## **In Memoriam Norman O Brown:**

**In Memoriam** Jerome Neu, 2007-04-03 Norman O Brown was a scholar poet and revolutionary who made a lasting impression on the sixties generation His distinctive fusion of Marxism psychoanalysis and classical literature inspired students across the United States and in Europe to participate in the political upheaval of that time His books including *Love's Body* and *Life Against Death* are still being used in college classrooms throughout the country This memorial volume has two sections the first presenting a previously unpublished autobiographical essay in which Brown details both his family and intellectual background prior to arriving in the United States at the University of Chicago The second section contains a number of short meditations on his life and work by friends family and colleagues The pieces are poetic and insightful a true testimony to the kind of thinking Brown inspired They were presented originally during a memorial gathering at the University of California Santa Cruz which included among others his colleagues there Carl E Schorske Jay Cantor Hayden White Helene Moglen Jim Clifford and Nathaniel Mackey

**After Evil** Robert Meister, 2011-01-05 Mainstream human rights discourse speaks of such evils as the Holocaust slavery or apartheid in ways that put them solidly in the past Its elaborate techniques of transitional justice encourage future generations to move forward but the false assumption of closure enables those who are guilty to elude responsibility This approach to history common to late twentieth century humanitarianism doesn't presuppose that evil ends only when justice begins Rather it assumes that a time before justice is the moment to put evil in the past Merging examples from literature and history Robert Meister confronts the problem of closure and the resolution of historical injustice He boldly challenges the empty moral logic of never again or the theoretical reduction of evil to a cycle of violence and counterviolence that is broken once evil is remembered for what it was Meister calls out such methods for their deferral of justice and susceptibility to exploitation Specifically he spells out the moral logic never again in relation to Auschwitz and its evolution into a twenty first century doctrine of the Responsibility to Protect

**The Enchantments of Mammon** Eugene McCarragher, 2019-11-12 Eugene McCarragher challenges the conventional view of capitalism as a force for disenchantment From Puritan and evangelical valorizations of profit to the heavenly Fordist city the mystically animated corporation and the deification of the market capitalism has hijacked our intrinsic longing for divinity laying hold to our souls

*On Loving Our Enemies* Jerome Neu, 2012-05-30 This essay collection discusses the role of emotion in ethics the relationship between emotions and authenticity and freedom the role of emotions in the law and includes discussions of Freud and his critics

**The Social Life of Money** Nigel Dodd, 2016-02-09 A reevaluation of what money is and what it might be Questions about the nature of money have gained a new urgency in the aftermath of the global financial crisis Even as many people have less of it there are more forms and systems of money from local currencies and social lending to mobile money and Bitcoin Yet our understanding of what money is and what it might be hasn't kept pace In *The Social Life of Money* Nigel Dodd one of today's leading sociologists of money reformulates the theory of the subject for a

postcrisis world in which new kinds of money are proliferating What counts as legitimate action by central banks that issue currency and set policy What underpins the right of nongovernmental actors to create new currencies And how might new forms of money surpass or subvert government sanctioned currencies To answer such questions The Social Life of Money takes a fresh and wide ranging look at modern theories of money One of the book's central concerns is how money can be wrested from the domination and mismanagement of banks and governments and restored to its fundamental position as the claim upon society described by Georg Simmel But rather than advancing yet another critique of the state based monetary system The Social Life of Money draws out the utopian aspects of money and the ways in which its transformation could in turn transform society politics and economics The book also identifies the contributions of thinkers who have not previously been thought of as monetary theorists including Nietzsche Benjamin Bataille Deleuze and Guattari Baudrillard Derrida and Hardt and Negri The result provides new ways of thinking about money that seek not only to understand it but to change it

**The Universal Adversary** Mark Neocleous, 2016-02-12 The history of bourgeois modernity is a history of the Enemy This book is a radical exploration of an Enemy that has recently emerged from within security documents released by the US security state the Universal Adversary The Universal Adversary is now central to emergency planning in general and more specifically to security preparations for future attacks But an attack from who or what This book the first to appear on the topic shows how the concept of the Universal Adversary draws on several key figures in the history of ideas said to pose a threat to state power and capital accumulation Within the Universal Adversary there lies the problem not just of the terrorist but more generally of the subversive and what the emergency planning documents refer to as the disgruntled worker This reference reveals the conjoined power of the contemporary mobilisation of security and the defence of capital But it also reveals much more Taking the figure of the disgruntled worker as its starting point the book introduces some of this worker's close cousins figures often regarded not simply as a threat to security and capital but as nothing less than the Enemy of all Mankind the Zombie the Devil and the Pirate In situating these figures of enmity within debates about security and capital the book engages an extraordinary variety of issues that now comprise a contemporary politics of security From crowd control to contagion from the witch hunt to the apocalypse from pigs to intellectual property this book provides a compelling analysis of the ways in which security and capital are organized against nothing less than the Enemies of all Mankind

