Bhimull,2017-12-12 Honorable Mention 2019 Victor Turner Prize in Ethnographic Writing given by the Society for Humanistic Anthropology Honorable Mention 2019 Sharon Stephens Prize given by the American Ethnological Society Examines the role that race played in the inception of the airline industry *Empire in the Air* is at once a history of aviation and an examination of how air travel changed lives along the transatlantic corridor of the African diaspora Focusing on Britain and its Caribbean colonies Chandra Bhimull reveals how the black West Indies shaped the development of British Airways Bhimull offers a unique analysis of early airline travel illuminating the links among empire aviation and diaspora and in doing so provides insights into how racially oppressed people experienced air travel The emergence of artificial flight revolutionized the movement of people and power and Bhimull makes the connection between airplanes and the other vessels that have helped make and maintain the African diaspora the slave ships of the Middle Passage the tracks of the Underground Railroad and Marcus Garvey's black owned ocean liner As a new technology airline travel retained the racist ideas and practices that were embedded in British imperialism and these ideas shaped every aspect of how commercial aviation developed from how airline routes were set to who could travel easily and who could not The author concludes with a look at airline travel today suggesting that racism is still enmeshed in the banalities of contemporary flight *Proceedings of the 2nd International and Interdisciplinary Conference on Image and Imagination* Enrico Cicalò,2020-03-17 This book gathers peer reviewed papers presented at the 1st International and Interdisciplinary Conference on Image and Imagination IMG 2019 held in Alghero Italy in July 2019 Highlighting interdisciplinary and multi disciplinary research concerning graphics science and education the papers address theoretical research as well as applications including education in several fields of science technology and art Mainly focusing on graphics for communication visualization description and storytelling and for learning and thought construction the book provides architects engineers computer scientists and designers with the latest advances in the field particularly in the context of science arts and education **Farm Worker Futurism** Curtis Marez,2016-06-17 When we think of literature and film about farm workers *The Grapes of Wrath* may come to mind but *Farm Worker Futurism* reveals that the historical role of technology especially new media has in fact had much more to do with depicting the lives of farm laborers Mexican migrants in particular in the United States From the late 1940s when Ernesto Galarza led a strike in the San Joaquin Valley to the early 1990s when the United Farm Workers UFW helped organize a fast in solidarity with janitors at Apple Computers in the Santa Clara Valley this book explores the friction between agribusiness and farm workers through the lens of visual culture

Marez looks at how the appropriation of photography film video and other media technologies expressed a farm worker futurism a set of farm worker social formations that faced off against corporate capitalism and government policies In addition to drawing fascinating links between the worlds envisioned in UFW videos on the one hand and visions of Cold War geopolitics on the other he demonstrates how union cameras and computer screens put the farm worker movement in dialogue with futurist thinking and speculative fictions of all sorts including the films of George Lucas and the art of Ester Hernandez Finally Marez examines the legacy of farm worker futurism in recent cinema and literature contemporary struggles for immigrant rights management labor conflicts in computer hardware production and the antiprison movement In contrast with cultural histories of technology that take a top down perspective Farm Worker Futurism tells the story from below showing how working class people of color have often been early adopters and imaginative users of new media In doing so it presents a completely novel analysis of speculative fiction s engagements with the farm worker movement in ways that illuminate both

Poet Lore, 1914 **The Cultural Origins of the Socialist Realist Aesthetic, 1890-1934** Irina Gutkin, 1999 The past fifteen years have seen an important shift in the way

scholars look at socialist realism Where it was seen as a straitjacket imposed by the Stalinist regime it is now understood to be an aesthetic movement in its own right one whose internal logic had to be understood if it was to be criticized International specialists remain divided however over the provenance of Soviet aesthetic ideology particularly over the role of the avant garde in its emergence In *The Cultural Origins of the Socialist Realist Aesthetic* Irina Gutkin brings together the best work written on the subject to argue that socialist realism encompassed a philosophical worldview that marked thinking in the USSR on all levels political social and linguistic Using a wealth of diverse cultural material Gutkin traces the emergence of the central tenants of socialist realist theory from Symbolism and Futurism through the 1920s and 1930s

not classed as terrorism in the West this reflects an unwillingness to confront the human costs and immorality of aerial bombardment Grosscup argues that if terrorism is to be diminished the role of aerial bombing in sustaining global violence must be recognized
