*The Comfort of Strangers* Gage McWeeny, 2016 This text argues for a new understanding of the relation between nineteenth century realist literary form and the socially dense environments of modernity      Postnaturalism Shane Denson, 2014-07-15 Postnaturalism offers an original account of human technological co evolution and argues that film and media theory in particular needs to be re evaluated from the perspective of our material interfaces with a constantly changing environment Extrapolating from Frankenstein films and the resonances they establish between a hybrid monster and the spectator hooked into the machinery of the cinema Shane Denson engages debates in science studies and philosophy of technology to rethink histories of cinema media technology and ultimately of the affective channels of our own embodiment With a foreword by media theorist Mark B N Hansen      **Black Frankenstein** Elizabeth Young, 2008-08-10 For all the scholarship devoted to Mary Shelley's English novel Frankenstein there has been surprisingly little attention paid to its role in American culture and virtually none to its racial resonances in the United States In Black Frankenstein Elizabeth Young identifies and interprets the figure of a black American Frankenstein monster as it appears with surprising frequency throughout nineteenth and twentieth century U S culture in fiction film essays oratory painting and other media and in works by both whites and African Americans Black Frankenstein stories Young argues effect four kinds of racial critique they humanize the slave they explain if not justify black violence they condemn the slaveowner and they expose the instability of white power The black Frankenstein's monster has served as a powerful metaphor for reinforcing racial hierarchy and as an even more powerful metaphor for shaping anti racist critique Illuminating the power of parody and reappropriation Black Frankenstein tells the story of a metaphor that continues to matter to literature culture aesthetics and politics      *The Palgrave Handbook of Gothic Origins* Clive Bloom, 2022-01-01 This handbook provides a comprehensive overview of research on the Gothic Revival The Gothic Revival was based on emotion rather than reason and when Horace Walpole created Strawberry Hill House a gleaming white castle on the banks of the Thames he had to create new words to describe the experience of gothic lifestyle Nevertheless Walpole's house produced nightmares and his book The Castle of Otranto was the first truly gothic novel with supernatural sensational and Shakespearean elements challenging the emergent fiction of social relationships The novel's themes of violence tragedy death imprisonment castle battlements dungeons fair maidens secrets

ghosts and prophecies led to a new genre encompassing prose theatre poetry and painting whilst opening up a whole world of imagination for entrepreneurial female writers such as Mary Shelley Joanna Baillie and Ann Radcliffe whose immensely popular books led to the intense inner landscapes of the Bronte sisters Matthew Lewis's *The Monk* created a new gothic atheistic decadent perverse necrophilic and hellish The social upheaval of the French Revolution and the emergence of the Romantic movement with its more intense and often atheistic self absorption led the gothic into darker corners of human experience with a greater emphasis on the inner life hallucination delusion drug addiction mental instability perversion and death and the emerging science of psychology The intensity of the German experience led to an emphasis on doubles and schizophrenic behaviour ghosts spirits mesmerism the occult and hell This volume charts the origins of this major shift in social perceptions and completes a trilogy of Palgrave Handbooks on the Gothic combined they provide an exhaustive survey of current research in Gothic studies a go to for students and researchers alike *Frankenstein's Science* Christa Knellwolf King, Jane R. **Frankenstein's Science** Jane Goodall, 2016-12-05 Though Mary Shelley s *Frankenstein* has inspired a vast body of criticism there are no book length studies that contextualise this widely taught novel in contemporary scientific and literary debates The essays in this volume by leading writers in their fields provide new historical scholarship into areas of science and pseudo science that generated fierce controversy in Mary Shelley s time anatomy electricity medicine teratology Mesmerism quackery and proto evolutionary biology The collection embraces a multifaceted view of the exciting cultural climate in Britain and Europe from 1780 to 1830 While *Frankenstein* is all too often read as a cautionary tale of the inherent dangers of uncontrolled scientific experimentation the essays here take the reader back to a period when experimenters and radical thinkers viewed science as the harbinger of social innovation that would counter the virulent conservative backlash following the French Revolution The collection will be an invaluable resource for students and scholars specialising in Romanticism cultural history philosophy and the history of science     *Transmedia Storytelling* Jennifer Camden, Kate Faber Oestreich, 2018-12-14 This volume charts the evolution of Pemberley Digital s transmedia adaptations of nineteenth century novels in order to interrogate the uneasy relationship between transmedia storytelling and consumer culture It first examines two Austen centered films *Lost in Austen* and *Austenland* that present immersive Austen experiences that anticipate Pemberley Digital s transmedia adaptations bridging traditional film adaptations and transmedia s participatory culture Subsequent chapters turn to Pemberley Digital s transmedia adaptations of Austen s and Shelley s novels to argue that although such adaptations may appear feminist in their emphasis on female protagonists their larger narratives expose a subtext of anxiety about unstable gender roles financial vulnerability and the undervaluation of career specific skill sets both for the characters and the production company itself The study provides a robust theoretical framework within which to read transmedia adaptations of classic literature illuminating both the potential of and the challenges facing digital and transmedia storytellers and participants     **A New Companion to The Gothic** David Punter, 2015-09-08 The thoroughly

*Frankenstein* Mary Wollstonecraft Shelley, 2018-03-22 By the dim and yellow light of the moon as it forced its way through the window shutters I beheld the wretch the miserable monster whom I had created He held up the curtain of the bed and his eyes if eyes they may be called were fixed on me His jaws opened