Becoming a Subject Marcia Cavell, 2006-02-23 Marcia Cavell draws on philosophy psychoanalysis and the sciences of the mind in an investigation of human subjectivity She describes the ideal of a subject as an agent doing things for reasons and able to assume responsibility for itself The book investigates what might stand in the way of this **Methodology, Metaphysics and the History of Science** Robert S. Cohen, Marx W. Wartofsky, 2012-12-06 This selection of papers that were presented or nearly so to the Boston Colloquium for the Philosophy of Science during the seventies fairly re presents some of the most disturbing issues of scientific knowledge in these years To the distant observer it may seem that the

defense of rational standards objective reference methodical self correction even the distinguishing of the foolish from the sensible and the truth seeking from the ideological has nearly collapsed In fact the defense may be seen to have shifted the knowledge business came under scrutiny decades ago and indeed from the time of Francis Bacon and even far earlier the practicality of the discovery of knowledge was either hailed or lamented So the defense may be founded on the premise that science may yet be liberating In that case the analysis of philosophical issues expands to embrace issues of social interest and social function of instrumentality and arbitrary perspective of biological constraints upon knowledge as well as upon the species wide behavior of human beings in other relationships too of distortions due to explanatory metaphors and imposed categories and of radical comparisons among the perspectives of different civilizations Some of our contributors are frankly programmatic showing how problems must be formulated afresh how evasions must be identified and omissions rectified but they do not reach their own completion

**Love the Earth** James K. Rowe, 2009      **The Secret Lives of Objects** Jane Graves, 2012-03-27 This book looks at everyday and not so everyday objects from a psychoanalytical perspective as well as the practice of art and design It is an entertaining interpretation of the creation consumption and culture of things we take for granted

*A Hand to Turn the Time* Theodore D. Kharpertian, 1990 A study of the major fiction of Thomas Pynchon in three contexts Menippean satire post modernism and American writing The critical genealogy of the term satire is discussed and Pynchon's *V* *The Crying of Lot 49* and *Gravity's Rainbow* are analyzed

*Susan Sontag* Leland Poague, Kathy A. Parsons, 2021-12-12 Susan Sontag An Annotated Bibliography catalogues the works of one of America's most prolific and important 20th century authors Known for her philosophical writings on American culture topics left untouched by Sontag's writings are few and far between This volume is an exhaustive collection that includes her novels essays reviews films and interviews Each entry is accompanied by an annotated bibliography

**William Blake and the Myth of America** Linda Freedman, 2018-07-05 This volume tells the story of William Blake's literary reception in America and suggests that ideas about Blake's poetry and personality helped shape mythopoeic visions of America from the Abolitionists to the counterculture It links high and low culture and covers poetry music theology and the novel American writers have turned to Blake to rediscover the symbolic meaning of their country in times of cataclysmic change terror and hope Blake entered American society when slavery was rife and civil war threatened the fragile experiment of democracy He found his moment in the mid twentieth century counterculture as left wing Americans took refuge in the arts at a time of increasingly reactionary conservatism vicious racism pervasive sexism dangerous nuclear competition and an increasingly unpopular war in Vietnam the fires of Orc raging against the systems of Urizen Blake's America as a symbol of cyclical hope and despair influenced many Americans who saw themselves as continuing the task of prophecy and vision Blakean forms of bardic song aphorism prophecy and lament became particularly relevant to a literary tradition which centralised the relationship between aspiration and experience His interrogations of power and privilege freedom and form resonated with Americans who

