## **Jews In Black Perspectives A Dialogue:**

African Americans and Jews in the Twentieth Century Vincent P. Franklin, 1998 In recent scholarship academics have focused primarily on areas of conflict between Blacks and Jews yet in the long struggle to bring social justice to American society these two groups have often worked as allies in both the organized labor and the civil rights movements Demonstrating the complexity of the relationship of Blacks and Jews in America *African Americans and Jews in the Twentieth Century* examines the competition and solidarity that have characterized Black Jewish interactions over the past century These essays provide an intellectual foundation for cooperative efforts to improve social justice in our society and are an invaluable resource for the study of race relations in twentieth century America Copyright Libri GmbH All rights reserved

**Jews in Black Perspectives** Joseph R. Washington, 1989-09      *Antisemitism in America* Leonard Dinnerstein, 1995-11-02 Is antisemitism on the rise in America Did the hymietown comment by Jesse Jackson and the Crown Heights riot signal a resurgence of antisemitism among blacks The surprising answer to both questions according to Leonard Dinnerstein is no Jews have never been more at home in America But what we are seeing today he writes are the well publicized results of a long tradition of prejudice suspicion and hatred against Jews the direct product of the Christian teachings underlying so much of America s national heritage In *Antisemitism in America* Leonard Dinnerstein provides a landmark work the first comprehensive history of prejudice against Jews in the United States from colonial times to the present His richly documented book traces American antisemitism from its roots in the dawn of the Christian era and arrival of the first European settlers to its peak during World War II and its present day permutations with separate chapters on antisemitism in the South and among African Americans showing that prejudice among both whites and blacks flowed from the same stream of Southern evangelical Christianity He shows for example that non Christians were excluded from voting in Rhode Island until 1842 North Carolina until 1868 and in New Hampshire until 1877 and demonstrates how the Civil War brought a new wave of antisemitism as both sides assumed that Jews supported with the enemy We see how the decades that followed marked the emergence of a full fledged antisemitic society as Christian Americans excluded Jews from their social circles and how antisemitic fervor climbed higher after the turn of the century accelerated by eugenicists fear of Bolshevism the publications of Henry Ford and the Depression Dinnerstein goes on to explain that just before our entry into World War II antisemitism reached a climax as Father Coughlin attacked Jews over the airwaves with the support of much of the Catholic clergy and Charles Lindbergh delivered an openly antisemitic speech to an isolationist meeting After the war Dinnerstein tells us with fresh economic opportunities and increased activities by civil rights advocates antisemitism went into sharp decline though it frequently appeared in shockingly high places including statements by Nixon and his Chairman of the Joint Chiefs of Staff It must also be emphasized Dinnerstein writes that in no Christian country has antisemitism been weaker than it has been in the United States with its traditions of tolerance diversity and a secular national government This book

however reveals in disturbing detail the resilience and vehemence of this ugly prejudice Penetrating authoritative and frequently alarming this is the definitive account of a plague that refuses to go away Encyclopedia of the Harlem Renaissance Cary D. Wintz, Paul Finkelman, 2012-12-06 From the music of Louis Armstrong to the portraits by Beauford Delaney the writings of Langston Hughes to the debut of the musical *Show Boat* the Harlem Renaissance is one of the most significant developments in African American history in the twentieth century The *Encyclopedia of the Harlem Renaissance* in two volumes and over 635 entries is the first comprehensive compilation of information on all aspects of this creative dynamic period For a full list of entries contributors and more visit the *Encyclopedia of Harlem Renaissance* website

*American Studies* Jack Salzman, 1990-05-25 This volume supplements the acclaimed three volume set published in 1986 and consists of an annotated listing of American Studies monographs published between 1984 and 1988 There are more than 6 000 descriptive entries in a wide range of categories anthropology and folklore art and architecture history literature music political science popular culture psychology religion science and technology and sociology Blacks and Jews in Literary Conversation E. Miller Budick, 1998-09-28 *Blacks and Jews in Literary Conversation* explores the works of a range of black and Jewish writers critics and academics from the 1950s to the 1980s By recording conversations both direct such as essays and letters and indirect such as the fiction of Bernard Malamud Philip Roth Alice Walker Cynthia Ozick Toni Morrison and James Baldwin this book shows how dialogue can engender misperceptions and misunderstandings and how blacks and Jews in America have both sought and resisted assimilation By analyzing the history of this discourse the author explores the ways in which ethnic fiction works in interethnic America the effects of identity politics and the tensions and bonds created as African and Jewish Americans continue to construct their ethnic and religious identities in the United States

