**Birkhäuser Architectural Guide Japan** Francesco Montagnana, 1997 This book like all volumes in the Birkhäuser Architectural Guide series beginning with Germany by Nerding Tafel successfully represents all important developments of the 20th century This includes work by the masters Kenzo Tange Arata Isozaki and Tadao Ando the projects of younger architects such as Itsuko Hasegawa Hiroshi Naito and Kazuo Shinohara as well the buildings designed by foreign architects such as Aldo Rossi Cesar Pelli Rem Koolhaas and Norman Foster Nearly 400 buildings are introduced in separate entries The addresses locating each building and the weatherproof jacket make the book an indispensable companion for all travelers to Japan It is also a valuable and inexpensive reference guide by virtue of extensive indices and bibliographical information

Project 2004 Yoshio Futagawa, 2004      *The Grammar of Japanese Mimetics* Noriko Iwasaki, Peter Sells, Kimi Akita, 2016-12-01 Mimetic words also known as sound symbolic words ideophones or more popularly as onomatopoeia constitute an important subset of the Japanese lexicon we find them as well in the lexicons of other Asian languages and sub-Saharan African languages Mimetics play a central role in Japanese grammar and feature in children's early utterances However this class of words is not considered as important in English and other European languages This book aims to bridge the gap between the extensive research on Japanese mimetics and its availability to an international audience and also to provide a better understanding of grammatical and structural aspects of sound symbolic words from a Japanese perspective Through the accounts of mimetics from the perspectives of morpho-syntax semantics language development and translation of mimetic words linguists and students alike would find this book particularly valuable      *Document Image Processing* Ergina Kavallieratou, Laurence Likforman-Sulem, 2018-10-03 This book is a printed edition of the Special Issue

Legislature, 1926      **Japanese Diplomacy in the 1950s** Makoto Iokibe, Caroline Rose, Junko Tomaru, John Weste, 2008-02-19 This book provides a detailed examination of Japan's diplomatic relations in the 1950s an important decade in international affairs when new structures and systems emerged and when Japan established patterns in its international relationships which continue today It examines the process of Japan's attempts to rehabilitate itself and reintegrate into a changing world and the degree of success to which Japan achieved its goals in the political economic and security spheres The book is divided into three parts each containing three chapters Part I looks at Japan in the eyes of the Anglo American powers Part II at Japanese efforts to gain membership of newly forming regional and international organizations and Part III considers the role of domestic factors in Japanese foreign policy making Important issues are considered including Japanese rearmament and the struggle to gain entry into the United Nations In contrast to much of the academic literature on post war Japanese diplomacy generally presenting Japan as a passive actor of little relevance or importance this book shows that Japan did not simply sit passively by but formed and attempted to instigate its own visions into the evolving regional and global structures It also shows that whilst Japan did not always figure as highly as its politicians and policy makers may have liked in the foreign policy considerations of other nation states many countries and organizations did attach a great deal of importance to re building relations with Japan throughout this period of re adjustment and transformation      *Energy Research Abstracts* , 1990      **History of Soy Sauce (160 CE To 2012)** William Shurtleff, Akiko Aoyagi, 2012      **Project 1990** Wayne N.
