Now Gus and Lyssa must find a way to galvanize humanity to rise up against the enemy before it's too late. Their plan hinges on the recruitment of two legendary fighter aces: Cardie and Brink to lead the counter attack. He's a high school teacher, she's a black ops prodigy who turned her back on the military years ago. The consequences of re-entering the fray alone, like this, wielding the power of her extraordinary armoured suit, could tip the balance of power in the galaxy. To reach her full potential, she must bond with the suit over six gruelling stages. She doesn't know what form they will take, only that the final bonding is permanent and any changes made to her will be irreversible. Can she see Dalton safely off Orontes before the final transformation? As the stakes rise, Gabby's loyalties and fighting skills are tested to their limits. But through it all, the love of her life only seems to make her stronger. That, in turn, stirs ancient forces inside the biotech suit, making it far more powerful and potentially more dangerous than she could ever have imagined.
