Jews In Christian Art:

Judaism and Christian Art Herbert L. Kessler, David Nirenberg, 2012-10-08 Christian cultures across the centuries have invoked Judaism in order to debate represent and contain the dangers presented by the sensual nature of art By engaging Judaism both real and imagined they explored and expanded the perils and possibilities for Christian representation of the material world The thirteen essays in Judaism and Christian Art reveal that Christian art has always defined itself through the figures of Judaism that it produces From its beginnings Christianity confronted a host of questions about visual representation Should Christians make art or does attention to the beautiful works of human hands constitute a misplaced emphasis on the things of this world or worse a form of idolatry Thou shalt make no graven image And if art is allowed upon what styles motifs and symbols should it draw Christian artists theologians and philosophers answered these questions and many others by thinking about and representing the relationship of Christianity to Judaism This volume is the first dedicated to the long history from the catacombs to colonialism but with special emphasis on the Middle Ages and the Renaissance of the ways in which Christian art deployed cohorts of Jews more figurative than real in order to conquer defend and explore its own territory The Jews in Christian Art Heinz Schreckenberg, 1996 **Between Judaism and Christianity** Katrin Kogman-Appel, Mati Meyer, 2009 The essays collected in this volume present a multi faceted range of scholarship from late antique synagogues Jewish funerary art early Christian and Byzantine mosaics to Byzantine and Jewish book art and the representation of the Old Testament in Western manuscripts **Jewish Images in the Christian Church** Henry N. Claman, 2000 Beginning in the Third Century with frescoes in the catacombs of Rome public art began to illustrate the doctrine of supersessionism This analysis of a millennium of Christian art outlines the path by which Christians reinterpreted the Hebrew Scriptures to prove they foretold the ascendancy of Christianity Starting with a solid introduction to the origins of Christianity and the beginnings of Christian art in the catacombs of Rome Henry Claman skillfully demonstrates the development of the anti Jewish message of Christian art The study culminates with analyses of the majestic cathedral at Chartres the public burning of the Talmud in Paris in 1248 and the expulsion of the Jews from France and England BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Picturing the Bible** Jeffrey Spier, Kimbell Art Museum, Steven Fine, Kimbell art museum (Fort Worth, Tex.), 2007-01-01 Published on the occasion of the exhibition organized by the Kimbell Art Museum and shown there November 18 2007 March 30 2008 *Cultural Exchange* Joseph Shatzmiller, 2013-07-21 Demonstrating that similarities between Jewish and Christian art in the Middle Ages were more than coincidental *Cultural Exchange* meticulously combines a wide range of sources to show how Jews and Christians exchanged artistic and material culture Joseph Shatzmiller focuses on communities in northern Europe Iberia and other Mediterranean societies where Jews and Christians coexisted for centuries and he synthesizes the most current research to describe the daily encounters that enabled both societies to appreciate common artistic values Detailing the transmission of

cultural sensibilities in the medieval money market and the world of Jewish money lenders this book examines objects pawned by peasants and humble citizens sacred relics exchanged by the clergy as security for loans and aesthetic goods given up by the Christian well to do who required financial assistance The work also explores frescoes and decorations likely painted by non Jews in medieval and early modern Jewish homes located in Germanic lands and the ways in which Jews hired Christian artists and craftsmen to decorate Hebrew prayer books and create liturgical objects Conversely Christians frequently hired Jewish craftsmen to produce liturgical objects used in Christian churches With rich archival documentation Cultural Exchange sheds light on the social and economic history of the creation of Jewish and Christian art and expands the general understanding of cultural exchange in brand new ways Some images inside the book are unavailable due to digital copyright restrictions

The Oxford Dictionary of Christian Art and Architecture Tom Devonshire Jones,Linda Murray,Peter Murray,2013-09-26 This dictionary is a fascinating guide to the broad range of terms used in the study of the history of Christian art and architecture including themes artists and movements The long awaited new edition includes entries by over a dozen expert contributors and a fully revised online bibliography bringing it up to date for the 21st century

