**She Went, Too** Ti'Phani Nicole, 2024-12-03 The battlefield doesn't discriminate and neither does war But have you ever heard the untold stories of the women who've fought on the front lines Meet Payton Thorton a young soldier who embodies the courage sacrifice and heartache of every woman who has ever served An ambitious and fiercely determined Army Private Payton enlisted to prove something to herself and to the world She's the daughter sister and friend who left everything behind to serve her country but nothing could prepare her for what she would face on the battlefield Guided by her raw and deeply personal diary entries Payton's story is a voice for all women in the military capturing the unspoken struggles the friendships forged in fire and the haunting memories that linger long after the fighting stops War is Payton's relentless enemy but it's not just the bullets and bombs she battles it's the inner demons that follow her home From the trauma of combat to the scars that never heal Payton's greatest fight is with the invisible wounds that threaten to destroy her sense of self her relationships and her future The driving force of Payton's journey is her unwavering commitment to serve a cause greater than herself It's the deep seated belief in duty honor and the bonds of sisterhood that push her to endure the unimaginable But as she navigates the chaos of war and the heartache of loss she must confront the harsh realities of what it truly means to serve and survive Payton's story is more than a tale of survival it's a testament to the sacrifices of every woman who has stood on the front lines As she grapples with PTSD and the challenges of reintegration the question looms Will she find the strength to heal or will the war she fought overseas continue to rage within her Ti'Phani Nicole's *She Went Too* is a gripping unfiltered look at the realities of women in combat Based on the shadow of the author's own experience this novel challenges the stereotypes of the female soldier and shines a spotlight on the hidden warriors of our military It's a story that demands to be told and once read will never be forgotten

**Into the Field of Suffering** David Schenck, Scott Neely, 2023 This book is written for people who spend the bulk of their days working

with others who are suffering What I want to offer here is an invitation to conversation a conversation with me a conversation within yourself and a conversation with the people with whom you work A conversation about what it means to spend your days with people whose lives are disrupted by illness or overwhelmed by brokenness That can be brokenness in bodies It can be anything from flu to cancer from sprains to AIDS It can be traumatic brain injury severe mental illness or debilitating chronic conditions Or it could be families in neonatal units dealing with children with debilitating genetic defects struggling to make decisions about if when and how to end lives Or violence on the street or the devastation of a flood ravaged community What is it that we can learn from these situations I put an emphasis on learning because I do believe that if we don't learn every day if we don't learn every hour this work will destroy us It's important to use a word as strong as destroy There are reasons not everyone does this work and there are limits to how much of this work anyone can do What we must keep asking ourselves is Why do we do this work Why are we drawn to those who suffer What is it that's good about this And what not so good What is it that is admirable and something that we should show enormous compassion and respect to ourselves for And what is there in it that is self destructive that we should be constantly questioning and challenging To answer these questions we must get past the assumption that attending to the suffering is entirely saintly and noble or that it is a symptom of a deep perverse drive Much attention is rightly being focused on people who serve on healthcare's front lines The framework for these discussions tends most often to be the terms burnout and moral distress These terms certainly point to very real experiences very painful experiences Unfortunately they also often carry with them judgmental messages You are failing You must do better What I want to say to you here is that while these terms point to realities for those of us who have worked with suffering day in and day out they may not help us move and grow into the deeper ranges of compassion and recognition and attention that are possible unless we supplement them with other constructs and insights When I say that I want to encourage a conversation within you part of what I have in mind is this We are all multiple selves And one of the things that happens when we work with people and communities that are suffering and in pain physical pain psychological pain spiritual pain is that distinct pieces of ourselves often respond quite differently to what is going on in front of us Many different feelings are stirred We may be terrified and at the same time move with great compassion while being also completely exhausted and madly energized
