**Impunity, an Ethical Perspective** Charles Roy Harper,1996      *Transformed* William G. Mcatee,2011-08-25 In May 1964 Bill McAtee became the new minister at Columbia Presbyterian Church deep in the Piney Woods of south Mississippi Soon after his arrival three young civil rights workers were brutally murdered outside Philadelphia Mississippi Many other activists from across the country poured into the state to try to bring an end to segregation and to register Black citizens to vote Already deeply troubled by the resistance of so many of his fellow white southerners to any change in the racial status quo McAtee understood that he could no longer be a passive bystander A fourth generation Mississippian and son of a Presbyterian minister he joined a group of local ministers two white and four Black to assist the mayor of Columbia Earl D Buddy McLean in building community bridges and navigating the roiling social and political waters Focusing on the quiet leadership of Mayor McLean and fellow ministers McAtee shows how these religious and political leaders enacted changes that began opening access to public institutions and facilities for all citizens Black and white In retrospect McAtee s involvement in these events during this intense period became a turning point in repudiating his past acquiescence to the injustices of the racist society of his birth His personal account of this transformation underscores its meaning for him today and reminds the reader that no generation can ignore the past or rest comfortably on its progress toward tolerance equality and justice      **Philosophical Foundations of International Criminal Law** Morten Bergsmo,Emiliano J. Buis,2019-02-21

**The Theory of Collective Reconciliation** Vahagn Avedian,2024-09-09 What does reconciliation mean and entail Is collective reconciliation for entire societies or nations possible This book aims to present it as a highly achievable albeit difficult and complex goal requiring political and collective commitment resources and most importantly the will to change Reconciliation is the synthesis and an overarching process consisting of a trinity of recognition responsibility and reparation Through comparative case studies where these different aspects have been implemented in a variety of degrees and combinations the book illustrates how these constituent parts relate to each other and how they can enhance and complement one another It also investigates whether there are scenarios where the omission of a certain part can in fact have a positive impact on the reconciliatory process in the short and long terms the extent to which the order in which different measures are implemented matters and how national cases differ from international ones This volume is aimed at postgraduates researchers and academics of peace and conflict studies as well as history social sciences political sciences and legal studies      Boston University International Law Journal ,1999      *Reflections on International Law from the Low Countries* Erik M.G. continents and in a variety of institutions shows the breadth depth and diversity of his interests Like spotlights in the wider field of Christian social ethics they illuminate the key threads that have held together an emerging tapestry of thought woven around the powerful concept of covenant Whether lifting up concepts of covenant federalism and corporation the oikos of work family and faith the public nature and mission of the church or the ethical meaning of journey metaphors his rich and artful style leads us into thinking more deeply about the way our lives are joined in a covenantal imagination about a more just and sustainable world

**After the Peace** Robert L. Rothstein,1999 After the Peace examines peace agreements made in the period after the Cold War and ways in which these agreements might be strengthened Six studies are included that explore three major conflicts from a number of perspectives

**Building a Future on Peace and Justice** Kai Ambos,Judith Large,Marieke Wierda,2008-12-04 Results of the 2007 Nuremberg Conference on Peace and Justice Tensions between peace and justice have long been debated by scholars practitioners and agencies including the United Nations and both theory and policy must be refined for very practical application in situations emerging from violent conflict or political repression Specific contexts demand concrete decisions and approaches aimed at redress of grievance and creation of conditions of social justice for a non violent future There has been definitive progress in a world in which blanket amnesties were granted at times with little hesitation There is a growing understanding that accountability has pragmatic as well as principled arguments in its favour Practical arguments as much as shifts in the norms have created a situation in which the choice is increasingly seen as which forms of accountability rather than a stark choice between peace and justice It is socio political transformation not just an end to violence that is needed to build sustainable peace This book addresses these dilemmas through a thorough overview of the current state of legal obligations discussion of the need for a holistic approach including development analysis of the implications of the coming into force of the ICC and a series of hard case studies on internationalized and local approaches devised to navigate the tensions between peace and justice