Christian Images and Their Jewish Desecrators Katherine Aron-Beller,2024-01-09 In Christian Images and Their Jewish Desecrators historian Katherine Aron Beller analyzes the common Christian charge that Jews habitually and compulsively violated Christian images identifying this allegation as one that functioned alongside other anti Jewish allegations such as ritual murder blood libel and host desecration to ultimately inform dangerous and long lasting prejudices in medieval and early modern Europe Through an analysis of folk tales myths legal proceedings and religious art Aron Beller finds that narratives alleging that Jews committed violence against images of Christ Mary and the disciples flourished in Europe between the fifth and seventeenth centuries She then explores how these narratives manifested differently across the continent and the centuries finding that their potency reflected not Jewish actions per se but Christians own concerns about slipping into idolatry when viewing depictions of religious figures In addition Aron Beller considers Jews own attitudes toward Christian imagery and the ways in which they responded to and rejected or embraced such allegations By examining how desecration allegations affected Jewish individuals and communities spanning Byzantium medieval England France Germany and early modern Spain and Italy Aron Beller demonstrates that this charge was a powerful expression of the Christian majority s anxiety around committing idolatry and their eagerness to participate in practices of veneration that revolved around visual images an anxiety that evolved through the centuries and persists to this day

Art and Judaism in the Greco-Roman World Steven Fine,2005-06-08 Publisher Description

Jews in Byzantium ,2011-10-14 In the ever increasing volume of Byzantine Studies in recent years there seems to be one very apparent void namely the history and culture of the Byzantine Jewry its presence and impact on the surrounding convoluted Byzantine world between Late Antiquity until the conquest of Byzantium 1453 With the now classic but dated studies by Joshua Starr and Andrew Sharf the collective volume at hand is an attempt to

somewhat fill in this void The articles assembled in this volume are penned by leading scholars in the field They present bird's eye views of the cultural history of the Jewish Byzantine minority alongside a wide array of surveys and in depth studies of various topics These topics pertain to the dialectics of the religious literary economic and visual representation world of this alien minority within its surrounding Byzantine hegemonic world

Jews in the Early Modern World Dean Phillip Bell, 2008 Jews in the Early Modern World argues that the years between 1400 and 1700 represented a discrete cohesive and important period in Jewish history Given the significant demographic shifts that began just before and ended just after this period remarkable changes occurred in the history and experiences of Jews around the world This volume begins with a broad context of Jewish experiences under medieval Christianity and Islam It then turns to the early modern period first providing an overview of Jewish demography and settlement Next the nature and structure of Jewish community and social structures in the early modern period are explored In the final two chapters this book presents a broad overview of Jewish religious and cultural life and Jewish relations with non Jews throughout the early modern period Publisher Jewish Traditions in Early Christian Literature, Volume 2 Jewish Historiography and Iconography in Early and Medieval Christianity Heinz Schreckenberg, Kurt Schubert, 1992-01-01 Series Compendia Rerum Iudaicarum ad Novum Testamentum Section 1 The Jewish people in the first century Historical geography political history social cultural and religious life and institutions Edited by S Safrai and M Stern in cooperation with D Flusser and W C van Unnik Section 2 The Literature of the Jewish People in the Period of the Second Temple and the Talmud Section 3 Jewish Traditions in Early Christian Literature

Interaction between Judaism and Christianity in History, Religion, Art and Literature Marcel Poorthuis, Joshua J. Schwartz, Joseph Turner, 2008-11-30 This volume contains a variety of essays that deal with the complex relationships between Judaism and Christianity From the Jewish side particularly in Orthodox circles there is a position maintaining the independence of Judaism from outside influences including Christianity Traditional Christian theology on the other hand held a supersessionist view in which Judaism was seen merely as a historical preparation for the later revelation of Christianity Was there no real interaction When and how did Judaism and Christianity become two distinct religions When did the parting of ways take place if indeed there really was such a parting of ways The present volume takes a bold step forward by assuming that no historical period can be excluded from the interactive process between Judaism and Christianity conscious or unconscious as a polemical rejection or as tacit appropriation

Beyond the Yellow Badge Mitchell Merback, 2008 Bringing together thirteen leading art historians Beyond the Yellow Badge seeks to reframe the relationship between European visual culture and the many changing aspects of the Christian majority's negative conceptions of Jews and Judaism during the Middle Ages and early modern periods

