In Midlife A Jungian Perspective:

In Midlife Murray Stein, 1983 *Midlife Crisis* Ronald Richard Harris, 1998 Jung and the Jungians on Myth Steven Walker, 2014-04-08 Carl Gustav Jung 1875 1961 was never more insightful and intriguing than when he discussed mythology The key to understanding the Jungian approach to mythology lies in the concept of the image which provides the basis for his theory of the unconscious By emphasizing the image over the word Jungian psychology distinguishes itself dramatically from Freudian Lacanian and other psychologies that stress the task of interpreting the language the words of the unconscious In *Jung and the Jungians on Myth* Steven Walker carefully leads the reader through the essential lines of thought in Jungian psychology before developing his method for using Jungian ideas to approach mythological texts Whether one is sympathetic toward Jung's ideas or critical of them one will find in Walker's discussion a lucid introduction to Jungian perspectives on myth and psychology

Jung and the Jungians on Myth Steven F. Walker, 2002 In this book Steven Walker carefully leads the reader through the fundamentals of the psychology that underlies Jung's theory of myth He defines key terms and distinguishes dream from fantasy in psychological experience He then traces the lineage of Jungian theory from Jung through such disciples as Van Franz and Neumann to contemporary archetypal psychology By applying Jungian psychology to an array of myths to illustrate core concepts of this theoretical tradition Walker fills a conspicuous gap in the current literature on Jung from back cover

Reading Goethe at Midlife Paul Bishop, 2020-07-13 This book explores the history of the idea of the midlife crisis using the writings of C G Jung and Goethe to investigate its relevance for today Tracing how the ages of humankind became the stages of life in which the midlife crisis represents a pivotal moment Paul Bishop offers a detailed analysis of a paper by Jung on this subject He then shifts the focus to Goethe's interest in Orphic wisdom and one of Goethe's major later poems *Primal Words* *Orphic Urworte* *Orphisch* Using Jungian ideas to explore the psychological implications of this poem Bishop draws on Goethe's own commentary and other background material to uncover its vital message *Reading Goethe at Midlife* reveals the remarkable symmetry between the

ideas and Jung and Goethe Jung's analysis of the stages of life and his advice to heed the call of the self are brought into the conjunction with Goethe's emphasis on the importance of hope showing an underlying continuity of thought and relevance from ancient wisdom via German classicism to analytical psychology At a time when many Jungians are turning to neuroscience to provide an external underpinning for Analytical Psychology this scholarly book is very welcome it returns to psychology's home territory placing Jung firmly in a long cultural tradition Impressively well read in many fields extending from literature and the history of ideas to psychoanalysis and Jungian studies Paul Bishop allows a text by Jung and a late poem by Goethe to mirror and enhance each other demonstrating Jung's intellectual proximity to the tradition of German classicism The wealth of amplifications that Bishop brings to the many themes treated allows us to experience a living reality a continuity of ideas across different times and cultures

Astrology of Midlife and Aging Erin Sullivan, 2005-05-19 The first in depth analysis of how an individual's natal horoscope reveals the unique challenges and opportunities of midlife Between the ages of thirty seven and forty one something mysterious takes place within the psyche Jung called this phase our unlived life assuming rightly that midlife did not inaugurate a time of rapid decay loss of libido and inevitable death but rather ushered in a period in which one might review one's life and build upon a strong foundation toward the next phase of adulthood Acclaimed astrologer Erin Sullivan takes us through the vast changes that astrology reveals as we reach middle age It is a moment in life that is characterized by the planet Uranus one filled with opportunities to both rethink the past and move forward toward the future witnessing our lives in the way Uranus connotes There exist no maps of the terrain except the natal horoscope

Midlife Transformation in Literature and Film Steven F. Walker, 2012 In this book Steven F Walker considers the midlife transition from a Jungian and Eriksonian perspective by providing vivid and powerful literary and cinematic examples that illustrate the psychological theories in a clear and entertaining way For C G Jung midlife is a time for personal transformation when the values of youth are replaced by a different set of values and when the need to succeed in the world gives place to the desire to participate more in the culture of one's age and to further its development in all kinds of different ways Erik Erikson saw generativity an expanded concern for others beyond one's immediate circle of family and friends as the hallmark of this stage of life Both psychologists saw it as a time for growth and renewal Literary texts such as Virginia Woolf's *Mrs Dalloway* Shakespeare's *Antony and Cleopatra* or Sophocles' *Oedipus the King* and films such as Fellini's *8 1/2* and *Campione's The Piano* have the capacity to represent sometimes more vividly and with greater dramatic concentration than actual life histories or case studies the archetypal nature of the drama and in depth transformation associated with the midlife transition *Midlife Transformation in Literature and Film* focuses on the specific male and female archetypal paradigms and presents them within the general context of midlife transformation For men the theme of death of the young hero presides over the crisis and the transformative ordeal whereas for women the theme of tragic abandonment acts as the prelude to further growth and independence This book is essential reading for anyone studying Jung Erikson or

