A BOOK OF GHOSTS Sabine Baring-Gould, 2015-10-16 The city of Bayonne lying on the left bank of the Adour and serving as its port is one that ought to present much interest to the British tourist on account of its associations For three hundred years along with Bordeaux it belonged to the English crown The cathedral a noble structure of the fourteenth century was reared by the English and on the bosses of its vaulting are carved the arms of England of the Talbots and of other great English noble families It was probably designed by English architects for it possesses in its vaulting the long central rib so characteristic of English architecture and wholly unlike what was the prevailing French fashion of vaulting in compartments and always without that connecting rib like the inverted keel of a ship with which we are acquainted in our English minsters Under some of the modern houses in the town are cellars of far earlier construction also vaulted and in them as well may be seen the arms of the English noble families which had their dwellings above But Bayonne has later associations with us At the close of the Peninsular War when Wellington had driven Marshal Soult and the French out of Spain and had crossed the Pyrenees his forces under Sir John Hope invested the citadel In February 1814 Sir John threw a bridge of boats across the Adour boats being provided by the fleet of Admiral Penrose in the teeth of a garrison of 15 000 men and French gunboats which guarded the river and raked the English whilst conducting this hazardous and masterly achievement This brilliant exploit was effected whilst Wellington engaged the attention of Soult about the Gaves affluents of the Adour near Orthez It is further interesting with a tragic interest on account of an incident in that campaign which shall be referred to presently The cathedral of Bayonne some years ago possessed no towers the English were driven out of Aquitaine before these had been completed The west front was mean to the last degree masked by a shabby penthouse plastered white or rather dirty white on which in large characters was

Haunting Realities Monika Elbert, Wendy Ryden, 2017-06-20 An innovative collection of essays examining the sometimes paradoxical alignment of Realism and Naturalism with the Gothic in American literature to highlight their shared qualities Following the golden age of British Gothic in the late eighteenth century the American Gothic's pinnacle is often recognized as having taken place during the decades of American Romanticism However Haunting Realities explores the period of American Realism the end of the nineteenth century to discover evidence of fertile ground for another age of Gothic proliferation At first glance Naturalist Gothic seems to be a contradiction in terms While the Gothic is known for its sensational effects with its emphasis on horror and the supernatural the doctrines of late nineteenth century Naturalism attempted to move away from the aesthetics of sentimentality and stressed sobering mechanistic views of reality steeped in scientific thought and the determinism of market values and biology Nonetheless what binds Gothicism and Naturalism together is a vision of shared pessimism and the perception of a fearful lingering presence that ominously haunts an impending modernity Indeed it seems that in many Naturalist works reality is so horrific that it can only be depicted through Gothic tropes that prefigure the alienation and despair of modernism In recent years research on the Gothic has flourished yet there has been no extensive study of the links between the Gothic and Naturalism particularly those which stem from the early American Realist tradition Haunting Realities is a timely volume that addresses this gap and is an important addition to scholarly work on both the Gothic and Naturalism in the American literary tradition Twenty Years'