The Jewish-Christian Encounter in Medieval Preaching Jonathan Adams, Jussi Hanska, 2014-10-03 This book explores the complexity of preaching as a phenomenon in the medieval Jewish-Christian encounter This was not only an encounter as physical meeting or confrontation such as the forced attendance of

Jews at Christian sermons that took place across Europe but also an imaginary or theological encounter in which Jews remained a figure from a distant constructed time and place who served only to underline and verify Christian teachings Contributors also explore the Jewish response to Christian anti Jewish preaching in their own preaching and religious instruction

The Jew in the Art of the Italian Renaissance Dana E. Katz,2008-06-04 Dana E Katz reveals how Italian Renaissance painting became part of a policy of tolerance that deflected violence from the real world onto a symbolic world While the rulers upheld toleration legislation governing Christian Jewish relations they simultaneously supported artistic commissions that perpetuated violence against Jews

Jewish Glass and Christian Stone Eric C. Smith,2017-11-15 In recent years scholars have re evaluated the parting of the ways between Judaism and Christianity reaching new understandings of the ways shared origins gave way to two distinct and sometimes inimical religious traditions But this has been a profoundly textual task relying on the writings of rabbis bishops and other text producing elites to map the terrain of the parting This book takes up the question of the divergence of Judaism and Christianity in terms of material the stuff made used and left behind by the persons that lived in and between these religions as they were developing Considering the glass clay stone paint vellum and papyrus of ancient Jews and Christians this book maps the parting in new ways and argues for a greater role for material and materialism in our reconstructions of the past

Jewish Symbols in the Greco-Roman Period Erwin Ramsdell Goodenough,2014-07-14 This volume presents the most important portions of Erwin Goodenough s classic thirteen volume work a magisterial attempt to encompass human spiritual history in general through the study of Jewish symbols in particular Revealing that the Jewish religion of the period was much more varied and complex than the extant Talmudic literature would lead us to believe Goodenough offered evidence for the existence of a Hellenistic Jewish mystic mythology far closer to the Qabbalah than to rabbinical Judaism Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

An Introduction to Jewish-Christian Relations Edward Kessler,2010-02-18 Relations between Christians and Jews over the past two thousand years have been characterised to a great extent by mutual distrust and by Christian discrimination and violence against Jews In recent decades however a new spirit of dialogue has been emerging beginning with an awakening among Christians of the Jewish origins of Christianity and encouraging scholars of both traditions to work together An Introduction to Jewish Christian Relations sheds fresh light on this ongoing interfaith encounter exploring key writings and themes in Jewish Christian history from the Jewish context of the New Testament to major events of modern times including the rise of ecumenism the horrors of the Holocaust and the creation of the state of Israel This accessible theological and

historical study also touches on numerous related areas such as Jewish and interfaith studies philosophy sociology cultural studies international relations and the political sciences

The Art of Being Jewish in Modern Times Barbara Kirshenblatt-Gimblett, Jonathan Karp, 2013-02-11

The wide ranging portrayal of modern Jewishness in artistic terms invites scrutiny into the relationship between creativity and the formation of Jewish identity and into the complex issue of what makes a work of art uniquely Jewish Whether it is the provenance of the artist as in the case of popular Israeli singer Zehava Ben the intention of the iconography as in Ben Shahn's antifascist paintings or the utopian ideals of the Jewish Palestine Pavilion at the 1939 New York World's Fair clearly no single formula for defining Jewish art in the diaspora will suffice

The Art of Being Jewish in Modern Times is the first work to analyze modern Jewry's engagement with the arts as a whole including music theater dance film museums architecture painting sculpture and more Working with a broad conception of what counts as art the book asks the following questions What roles have commerce and politics played in shaping Jewish artistic agendas Who determines the Jewishness of art and for what purposes What role has aesthetics played in reshaping religious traditions and rituals This richly illustrated volume illuminates how the arts have helped Jews confront the various challenges of modernity including cultural adaptation and self preservation economic diversification and ritual transformation There truly is an art to being Jewish in the modern world or alternatively an art to being modern in the Jewish world and this collection fully captures its range diversity and historical significance
