Pursuing Quality of Life Leonard Nevarez, 2011-03-29 From anxieties over work life balance and entangling technologies to celebrations of cool jobs and great places to live quality of life frames the ways we enhance our lives and legitimate social change today But how does the idea of quality of life envision the greater good and what gets lost as a result This book

provides the critical framework for understanding the idea s contexts and tensions that are conspicuously missing in popular discussions professional activities and scholarly research on quality of life With multiple case studies taken across North America and Europe it provides a sociological perspective on the contradictory ways we talk about and pursue quality of life in relation to technology consumerism family work public space rural ways of life and ultimately the final years of life Drawing on contemporary and classical social theory it provides an incisive account of the historical shifts in developed societies over the last half century that have transformed our views and pursuits of quality of life Originally a promise to undertake collective effort and pursue social justice at a moment of unprecedented opportunity quality of life now enshrines a solipsistic ideal with which to accommodate the storms of market forces and political failure **Handbook of**

Subjective Well-Being and Security Dave Webb, Eduardo Wills-Herrera, 2012-01-07

Security or the perceived lack thereof impacts on quality of life at many levels. An important consideration is how security should be best understood. Although definitions of how to understand human security have been proposed it is not clear how security should be measured. Security can be analyzed from different perspectives i.e. personal security, economic security, health security, political security, cyber security etc. In this volume all facets of research pertaining to security and subjective well-being (SWB) are discussed including among others Objective and subjective measures of security, Multiple security dimensions, The relationship between security and SWB and possible mediators and moderators, Cultural and religious influences on security and SWB, Present and future security, Perceptions of crime in cities and regions and development of relevant indicators, Security in a globalized era and its relationship to SWB, Security major events and SWB. State of the World's Cities 2012/2013 UN Habitat, 2013-10-23

The city is the home of prosperity. It is the place where human beings find satisfaction of basic needs and access to essential public goods. The city is also where ambitions, aspirations and other material and immaterial aspects of life are realized, providing contentment and happiness. It is a locus at which the prospects of prosperity and individual and collective well-being can be increased. However, when prosperity is restricted to some groups when it is used to pursue specific interests or when it is a justification for financial gains for the few to the detriment of the majority, the city becomes the arena where the right to shared prosperity is claimed and fought for. As people in the latter part of 2011 gathered in Cairo's Tahrir Square, in Madrid's Puerta del Sol, in front of London's St Paul's cathedral or in New York's Zuccotti Park, they were not only demanding more equality and inclusion, they were also expressing the need for prosperity to be shared across all segments of society. What this new edition of State of the World's Cities shows is that prosperity for all has been compromised by a narrow focus on economic growth. UN Habitat suggests a fresh approach to prosperity beyond the solely economic emphasis, including other vital dimensions such as quality of life, adequate infrastructures, equity and environmental sustainability. The Report proposes a new tool, the City Prosperity Index, together with a conceptual matrix, the Wheel of Prosperity, both of which are meant to assist decision makers to design clear policy interventions. The Report advocates for the need of cities to enhance the public realm, expand public goods and consolidate rights to the commons for all as a way to expand prosperity. This comes in response to the observed trend of enclosing or restricting these goods and commons in enclaves of prosperity or depleting them through unsustainable use. The Report maps out major policy steps to promote a new type of city, the city of the twenty-first century, that is a good, people-centred city. One that is capable of integrating the tangible and more intangible aspects of prosperity and in the process shedding off the

inefficient unsustainable forms and functionalities of the city of the previous century By doing this UN Habitat plays a pivotal role in ensuring that urban planning legal regulatory and institutional frameworks become instruments of prosperity and well being

Dramatic Global Population Growth Embraces the Growing Older Population Edward A McKinney, 2018-11-16 The world is witnessing a dramatic demographic population growth explosion across all age groups that had its beginning around the early 1800s when the first billion people in population was recorded Most importantly has been an increasing growth in the older population Does population aging matter in the twenty first century Yes it matters because as research has pointed out the increasing older population globally will have a significant impact on all essential societal systems the family pensions and retirement and financial institutions as well as medical health and social systems This growth explosion or phenomenon will affect all continents countries and regions regardless of economic political and military power Causative factors for this global growth in population have come about primarily as a result of medical advances innovations agricultural development and the industrial revolution especially the development of

railways seaways and highways A major emphasis of the book focuses on several very important factors the growing older population as aforementioned especially its impact on all of essential societal systems and the subject of ageism Ageism becomes extremely important considering that the growing older population the silver tsunami represents the new majority This new majority will no longer be ignored Gerontologists for years have attempted to call attention to the fact Expectations for old people are based on negative age stereotypes Members of American society generally expect and even encourage the aged to be asexual intellectually rigid unproductive ineffective and disengaged Seniors are supposed to stay out of the way sit in their rocking chairs and enjoy the golden years They are expected to be inactive invisible but happy Levin J and Levin W Ageism Prejudice and Discrimination Against the Elderly California Wadsworth Publishing 1941 pp 97 98 Speaking of being ignored why aren't more members of the older population involved at the decision making tables in shaping a society for all ages After all they would bring years of experiences skills knowledge and values for creating a society for all ages in the twenty first century with justice and human rights for all Currently there is a global movement with a goal of the eradication of ageism in all of its forms Some will recall from several decades ago the Grey Panther Movement in America with a similar mission of the eradication of all injustices at the time being experienced by the older population The current movement says The time is now not later One major social injustice being experienced by the growing old population globally is the lack of income security in old age including the lack of access to other essential services such as medical health and social including long term care More than 50 percent 51 percent of older persons globally do not have basic income security or a social pension in retirement A more alarming statistic is that in Sub Saharan Africa forty seven countries eight two percent 82.5 of retirees do not have a social pension Yes for the older population the new majority the time is now for correcting the aforementioned injustices Maybe what is needed is a human seismic force comprising the new majority to initiate a social movement with a goal of the eradication of all forms of ageism and ensuring that the growing older population will live in dignity and respect in later life including social protection pensions
