Gadamer's Hermeneutics Robert J. Dostal, 2022-01-15 In Gadamer's Hermeneutics Robert J Dostal provides a comprehensive and critical account of Hans Georg Gadamer's hermeneutical philosophy arguing that Gadamer's enterprise is rooted in the thesis that being that can be understood is language He defends Gadamer against charges of linguistic idealism and emphasizes language's relationship to understanding though he criticizes Gadamer for too often ignoring the role of the prelinguistic in our experience Dostal goes on to explain the concept of the inner word for Gadamer's account of language The book situates Gadamer's hermeneutics in three important ways in relation to the contestability of the legacy of the Enlightenment project in relation to the work of his mentor Martin Heidegger and in relation to Gadamer's reading of Plato and Aristotle Dostal explores both Gadamer's claim on the Enlightenment and his ambivalence toward it He considers Gadamer's dependence on Heidegger's accomplishment while pointing out the ways in which Gadamer charted his own course rejecting his teacher's reading of Plato and his antihumanism Dostal points out notable differences in the philosophers

politics as well. Finally, Dostal mediates between Gadamer's hermeneutics and what might be called philological hermeneutics. His analysis defends the civic humanism that is the culmination of the philosopher's hermeneutics: a humanism defined by moral education, common sense, judgment, and taste. Supporters and critics of Gadamer's philosophy will learn much from this major achievement. Gadamer's Dialectical Hermeneutics Lauren Swayne Barthold, 2010-01-01. Gadamer's Dialectical Hermeneutics affirms the continuity between Gadamer's interest in Plato and his hermeneutics by focusing on the role of dialectic for Gadamer's own conception of understanding. Highlighting the productive and ongoing nature of the dialectical tension at the heart of hermeneutics clarifies the roles that truth, good practice, theory, and dialogue play in Gadamer's thought and emphasizes his desire to recover the practical nature of philosophy. Gadamer's Ethics of Play Monica Vilhauer, 2010-09-25. Gadamer's Ethics of Play. Hermeneutics and the Other examines the ethical dimensions of understanding by focusing on Gadamer's concept of play as it is developed in his magnum opus *Truth and Method*. Monica Vilhauer argues for the global relevance of play in Gadamer's philosophical hermeneutics by revealing play as the key concept that depicts the process of all understanding that is the dynamic dialogical and interpretive process by which interlocutors come to grasp a common subject matter together. Through the lens of dialogue, play, the book focuses on openness toward one's dialogue partner, respect for his differing point of view, and a willingness to learn from him in conversation as crucial ethical conditions of genuine understanding. The book aims to revive the ethical heart of philosophical hermeneutics and reveal the transforming power of the Other in Gadamer's hermeneutics. While Gadamer's *Ethics of Play* develops his philosophical hermeneutics as an ethical philosophy in the style of the older tradition of Aristotelian practical philosophy, it is finally critical of the extent to which Gadamer's hermeneutics can be used as a guide to practice. The book points out our need for guidance when we face our most prevalent obstacle to understanding: a closedness to the Other or unwillingness to engage in conversation, but finds no guidance from Gadamer in scenarios where ethical conditions are lacking. Inspired by Gadamer's discussion of play, the book searches for types of human interaction that might have the power to open or re-open the play of dialogue between those who have become closed to each other so that true understanding between them can be developed. The book is accessible to an undergraduate audience while also being relevant to ongoing debates among Gadamer scholars. **Gadamer's Truth and Method** Cynthia R. Nielsen, Greg Lynch, 2022-03-28. Gadamer's *Truth and Method*. A Polyphonic Commentary offers a fresh look at Gadamer's magnum opus *Truth and Method*, which was first published in German in 1960, translated into English in 1975, and is widely recognized as a ground-breaking text of philosophical hermeneutics. The volume features essays from fourteen scholars, both established and rising stars, each of which covers a portion of *Truth and Method* following the order of the text itself. The result is a robust, historically and thematically rich polyphonic reading of the text as a whole, valuable both for scholarship and teaching. *Seeking Stillness or The Sound of Wings* Hector Acero Ferrer, Michael DeMoor, Peter Enneson, Matthew Klaassen, 2021-03-11. *Seeking Stillness*

or *The Sound of Wings* pays tribute to Lambert Zuidervaat one of the most productive Reformational philosophers of the present generation by picking up the central concerns of his philosophical work art truth and society and working with the legacy of his published concern to see what more can be understood about our world in light of that legacy Zuidervaat is an internationally recognized expert in critical theory especially the work of Theodor Adorno and a leading systematic philosopher in the reformational tradition His research and teaching range across continental philosophy epistemology social philosophy and philosophy of art with an emphasis on Kant Hegel Marx Heidegger Gadamer and Habermas He is currently developing a new conception of truth for an allegedly post truth society At the Institute for Christian Studies 2002 2016 Zuidervaat held the Herman Dooyeweerd Chair in Social and Political Philosophy and served as founding Director of the Centre for Philosophy Religion and Social Ethics He was also an Associate Member of the Graduate Faculty and Full Professor status only in the Department of Philosophy at the University of Toronto and a member of the Advanced Degree Faculty at the Toronto School of Theology Zuidervaat is currently a Visiting Scholar in the Department of Philosophy at Calvin University in Grand Rapids Michigan *Seeking Stillness or The Sound of Wings* seeks to promote new scholarship emerging from the rich and dynamic tradition of reformational intellectual inquiry Believing that all scholarly endeavor is rooted in and oriented by deep spiritual commitments reformational scholarship seeks to add its unique Christian voice to discussions about leading questions of life and society From this source it seeks to contribute to the redemptive transformation and renewal of the various aspects of contemporary society developing currents of thought that open human imagination to alternative future possibilities that may helpfully address the damage we find in present reality As part of this work *Currents in Reformational thought* will bring to light the inter and multi disciplinary dimensions of this intellectual tradition and promote reformational scholarship that intentionally invites dialogue with other traditions or streams of thought

