Verrett,2020-02-17 In this study Brian A Verrett argues that 1 2 Samuel contains a serpent motif by practicing biblical theology and literary criticism This motif derives from the serpent in Genesis 3 and its function within the Samuel narrative is to heighten the reader s anticipation in the coming messiah who is the son of David and the seed of the woman from Genesis 3 15 This messiah will defeat the serpent and inaugurate his glorious reign over a renewed world When 1 2 Samuel is read in this way one appreciates previously unnoticed features of the text understands aspects of the text that were formerly confusing and rightly sees that the whole of 1 2 Samuel is a messianic document **Performing Embodiment in Samuel Beckett's Drama** Anna McMullan,2020-07-24 The representation and experience of embodiment is a central preoccupation of Samuel Beckett s drama one that he explored through diverse media McMullan investigates the full range of Beckett s dramatic canon for

stage radio television and film including early drama mimes and unpublished fragments She examines how Beckett's drama composes and recomposes the body in each medium and provokes ways of perceiving conceiving and experiencing embodiment that address wider preoccupations with corporeality technology and systems of power McMullan argues that the body in Beckett's drama reveals a radical vulnerability of the flesh questioning corporeal norms based on perfectible autonomous or invulnerable bodies but is also the site of a continual reworking of the self and of the boundaries between self and other Beckett's re-imagining of the body presents embodiment as a collaborative performance between past and present flesh and imagination self and other including the spectator listener
