Prime Time Soap Operas Douglas M. Snauffer, 2009-09-03 Prime time soaps are often revered long after their runs on television have ended as *Dallas* *Twin Peaks* and *Beverly Hills 90210* readily demonstrate Due to their profound impact it's easy to forget how recently the genre itself was born *Dallas* premiered in 1978 and was originally intended to air solely as a five part mini series Then in 1981 producer Aaron Spelling stepped in and introduced his own ultra glitzy entry *Dynasty* Between these two mega hits the era of the nighttime soap was born Soaps soon spun off into non traditional avenues as well in sitcoms like *Filthy Rich* and the supernatural drama *Twin Peaks* Then with the arrival of the more youth oriented Fox Network producers were able to hook an entirely new generation on programs such as *Beverly Hills 90210* *Melrose Place* and *Party of Five* Pay cable channels have also stepped into the picture and now act as trendsetters with hits like *Sex and the City* *Six Feet Under* *The Sopranos* and *The L Word* Now from the spiritually themed *7th Heaven* to the naughty neighbors of ABC's *Desperate Housewives* soaps dominate prime time *Prime Time Soaps* covers all the major shows within the soap opera genre and also investigates all the ways that soaps have contributed to the development of more general television trends Interviews with producers actors and other artistic collaborators also supplement this revealing and entertaining account Even outside of their genre these shows continue to influence current programming Few series on TV today are purely episodic instead containing on going storylines involving the personal dilemmas of their characters Another very recognizable contribution from soaps occurred on the evening of March 21 1980 when *Dallas* finished out its third year with J R Ewing being shot by an unknown assailant leaving fans to wait until the fall for the resolution This was the beginning of the cliffhanger endings that are now implemented by just about every series on television *Prime Time Soaps* covers all the major shows and also investigates all the ways that soaps have contributed to the development of more general television trends Interviews with producers actors and other artistic collaborators supplement this revealing and entertaining account

Television Jeremy

G. Butler, 2012-02-20 For nearly two decades *Television Critical Methods and Applications* has served as the foremost guide to television studies. Designed for the television studies course in communication and media studies curricula, *Television* explains in depth how television programs and commercials are made and how they function as producers of meaning. Author Jeremy G. Butler shows the ways in which camera style, lighting, set design, editing, and sound combine to produce meanings that viewers take away from their television experience. He supplies students with a whole toolbox of implements to disassemble television and read between the lines, teaching them to incorporate critical thinking into their own television viewing. The fourth edition builds upon the pedagogy of previous editions to best accommodate current modes of understanding and teaching television. Highlights of the fourth edition include: New chapter and part organization to reflect the current approach to teaching television with greatly expanded methods and theories; chapters on modes of production and their impact on what you see on the screen; Discussions integrated throughout on the latest developments in television; s on going convergence with other media such as material on transmedia storytelling and YouTube's impact on video distribution; Over three hundred printed illustrations, including new and better quality frame grabs of recent television shows and commercials; A companion website featuring color frame grabs, a glossary, flash cards, and editing and sound exercises for students, as well as PowerPoint presentations, sample syllabi, and other materials for instructors; Links to online videos that support examples in the text are also provided. With its distinctive approach to examining television, *Television* is appropriate for courses in television studies, media criticism, and general critical studies.