Transnationalism Eliezer Ben Rafael, Yitzhak Sternberg, 2009 This book deals with transnationalism and captures its singularity as a generalized phenomenon The profusion of transnational communities is a factor of fluidity in social orders and represents confrontations between contingencies and basic socio cultural drives It has created a new era different from the past at essential respects This is an age of enriching cultural diversity fraught with threatening risks inextricably linked to contemporary globalization National sovereignty is eroded from above by global processes from below by aspirations of sub national groups and from the sides by transnational allegiances This is the backdrop against which this book delves into the fundamental issues relating to the nature scope and overall significance of transnationalism *Rising Wind* Brenda Gayle Plummer, 2000-11-09 African Americans have a long history of active involvement and interest in international affairs but their efforts have been largely ignored by scholars of American foreign policy Gayle Plummer brings a new perspective to the study of twentieth century American history with her analysis of black Americans engagement with international issues from the Italian invasion of Ethiopia in 1935 through the wave of African independence movements of the early 1960s Plummer first examines how collective definitions of ethnic identity race and racism have influenced African American views

on foreign affairs She then probes specific developments in the international arena that galvanized the black community including the rise of fascism World War II the emergence of human rights as a factor in international law the Cold War and the American civil rights movement which had important foreign policy implications However she demonstrates that not all African Americans held the same views on particular issues and that a variety of considerations helped shape foreign affairs agendas within the black community just as in American society at large

**The American Marathon** Pamela Cooper, 1998-04-01 Boston established a footrace but New York City created a marathon culture that annually draws tens of thousands of runners to each of the major American events The American Marathon is the first in depth study of the marathon as a cultural performance that has as much power to unite communities across lines of race ethnicity class and gender as it does to empower individuals This book encompasses more than a century from the fledgling days of the footrace in the 1890s to the popular contemporary marathons that have become corporate sponsored institutions Run in New York City in 1896 and continued in Boston for the next ten years the marathon quickly became the event of the working class athletes particularly Irish Americans Other urban ethnic groups Italians Jews

and African Americans who were unwelcome into the elite WASP athletic clubs formed their own running organizations. Once emblematic of the immigrant experience, the marathon evolved to express middle class nationalism as these immigrants were being assimilated. During the 1930s, the Great Depression restricted footracing and anti-Semitism left important coaches and runners without access to team support. The New York Pioneer Club, begun in 1936 as an African American team, brought the tremendous energy of post World War II Harlem to the American marathon of the 1950s. Besides examining the ethnic influence on marathoning, Cooper also explores the impact of the Cold War on this sport when fitness and endurance became matters of national pride. She shows how the Road Runners Club of America first brought women and large numbers of participant runners into long distance footraces and finally how corporate sponsorship and direct payments to athletes profoundly changed the nature of this once amateur sport.

**The Dispersion** Stéphane Dufoix, 2016-11-28 Winner of the 2017 Choice Outstanding Academic Title Award. In *The Dispersion* Stéphane Dufoix skillfully traces how the word diaspora, first coined in the third century BCE, has over the past three decades developed into a contemporary concept often considered to be ideally suited to grasping the complexities of our current world. Spanning two millennia from the Septuagint to the emergence of Zionism, from early Christianity to the Moravians, from slavery to the defence of the Black cause, from its first scholarly uses to academic ubiquity, from the early negative connotations of the term to its contemporary apotheosis, Stéphane Dufoix explores the historical socio-semantic of a word that perhaps paradoxically has entered the vernacular while remaining poorly understood.

*Cyber Worship in Multifaith Perspectives* Mohamed Taher, 2006. *Cyber Worship in Multifaith Perspectives* as implied by its name explores worship, i.e. Prayer, Praise, Scripture, Sacrament, Rituals, Confessions, Eucharist, Rites, Pilgrimages, Reflection, Contemplation, etc. on the Internet. It is not an everything you need to know guide about the subjects of faith and belief, religions online, religions on the Net, or religions in cyberspace. Rather, it is a book about religious and spiritual experience under the rubric cyber worship, which is the variety of ways religious devotion is performed and carried out on the Internet. The term Cyber Worship is a catchall phrase which includes variants such as online worship, virtual worship, electronic prayer, cyber puja, cyber synagogue, and so on. Dr Mohamed Taher has thus assembled a quick reference for two groups: those communities that are involved in Cyber Worship and business Webs that collaborate in sustaining wired environments. As such, this book provides an interesting and current perspective on a practice that will continue to grow in the future.

*Facing Black and Jew* Adam Zachary Newton, 1999-07-15. Adam Zachary Newton couples works of prose fiction by African American and Jewish American authors, from Henry Roth and Ralph Ellison to Philip Roth and David Bradley. Reading the work of such writers alongside and through one another, Newton offers an original way of juxtaposing two major traditions in American literature and rethinking their sometimes vexing relationship. Newton combines Emmanuel Levinas' ethical philosophy and Walter Benjamin's theory of allegory in shaping an innovative kind of ethical political criticism. A final chapter addresses the Black Jewish dimension of the O J Simpson trial.
