

AFT President Randi Weingarten Delivers Major National Address
'In Defense of Public Education'

Attacks on public education are not new. The difference today is that the attacks are intended to destroy it. To make it a battlefield, a political cudgel. But we also must do better to address the learning loss and disconnection we are seeing in our young people. We can make every public school a school where parents want to send their kids, educators want to work and all students thrive.

In Defence Of Public Schooling In North America

Susan E. Houston, Alison L. Prentice

In Defence Of Public Schooling In North America:

In Defense of the American Public School Arthur J. Newman, 1978-01-01 The fifties saw schools as purveyors of international Communism the sixties attacked the public educational system as racist mindless and irrelevant and the Bicentennial era calls the schools down for their failure to teach students fundamental academic skills Professor Arthur Newman's book of readings reflects an idea clearly regarded as heretical in many circles the idea that the American public school is not nearly so inadequate as many present day critics insist In order to aid the teacher to be the educator and the concerned citizen in evaluating the validity of such reproval Newman has included a wide variety of material both classic and recent under the following heads The Charge to the Public Schools The Always Abundant Criticism The Schools Record in Academic Achievement The Treatment of Minority Group Youngsters Are the Schools Inflexible Public School Teachers Public Schools and Social Ills A Critique of the Critics Anyone disturbed about the state of American public education will appreciate Newman's celebration of the myriad strengths of our schools and will esteem the intelligent and responsible perspective he sets forth to evaluate today's criticism of U S schools *Restructuring Public Schooling: Europe, Canada, America* Rodney J. Reed, Fons van Wieringen, Stephen Lawton, Stephen B. Lawton, Rodney J. Reed, This volume offers an overview of educational restructuring its aims and possibilities in the European and North American context A conceptual analysis of educational policy systems and development in both continents is provided and empirical cases are presented within this framework Overviews are given of the national stage in Canada from several countries **Annals of the American Academy of Political and Social Science**, 1914 **N.E.A. Office of Education, 1964 Democracy and North America Alan Ware, 2013-10-23 The contributions here consider a number of themes and issues which account for the successful democratization of the United States and Canada and offer an analysis of the reasons for the absence of democratization in Mexico Educational Justice Michael S. Merry, 2019-12-20 2020 Finalist for Book of the Year Award North American Society of Social and Political Philosophy NASSP This book examines the philosophical motivational and practical challenges of education theory policy and practice in the twenty first century There is a loud and persistent drum beat of support for schools for citizenship for diversity and inclusion and increasingly for labor market readiness with very little critical attention to the assumptions underlying these agendas let alone to their many internal contradictions Merry does not neglect the historical comparative international context so essential to better understanding where we are as well as what is attainable in terms of educational justice He argues that we must constructively critique some of our most cherished beliefs about

education if we are to save the hope of real justice from the rhetoric of imagined justice *National Defense Education Act*

Ontario Susan E. Houston, Alison L. Prentice, 1988-01-01 Nineteenth century educational reformers were fond of an
agricultural metaphor when it came to the provision of more and better schooling even good land they argued had to be
cultivated otherwise noxious weeds sprang up In this study of education in Ontario from the establishment of Upper Canada to
the end of Egerton Ryerson's career as chief superintendent of schools in 1876 Susan Houston and Alison Prentice explore
the roots of the provincial public school system set up to instill a work ethic and moral discipline appropriate to the new
society as well as the beginnings of separate schools today the Ontario school system is once again the subject of intense and
often bitter debate Many of the most contentious issues have deep and complex roots that go back to this era Houston and
Prentice tell the story of how Ontario came to have a universal school system of exceptional quality and shed valuable light
on an area of current concern **Monthly Catalog of United States Government Publications** United States.
Superintendent of Documents, 1989 *Problems of Greater Britain* Charles Wentworth Dilke, 1890 **Education**, 1890
Patricians, Professors, and Public Schools Allan S. Horlick, 1994-04-01 Patricians Professors and Public Schools
argues that the thinking behind efforts to reform American schools in the late nineteenth and early twentieth centuries
emphasized two new ideas that economic growth and the opportunity it created were more limited than had earlier been
thought and that popular aspirations should be revised downward accordingly After discussing the thinking that reformers
reacted against in the first chapter of the book later chapters examine those most responsible for these new ideas especially
Felix Adler and John Dewey These chapters argue that reformers' fears about the social dislocation stemming from economic
growth makes the most sense of the educational redirection they promoted This is a new interpretation of developments that
have long been debated by American historians and should be of interest to a wide variety of readers *Conservation*
