The Violence of Reading Dominik Zechner, 2024-04-26 *The Violence of Reading Literature and Philosophy at the Threshold of Pain* expounds the scene of reading as one that produces an overwhelmed body exposed to uncontainable forms of violence The book argues that the act of reading induces a representational instability that causes the referential function of language to collapse This breakdown releases a type of linguistic pain Scarry Butler Hamacher that indicates a

constitutive wounding of the reading body The wound of language marks a rupture between linguistic reality and the phenomenal world Exploring this rupture in various ways the book brings together texts and genres from diverse traditions and offers close examinations of the rhetoric of masochism Sacher Masoch Deleuze the relation between reading and abuse Nietzsche Proust Jelinek the sublime experience of reading Kant Kafka de Man the novel of the institution Musil Campe and literary suicide Bachmann Berryman Okkervil River Speaking the Taboo Paul Cooke,2021-11-22 Wolfgang Hilbig is a writer who is widely acknowledged as one of the most important to have emerged from the former GDR In this study the first in English Paul Cooke explores the interplay of aesthetic and social taboos as defined by the official discourse of the GDR in a cross section of Hilbig s critical writing poetry and prose The protagonists in Hilbig s texts suffer from a profound crisis of identity due to the disparity between the state s official presentation of life in the East and their own experience Cooke argues that through their exploration of the taboo i e that which is excluded from the state s official discourse Hilbig s characters attempt to break through the banal rhetoric of the ruling elite in order to realise an authentic sense of self

Kafka and Dostoyevsky W.J. Dodd,2016-07-27 This book evaluates the importance of Dostoyevsky s life and imaginative fiction as a stimulus to Kafka s own writing Dostoyevskian material is situated within detailed readings of particular works The principle sources discussed are The Double Notes from Underground Crime and Punishment and Dostoyevsky s autobiography It is argued that Kafka s use of Dostoyevsky is driven by antagonism as much as by admiration **Imperial Messages** Robert Lemon,2011 Orientalism as self critique rather than hegemonic discourse in works by Hofmannsthal Musil and Kafka In recent years a debate has arisen on the applicability of postcolonial theory to the Austro Hungarian Empire Some have argued that Austria Hungary s lack of overseas territories renders the concepts of colonialism and postcolonialism irrelevant while others have cited the quasi colonial attitudes of the Viennese elite towards the various subject peoples of the empire as a point of comparison Imperial Messages applies postcolonial theory to works of orientalist fiction by Hugo von Hofmannsthal Robert Musil and Franz Kafka all subjects of the empire challenging Edward Said s notion that orientalism invariably acts in the ideological service of European colonialism It argues that these Habsburg authors employ oriental motifs not to promulgate Western hegemony but to engage in self reflection and self critique including critique of the foundational concepts of orientalist discourse itself By providing detailed textual analyses of canonical works of Austrian Modernism including Hofmannsthal s Tale of the 672nd Night Musil s Young T rless and Kafka s In the Penal Colony the book not only offers new postcolonial readings of these Austrian works but also shows how they question the conventional postcolonial and post Saidian view of orientalism as a purely hegemonic discourse Robert Lemon is Associate Professor of German at the University of Oklahoma **The Lesser Evil** Helmut Dubiel,Gabriel Motzkin,2004-04-22 In this book scholars debate the evils of Nazism and Communism and explore methods and purposes of comparing the two **Exotic Spaces in German Modernism** Jennifer Anna Gosetti-Ferencei,2011-10-20 Jennifer Anna Gosetti Ferencei demonstrates that the

exotic as reflected in major works of German literature and in the philosophy and art that inspires it provokes central questions about the modern self and the spaces it inhabits Exotic spaces in the writings of such authors as Thomas Mann Franz Kafka Stefan Zweig Robert Musil Hugo von Hofmannsthal Gottfried Benn and Bertold Brecht along with the thought of Nietzsche Freud Levi Strauss and Simmel and the art of German Expressionism are shown to present alternatives to the landscape and experience of modernity In an examination of the concept of the exotic and of spatial experience in their cultural subjective and philosophical contingencies Gosetti Ferencei shows that exotic spaces may contest and reconfigure the relationship between the familiar and the foreign the self and the other Exotic spaces may serve not only to affirm the subject in a symbolic conquering of territory as emphasized in post colonial interpretations or project the fantasy of escapism to a lost paradise as utopian readings suggest but condition moral aesthetic or imaginative transformation Such transformation while risking disaster or dissolution of the self as well as endangerment of the other may promote new possibilities of perceiving or being and reconfigure the boundaries of a familiar world As exotic spaces are conceived as mystical liberating erotic infectious frightening or mysterious several possibilities for transformation emerge in their exposure re enchantment through epiphany the collapse of the rational self liberation of the imagination from the confines of the familiar world and aesthetic transformation revealing the paradoxically primitive nature of modern experience In strikingly original readings of canonical authors and compelling rediscoveries of forgotten ones this study establishes that exotic experience can evidence the fragility of the European or Germanic self as depicted in modernist literature revealing the usually unconsidered boundaries of the subject's own familiar world

