirs of legends - German myths in the mirror of present Hermann Selchow, 2011-01-01 What significance do the ancient myths of our ancestors have today and what do they have to do with the challenges of the present Far more than many believe In times when social and political uncertainty increases or technological developments rapidly transform our world these ancient stories are once again gaining attention This book impressively demonstrates that myths are far more than romantic tales from past centuries They are coded instructions for action in times of crisis and those who read them correctly will discover strategies for courage responsibility and change The author combines sound cultural historical knowledge with modern analysis and makes it clear The ancient stories of Valhalla Siegfried and the gods of the Edda are not just cultural heritage but practical guidance in turbulent times They remind us that it is the individual who makes decisions when the community begins to hesitate They show how to create order out of chaos and why forgetting these stories is a danger to every society This book is aimed at readers interested in myths history and cultural memory and at all those seeking guidance in the present Anyone who wants to learn why our ancient stories should not only be passed on but also understood and utilized will find inspiration food for thought and concrete impulses for action here An indispensable work for all who see in ancient myths not only the past but also the guideposts for a self determined future Hermann Selchow

Hold Everything Dear John Berger, 2016-04-19 From the War on Terror to resistance in Ramallah and traumatic dislocation in the Middle East Berger explores the uses of art as an instrument of political resistance Visceral and passionate Hold Everything Dear is a profound meditation on the far extremes of human behaviour and the underlying despair Looking at Afghanistan Palestine and Iraq he makes an impassioned attack on the poverty and loss of freedom at the heart of such unnecessary suffering These essays offer reflections on the political at the core of artistic expression and even at the center of human existence itself

Para entender la fotografía John Berger, 2015-11-12 El alcance de las reflexiones de John Berger es tan diverso como sustancial e influyente En 1972 Berger revolucionó la teoría del arte con el programa televisivo Ways of Seeing que posteriormente se publicó en el célebre libro homónimo Modos de ver Poco después aparecieron Mirar y Otra manera de contar y en paralelo la obra artística y literaria de Berger La presente antología viene a llenar un vacío en la publicación de su obra teórica y reúne por primera vez en un solo volumen los textos sobre fotografía más importantes del

artista e intelectual brit nico Los cerca de veinticinco ensayos que componen este volumen cuidadosamente seleccionados por el novelista y ensayista Geoff Dyer aparecen ordenados cronol gicamente en un recorrido donde se suceden desde textos emblem ticos ya publicados en algunas de las obras m s conocidas de Berger hasta art culos in ditos aparecidos en cat logos de exposiciones Tambi n comparte sus visiones con colegas como Sebasti o Salgado o Martine Franck y nos regala brillantes reflexiones sobre la obra fotogr fica de Henri Cartier Bresson Paul Strand o Eugene Smith Un conjunto reflexivo de peso que pasa a formar parte por derecho propio de las grandes obras sobre el medio fotogr fico **In the Face of History** Barbican Art Gallery,2006 In the Face of History brings together 22 photographers whose work is rooted in a sense of time and place and who collectively map out a century of European experience Some are caught up in moments of epic conflict while others reflect subtler currents of social change Intensely personal chronicles of community family and love sit alongside and at times overlap with documents of historical record The images range from the trenches of the First World War to the Jewish ghetto of Lodz from the Paris of Atget Brassa and Doisneau to the Berlin of Michael Schmidt and Wolfgang Tillmans and from cities and suburbs to tiny villages They document a vast range of experience but all are distinguished by the photographers compulsion to record the world as they find it a world refracted through the prism of their own experience Page 4 of cover