the midlife transition It will interest those who have already been through a midlife transition those who are in the midst of one as well as those who are yet to experience this challenging period **Jung's Red Book For Our Time** Murray Stein, Thomas Arzt, 2021-09-25 Edited by Murray Stein and Thomas Arzt the essays in the series Jung's Red Book for Our Time Searching for Soul under Postmodern Conditions are geared to the recognition that the posthumous publication of The Red Book Liber Novus by C G Jung in 2009 was a meaningful gift to our contemporary world The Red Book can be considered as a contribution to the Golden Chain aurea catena of the world's imaginative literature reaching back to the ancient Sumerian Epic of Gilgamesh As Jung describes this tradition in a letter to Max Rychner Faust is the most recent pillar in that bridge of the spirit which spans the morass of world history beginning with the Gilgamesh epic the I Ching the Upanishads the Tao te Ching the fragments of Heraclitus and continuing in the Gospel of St John the letters of St Paul in Meister Eckhart and in Dante The Red Book extends the Golden Chain into our era Each of the 18 essays in this third volume of the series Jung's Red Book for Our Time is unique and all of them converge on the central theme of the relevance of The Red Book for people today in search of soul under postmodern conditions This is the third volume of a multi volume series set up on a global and multicultural level and includes essays from the following distinguished Jungian analysts and scholars

Mid-life Transition Larry P. Niese, 1991 **Carl Gustav Jung** Renos K. Papadopoulos, 1992 *Psychoanalysis of Aging and Maturity* Guillermo Julio Montero, 2020-10-12 As developing countries increasingly confront the issues of an aging population this important book identifies the key period in the life cycle in which changes to the body as well as concomitant psychological developments result in the entering of a new phase of life maturescence The author defines the metapsychology of maturescence from a psychoanalytic standpoint detaching it from the concepts of midlife and middle age Supported by clinical examples the book defines the stimuli which are the precursors to this phase before examining the complete set of psychological challenges it entails The author also highlights how maturescence has been illustrated in key literary figures in the 20th century and draws parallels with the mythical cycle of the hero This fascinating and original book will be essential reading for psychoanalysts psychotherapists and any professional working with issues around aging The Middlepause Marina Benjamin, 2017-03-14 In The Middlepause Benjamin deftly and brilliantly examines the losses and unexpected gains she experienced in menopause Menopause is a mind and body shift as monumental and universal as puberty yet far less often discussed especially in public which is what makes Benjamin's work here so urgently necessary Kate Tuttle The Los Angeles Times The Middlepause offers a vision of contentment in middle age without sentiment or delusion Marina Benjamin weighs the losses and opportunities of our middle years taking inspiration from literature science philosophy and her own experience Spurred by her surgical propulsion into a sudden menopause she finds ways to move forward while maintaining clear eyed acknowledgment of the challenges of aging Attending to complicated elderly parents and a teenaged daughter experiencing bereavement her own health woes and a fresh impetus to give Benjamin emerges into

a new definition of herself as daughter mother citizen and woman Among The Middlepause s many wise observations about no longer being young I am discovering that I care less about what other people think My needs are leaner and my storehouse fuller It is not possible to fully appreciate what it means to age without attending to what the body knows I have always had a knee jerk distaste for the idea that age is all in the mind You need a cohort of peers to go through the aging process with you A cackle of crones A cavalry Marina Benjamin s memoir will serve as a comfort a companion to women going through the too seldom spoken of physical and mental changes in middle age and beyond

Map of the Soul - Persona Murray Stein,2019-05-16 There is a lot of interest in today s culture about the idea of Persona and the psychological mapping of one s inner world In fact the interest is so strong that the superstar Korean Pop band BTS has taken Dr Murray Stein s concepts and woven them into the title and lyrics of their latest album Map of the Soul Persona What is our persona and how does it affect our life s journey What masks do we wear as we engage those around us Our persona is ultimately how we relate to the world Combined with our ego shadow anima and other intra psychic elements it creates an internal map of the soul T S Eliot one of the most famous English poets of the 20th Century wrote that every cat has three names the name that everybody knows the name that only the cat s intimate friends and family know and the name that only the cat knows As humans we also have three names the name that everybody knows which is the public persona the name of that only your close friends and family know which is your private persona and the name that only you know which refers to your deepest self Many people know the first name and some people know the second Do you know your secret name your individual singular unique name This is a name that was given to you before you were named by your family and by your society This name is the one that you should never lose or forget Do you know it