**Church, Cosmovision and the Environment** Evan Berry,Robert Albro,2018-06-27 Though currently only partially understood evolving interactions among Latin American communities of faith governments and civil societies are a key feature of the popular mobilizations and policy debates about environmental issues in the region This edited collection describes and analyses multiple types of religious engagement with environmental concerns and conflicts seen in modern Latin American democracies This volume contributes to scholarship on the intersections of religion with environmental conflict in a number of ways Firstly it provides comparative analysis of the manner in which diverse religious actors are currently participating in transnational national and local advocacy in places such as Peru Argentina Brazil Bolivia Ecuador Guatemala and Mexico It also considers the diversity of an often plural religious engagement with advocacy including Catholic Evangelical and Pentecostal perspectives alongside the effects of indigenous cosmological ideas Finally this book explores the specific religious sources of seemingly unlikely new alliances and novel articulations of rights social justice and ethics for the

environmental concerns of Latin America The relationship between religion and environmental issues is an increasingly important topic in the conversations around ecology and climate change This book is therefore a pertinent and topical work for any academic working in Religious Studies Environmental Studies and Latin American Studies     **Alternative**

**Perspectives on Lawyers and Legal Ethics** Reid Mortensen, Francesca Bartlett, Kieran Tranter, 2010-09-13 The study of legal ethics and the legal profession has emerged as a distinct and important field of scholarship over the last 30 years However as in other disciplines academic recognition can in turn entrench static and powerful meta theories and narratives about professional ethos and practise this collection seeks to disrupt this homogenising impulse and to present alternative voices by bringing together a range of international scholars writing about legal ethics and the legal profession The book features significant and timely contributions which take contemporary and non mainstream perspectives on the current and future shape of the legal profession The essays not only describe the rapidly changing profession but canvas different approaches to scholarship on the legal profession The collection seeks to explore a diverse and contextualised profession from a number of angles Authors examine how the public sees lawyers and how lawyers see their own profession how we practise law and how this practice shapes lawyers how such cultural and professional practice intersects with institutional structures of the law to create certain legal outcomes and how we regulate the legal profession to modify or institute ethical practice The volume provides insights into legal culture and ethics from the perspective of authors from Australia Canada England the United States New Zealand and Kenya a diversity of national perspectives that give valuable insights into developments in the profession at the local and global level It also illustrates diversity within the profession by tracing differing professional career trajectories based on raced or gendered barriers alternative ethical strategies and the impact of organisational cultures in which lawyers practice     Religious and Ethical Perspectives on Global Migration Elizabeth W. Collier, Charles R. Strain, 2014-06-05 Religious and Ethical Perspectives on Global Migration examines the complicated social ethics of migration in today s world Editors Elizabeth W Collier and Charles R Strain bring the perspectives of an international group of scholars toward a theory of justice and ethical understanding for the nearly two hundred million migrants who have left their homes seeking asylum from political persecution greater freedom and safety economic opportunity or reunion with family members Migrants move out of fear desperation hope love for their families or a myriad of other complex motivations Faced with both the needs and flows of people and the walls that impede them what actions ought we both individually and collectively take What is the moral responsibility of those of us in particular who reside comfortably in our native lands There is no univocal response to these questions Instead multiple perspectives on migration must be examined This book begins by looking at different geographic regions around the world and highlighting particular issues within each Finding that religious traditions represent the strongest countervailing sources of values to the homogenizing tendencies of economic globalization the study then offers a plurality of religious perspectives The final chapters examine the

salient issues and the proposed solutions that have emerged specifically within the U S context These studies range from militarization of the U S border with Mexico to the impact of migrants on native born low skilled workers Encompassing a wide range of cultural and scholarly voices Religious and Ethical Perspectives on Global Migration provides insight for ethics moral philosophy social and political philosophy religious studies social justice globalization and identity formation