Hermeneutics of Education Andrzej Wiercinski, 2020-03-10 A hermeneutics of education pays special attention not to educational structures but the central role of conversation in the educational process The key issue is the formation of the person as a unique reality of being and acting while supporting intersubjective understanding The polyphony of understanding places the human search for meaning within the horizon of incompleteness and allows for both spontaneity and rigor in order to reach an understanding of what is happening to us and in us when we understand Reflection on education is always inseparable from educational practice

The Law Applied Peri Bearman, Bernard G. Weiss, Wolfhart Heinrichs, 2008-01-30 A sea change has taken place in Islamic legal studies This book both reflects and contributes to that change Traditionally scholars in this field have tended to focus on law as a body of rules and doctrines as *fiqh* This volume is more interested in how the law has been applied to concrete situations It looks at judicial decision making legal responses fatwas customary practices the actions of public inspectors cultural contexts and theological discourses as well as modern legal reform and constitutional development Reflecting the interests of a new academic generation *The Law Applied* offers an

ambitious and textured account of how Islamic law works in practice in the social life of the contemporary world

Assimilation/generation/resurrection Ben A. Heller, 1997 Cuban author Jose Lezama Lima 1910-76 produced some of the most enigmatic and important poetry in the Spanish language. He did this during a turbulent moment in Cuban history: a period of social unrest, radical change in political systems, and attempts at cultural self-definition. While some have argued that his poetry evades these circumstances, *Assimilation Generation Resurrection* adopts a contextual approach and reveals the extent of Lezama's engagement with the defining political and cultural issues of his day. It also lays bare the underlying connection of this poetry to a weave of intertexts, Lezama's productive interaction with several traditions. Intimidating in its philosophical scope and linguistic complexity, Lezama's poetry has received far less critical attention than his prose. The present study rectifies this critical imbalance, foregrounding the poetry while discussing three issues that link disparate areas of Lezama's literary production. These issues—cultural assimilation, generation, and resurrection—are central elements in Lezama's poetics yet are also pertinent to wide-ranging debates on Latin American cultural identity. This study reads key poems from each of his published books of poetry using an interpretive approach forged from diverse yet cohering sources, including Lezama's own theories on reading and writing. After a brief methodological excursus and a first contextualization of Lezama's poetics vis-à-vis a number of other Cuban writers, this study considers Lezama's early assimilation of a number of initiatory texts as well as his indirect but crucial response to the social concerns of the 1930s. *Assimilation Generation Resurrection* makes clear that Lezama's poetry owes its existence to an engagement with cultural artifacts and social circumstances more generally. Yet it is far more than a response; it constantly attempts to go beyond, generating the new at the intersection of the old and the as-yet-uncreated. The result of this practice is a poetry that claims the power both to translate over distance and to resurrect by virtue of the image. Critical Conversations Murray A. Rae, 2012-01-18 *Critical Conversations* provides a series of theological engagements with the work of Michael Polanyi, one of the twentieth century's most profound philosophers of science. Polanyi's sustained explorations of the nature of human knowing open a range of questions and themes of profound importance for theology. He insists on the need to recover the categories of faith and belief in accounting for the way we know and points to the importance of tradition and the necessity, sometimes of conversion, in order to learn the truth of things. These themes are explored along with Polanyi's social and political thought, his anthropology, his hermeneutics, and his conception of truth. Several of the essays set Polanyi alongside the work of other thinkers, particularly Karl Barth, Lesslie Newbigin, Hans Georg Gadamer, and René Girard, and they discuss points of comparison and contrast between the respective figures. While all the essays are appreciative of Polanyi's contribution, they do not shy away from critical analysis and take further, therefore, the critical appreciation of Polanyi's work.

Does Religious Education Matter? Mary Shanahan, 2016-07-28 In the current climate and in an age of increasing hostility towards religion and the study of religion religious education is a much debated area Bringing together an interdisciplinary team of contributors from the USA Britain and Ireland and Australia representing a variety of religious perspectives Does Religious Education Matter provocatively demonstrates that it is vital that religious education is presented as it really is a valuable and rich resource that when taught and engaged with appropriately stimulates essential qualities for global and responsible citizenship critical thinking tolerance respect and mutual understanding

Incommensurability and Cross-Language Communication Xinli Wang, 2017-05-15 A dominant epistemological assumption behind Western philosophy is that it is possible to locate some form of commonality between languages traditions or cultures such as a

common language or lexicon or a common notion of rationality which makes full linguistic communication between them always attainable Xinli Wang argues that the thesis of incommensurability challenges this assumption by exploring why and how linguistic communication between two conceptually disparate languages traditions or cultures is often problematic and even unattainable According to Wang s presuppositional interpretation of incommensurability the real secret of incommensurability lies in the ontological set ups of two competing presuppositional languages This book provides many original contributions to the discussion of incommensurability and related issues in philosophy and offers valuable insights to scholars in other fields such as anthropology communication linguistics scientific education and cultural studies