Round Trip to Hades in the Eastern Mediterranean Tradition ,2018-08-13 Round Trip to Hades in the Eastern Mediterranean Tradition explores how the theme of visiting the Underworld and returning alive has been treated transmitted and transformed in the ancient Greek and Byzantine traditions The journey was usually a descent katabasis into a dark and dull place where forgetfulness and punishment reigned but since everyone was there it was also a place that offered opportunities to meet people and socialize Famous Classical round trips to Hades include those undertaken by Odysseus and Aeneas but this pagan topic also caught the interest of Christian writers The contributions of the present volume allow the reader to follow the passage from pagan to Christian representations of Hades a passage that may seem surprisingly effortless

Wild/lives Terrie Waddell,2014-02-25 Wild lives draws on myth popular culture and analytical psychology to trace the machinations of trickster in contemporary film and television This archetypal energy traditionally gravitates toward liminal spaces physical locations and shifting states of mind By focusing on productions set in remote or isolated spaces Terrie Waddell explores how key trickster infused sites of transition reflect the psychological fragility of their willing and unwilling occupants In differing ways the selected texts Deadwood Grizzly Man Lost Solaris The Biggest Loser Amores Perros and Repulsion all play with inner and outer marginality

As this study demonstrates the dramatic potential of transition is not always geared toward resolution Prolonging the anxiety of change is an increasingly popular option Trickster moves within this wildness and instability to agitate a form of dialogue between conscious and unconscious processes Waddell's imaginative interpretation of screen material and her original positioning of trickster will inspire students of media cinema gender and Jungian studies as well as academics with an interest in the application of Post Jungian ideas to screen culture

Regeneration Jane Polden, 2002-01-09 The dramas of mid life are dramas of abandonment and freedom of highly charged sexual engagements in real time or in fantasy and of sudden encounters with mortality and loss The details are as varied as people's lives are diverse but similar themes reappear with unerring regularity over and over in mid life It is a time when everything from the most fundamental questions of identity and meaning to the daily experience of our own bodies and sexuality is thrown into upheaval making mid life transition for many people the most disturbing period since the onset of adolescence Recognizing that many of us feel sometimes very much to our surprise that we have lost our way at mid life Polden explores compassionately and sensitively the origins and experiences of mid life crisis Regeneration is a fundamentally optimistic book that argues that while deep seated changes are often painful there are great gains to be made at mid life By helping readers toward improved self awareness and a better understanding of the demands and choices of mid life Regeneration shows how we can begin to lead lives more truly informed by the values that will serve us best in the second halves of our lives

The Trickster and the System Helena Bassil-Morozow, 2014-09-25 For centuries the trickster has been used in various narratives including mythological literary and cinematic to convey the idea of agency rebellion and often turbulent progress In The Trickster and the System Identity and Agency in Contemporary Society Helena Bassil Morozow shows how the trickster can be seen as a metaphor to describe the psycho anthropological concept of change an impulse that

challenges the existing order of things a progressive force that is a structural and anti structural in its nature The book is about being able to see things from an unusual even odd perspective which does not coincide with the homogenous normality of the mass or the social system or a political ideology or some other kind of authority The Trickster and the System offers an analytical paradigm which can be used to examine relationships between tricksters and systems change and stability in a wide range of social political and cultural contexts It covers a range of systems describes different types of tricksters and discusses possible conflicts tensions and dialogues between the two opposing sides One of the central ideas of the book is that social systems use shame as a tool to control and manage all kinds of tricksters individuality agency creativity spontaneity innovation and initiative to name but a few The author argues that any society that neglects its tricksters agents of change ends up suffering from decay stagnation or even mass hysterical outbursts The Trickster and the System Identity and Agency in Contemporary Society provides a fresh perspective on the trickster figure in a variety of cultural contexts It covers a range of psychological cultural social and political phenomena from personal issues to the highest level of society s functioning self esteem and shame lifestyle and relationships creativity and self expression media advertising economy political ideology and most importantly human identity and authenticity The book is essential reading for scholars in the areas of psychoanalysis analytical psychology myth cultural and media studies narrative analysis cultural anthropology as well as anyone interested in critical issues in contemporary culture Helena Bassil Morozow is a cultural philosopher film scholar and academic writer whose many publications include Tim Burton The Monster and the Crowd Routledge 2010 and The Trickster in Contemporary Film Routledge 2011 Helena is currently working on another Routledge project Jungian Film Studies the Essential Guide co authored with Luke Hockley Her principal academic affiliation is the University of Bedfordshire Faculty of Creative Arts Technologies Science
