Half-Opened Door Marcia Synnott, 2017-07-12 By the turn of the twentieth century academic nativism had taken root in elite American colleges specifically Harvard Yale and Princeton White Anglo Saxon Protestant hegemony was endangered by new kinds of student many of them Catholic and Jewish immigrants The newcomers threatened to displace native born Americans by raising academic standards and winning a disproportionate share of the scholarships The Half Opened Door analyzes the role of these institutions casting light on their place in class structure and values in the United States It details the origins history and demise of discriminatory admissions processes and depicts how the entrenched position of the upper class was successfully challenged The educational and hence economic mobility of Catholics and Jews has shown other groups for example African Americans Asian Americans and Spanish speaking Americans not only the difficulties that these earlier aspirants had in overcoming class and ethnic barriers but the fact that it can be done One of the ironies of the history of higher education in the United States is the use of quotas by admissions committees Restrictive measures were imposed on Jews because they were so successful whereas benign quotas are currently used to encourage underrepresented minorities to enter colleges and professional schools The competing claims of both the older and the newer minorities continue to be the subject of controversy editorial comments and court cases and will be for years to come [Student Diversity at the Big Three](#) Marcia Synnott, 2017-09-08 Strengthening affirmative action programs and fighting discrimination present challenges to America's best private and public universities US college enrollments swelled from 2.6 million students in 1955 to 17.5 million by 2005 Ivy League universities specifically Harvard Yale and Princeton face significant challenges in maintaining their professed goal to educate a reasonable number of students from all ethnic racial religious and socio economic groups while maintaining the loyalty of their alumni College admissions officers in these elite universities have the daunting task of selecting a balanced student body Added to their challenges the economic recession of 2008-2009 negatively impacted potential applicants from lower income families Evidence suggests that high Standard Aptitude Test SAT scores are correlated with a family's socioeconomic status Thus the problem of selecting the best students from an ever increasing pool of applicants may render standardized admissions tests a less desirable selection mechanism The next admissions battle may be whether well endowed universities should commit themselves to a form of class based affirmative action in order to balance the socioeconomic advantages of well to do families Such a policy would improve prospects for students who may have ambitions for an education that is beyond their reach without preferential treatment As in past decades admissions policies may remain a question of balances and preferences Nevertheless the elite universities are handling admission decisions with determination and far less prejudice than in earlier eras *Current History*, 1923 *A Scion of the Times* Leon Schwartz, 2010-09 **Judah Awakening** Yahnwe Okeke, 2019-09-18 As the prophet was commanded in Ezekiel 40:4 so too was author Yahnwe Okeke instructed to document everything that was disclosed to her through dreams and visions concerning the Judaic roots of the Igbo people of Southeast Nigeria In *Judah Awakening* she chronicles the day to day

experiences cum revelations A written record of her spiritual encounters and confirmation from internet research she shares details of her visions and dreams as they happened on different days beginning July 1 2018 and continuing until the last day January 24 2019 Okeke summarizes her journey and highlights the key words which symbolize the core message of her experience Judah Awakening presents an insightful journal of Okeke s supernatural revelations of the Israel ancestry of the Igbos of South East Nigeria providing the words the Holy Spirit spoke regarding any connections between Israelites and Igbos It offers a work that touches on religion science culture and so much more

A Physicist Examines Hope in the Resurrection John F. Wilson, 2016-12-22 John Polkinghorne ordained member of the Royal Society past President of Queen s College Cambridge Knight Commander of the Order of the British Empire 2002 Templeton Prize winner theoretical physicist and theologian writes in breathless style to unfold core Christian doctrine in dialogue with science His work deftly addresses how one would interpret and commend Christian faith in the contemporary world as he elucidates the key topics in the dialogue of religion with science Polkinghorne s work addresses the hope Christians have present and future in the faithfulness of a loving God who stands alongside them today and for all eternity Eschatological hope enables and empowers Christian life and emerges in God s resurrection of Jesus from the horrific crucifixion Polkinghorne ably supports his thesis with a strong argument for the resurrection built on the kenotic acts of God His thesis sees Christian eschatology as the advent of hope the heart of faith In Christian eschatology as argued by Polkinhorne and supported in the work of Jurgen Moltmann and Nicholas T Wright Christ s presence is not some far off event but present reality

The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and suspenseful novel that will keep you wondering until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