Inconceivable Effects Martin

Blumenthal-Barby, 2013-08-15 In *Inconceivable Effects* Martin Blumenthal-Barby reads theoretical literary and cinematic works that appear noteworthy for the ethical questions they raise Via critical analysis of writers and filmmakers whose projects have changed our ways of viewing the modern world including Hannah Arendt Franz Kafka Walter Benjamin the directors of Germany in Autumn and Heiner Müller these essays furnish a cultural base for contemporary discussions of totalitarian domination lying and politics the relation between law and body the relation between law and justice the question of violence and our ways of conceptualizing the human A consideration of ethics is central to the book but ethics in a general philosophical sense is not the primary subject here instead Blumenthal-Barby suggests that whatever understanding of the ethical one has is always contingent upon a particular mode of presentation *Darstellung* on particular aesthetic qualities and features of media Whatever there is to be said about ethics it is always bound to certain forms of saying certain ways of telling certain modes of narration That modes of presentation differ across genres and media goes without saying that such differences are intimately linked with the question of the ethical emerges with heightened urgency in this book

Kafka's Blues Mark Christian Thompson, 2016-06-15 Kafka's *Blues* proves the startling thesis that many of Kafka's major works engage in a coherent sustained meditation on racial transformation from white European into what Kafka refers to as the

Negro a term he used in English Indeed this book demonstrates that cultural assimilation and bodily transformation in Kafka's work are impossible without passage through a state of being Negro Kafka represents this passage in various ways from reflections on New World slavery and black music to evolutionary theory biblical allusion and aesthetic primitivism each grounded in a concept of writing that is linked to the perceived congenital musicality of the Negro and which is bound to his wider conception of aesthetic production Mark Christian Thompson offers new close readings of canonical texts and undervalued letters and diary entries set in the context of the afterlife of New World slavery and in Czech and German popular culture

Bureaucratic Fanatics Benjamin Lewis Robinson, 2019-05-20 Is justice only achievable by means of bureaucratization or might it first arrive with the end of bureaucracy Bureaucratic Fanatics shows how this ever more contentious question in contemporary politics belongs to the political theological underpinnings of bureaucratization itself At the end of the 18th century a new and paradoxical kind of fanaticism emerged rational fanaticism that propelled the intensive biopolitical management of everyday life in Europe and North America as well as the extensive colonial exploitation of the earth and its peoples These excesses of bureaucratization incited in turn increasingly fanatical forms of resistance And they inspired literary production that provocatively presented the outrageous contours of rationalization Combining political theory with readings of Kleist Melville Conrad and Kafka this genealogy of bureaucratic fanaticism relates two extreme figures fanatical bureaucrats driven to the ends of the earth and to the limits of humanity by the rationality of the apparatuses they serve and peculiar fanatics who passionately albeit seemingly passively resist the encroachments of bureaucratization

Heinrich von Kleist Jeffrey L High, Sophia Clark, 2013-12-01 In an authorial class with dramatists and authors of literary prose such as Goethe Schiller Thomas Mann Brecht and Kafka Heinrich von Kleist 1777 1811 remains prominent in international evaluations of artistic genius when measured by enduring popular and artistic reception legal philosophical and scientific criticism and resonance of political rage Scholars have long been fascinated by Kleist's biography and works in no small part due to his influence on authors philosophers political thinkers and filmmakers who regard Kleist as among the most accessible of classic artists one whose relevance requires neither theoretical introduction nor literary historical justification The present volume addresses two centuries of engagement with Kleist and his works from an angle that has proven most important to their popular canonical status his artistic and political legacies What mattered to Kleist has mattered to centuries of readers and thus all the more to artists and thinkers with similarly urgent messages to convey

Literature and Law , 2016-08-09 In recent years there has been a continuing and persistent world wide interest in the interaction between the two disciplines of law and literature Although there have been many collections of primary texts that combined these two areas this volume presents literary analyses and criticism in an attempt to assess the varied relationships between law and justice between lawyers and clients and between readers perceptions and authors intent hopefully suggesting why they have continually been yoked together One similarity between the two is that lawyers like

writers must catch their audience's attention by novelty of scene, distinctiveness of voice and ingenuity of design. Furthermore, legal advocates must recreate a concrete sense of reality, developing vivid and valid pictures of a specific time and place. In short, both lawyers and writers attempt to provide a basis for juries, readers, to judge defendants' characters by their motivations and their actions and to decide whether a favorable ruling/assessment is justified. Collectively, the essays in this book are designed to deal with themes of guilt and innocence, right and wrong, morality and legality. The essays also suggest that the world as it is delineated by lawyers is indeed a text that like its literary counterparts sometimes blurs the distinction between fact and fiction as it attempts to define truth and to establish criteria for impartial justice. By exploring interdisciplinary contexts, readers will surely be made more aware, more sensitive to the roles that stories play in the legal profession and to the dilemmas faced by legal systems that often succeed in maintaining the rights and privileges of a dominant societal group at the expense of a less powerful one.