repeatedly wrestled with the deep ironies of new world symbolism and sought to renew a Whitmanesque ideal of democracy through affection and openness towards alterity What Happens When We Practice Religion? Robert Wuthnow, 2020-05-19 He favors the use of a broad range of analytic tools drawn from multiple disciplines and approaches to the study of religion The five chapters of this book describe the central concepts and arguments now advancing the study of religious practice Chapter 1 entitled Theories discusses the theoretical contributions associated with the aforementioned shift in religious studies to the investigation of religious practice Chapter 2 Situations discusses how religious activities and experiences are shaped by the physical and temporal spaces in which social action occurs Chapter 3 Intentions takes on an important topic that has proven difficult to study from a social science perspective Feelings are the focus of Chapter 4 and the role of Bodies is addressed in Chapter 5 **The Many-Headed Hydra** Peter Linebaugh, Marcus Rediker, 2013-09-03 Winner of the International Labor History Award Long before the American Revolution and the Declaration of the Rights of Man a motley crew of sailors slaves pirates laborers market women and indentured servants had ideas about freedom and equality that would forever change history The Many Headed Hydra recounts their stories in a sweeping history of the role of the dispossessed in the making of the modern world When an unprecedented expansion of trade and colonization in the early seventeenth century launched the first global economy a vast diverse and landless workforce was born These workers crossed national ethnic and racial boundaries as they circulated around the Atlantic world on trade ships and slave ships from England to Virginia from Africa to Barbados and from the Americas back to Europe Marshaling an impressive range of original research from archives in the Americas and Europe the authors show how ordinary working people led dozens of rebellions on both sides of the North Atlantic The rulers of the day called the multiethnic rebels a hydra and brutally suppressed their risings yet some of their ideas fueled the age of revolution Others hidden from history and recovered here have much to teach us about our common humanity *Surrender and Catch* K.H. Wolff, 2012-12-06 Surrender and catch give so you can receive where the giving is your whole self in a total experience This is scarcely new on the American scene and it is ancient knowledge East and West The fears of total surrender the fears of self revelation and of total abandon although genuine are likewise not new Yet Kurt H Wolff does attempt something new here an epistemological essay with the help of this old idea his subtitle is experience and inquiry today He tries to formulate an integrated view which incorporates in the theory of total experience not only the accepted component esthetics religion the recent American experience but also a metaphysics a phenomenology a theory of perception a social philosophy and a methodology of the social sciences even a philosophy of history and psychopathology Phenomenology especially Alfred Schutz the critical Frankfurt school especially Adorno and Marcuse sociology especially Georg Simmel and existentialism especially Camus are tied in together It all looks topsy turvy at first We have here scraps of a diary fragments of correspondence a stray adolescent love letter notes on notes on field work and notes and comments on tutorial seminars plus long excerpts from students essays a stray paper in a

learned journal summarizing the core of the book comments piled on comments and a web of self references literary criticisms and pieces of poetry plus a rich scholarly apparatus      **Cirpit Review 3 - 2012 - Supplement. Proceedings.** Aa. Vv.,2012-10-03T00:00:00+02:00 With this Supplement Issue 3 2012 of our CIRPIT REVIEW the Intercultural Center dedicated to Raimon Panikkar intends to follow up the annual publication of Proceedings of national and international Conferences on those topics dear to Raimon Panikkar which gave birth to the Review pluralism interculturality and dialogue In particular this Issue contains the Proceedings of the Conference held in Fairfax US VA at George Mason University in April 2011 entitled Rhythm and Vision Conference In Memory of Raimon Panikkar It was attended by representatives from many countries including the United States New Zealand India Australia Japan and Italy      *Myths of Enki, The Crafty God* Samuel Noah Kramer, John Maier, 2020-08-18 This ambitious and well researched study brings together for the first time translations of the ancient literature concerning the Sumerian god Enki one of four gods and goddesses who comprised the highest level of the Sumerian pantheon The very existence of these writings which date from the Third Millennium B C was unknown until about 100 years ago when their cuneiform script was deciphered Since then it has become apparent that Sumerian literature had a profound and enduring influence on both Biblical and classical Greek literature and so on the literature of the western world as a whole Kramer one of the world's leading sumerologists has prepared these translations from among the scores of works he has published over the last fifty years John Maier provides a full interpretive framework that places the translations in their broader comparative cultural context This rare collection will be of interest to students and scholars in a wide range of disciplines from Near Eastern and Biblical Studies to Mythology and Comparative Literature      **One Foot on the Rockies** Joan M. Jensen, 1995 A highly readable exploration of the factors that enhanced and restricted the success of women artists in the West during the 20th century      *Astrology and Cosmology in Early China* David W. Pankenier, 2013-10-10 The ancient Chinese were profoundly influenced by the Sun Moon and stars making persistent efforts to mirror astral phenomena in shaping their civilization In this pioneering text David W Pankenier introduces readers to a seriously understudied field illustrating how astronomy shaped the culture of China from the very beginning and how it influenced areas as disparate as art architecture calendrical science myth technology and political and military decision making As elsewhere in the ancient world there was no positive distinction between astronomy and astrology in ancient China and so astrology or more precisely astral omenology is a principal focus of the book Drawing on a broad range of sources including archaeological discoveries classical texts inscriptions and paleography this thought provoking book documents the role of astronomical phenomena in the development of the Celestial Empire from the late Neolithic through the late imperial period
