## **Gainesville Ripper:**

*Gainesville Ripper* Nikki Marshall, 2016-02-14 They called him the Gainesville Ripper and he was allegedly the inspiration for the horror movie *Scream*. In 1990 Danny Rolling murdered four University of Florida students and a Santa Fe Community College student in their apartments with a United States Marine Corps military style K&B knife by stabbing, slicing, mutilating, raping and even decapitating some of his victims. He had also been linked to and found guilty of killing a family of three in his home town in 1989, a crime for which another person was initially arrested. Rolling was later apprehended in conjunction with a botched grocery store robbery and later pled guilty to all of the grisly murders during jury selection in 1994. After an unsuccessful appeal of his death sentence, he was ultimately executed via lethal injection on 25 October 2006.

*The Making of a Serial Killer* Danny Rolling, Sondra London, 2011-02-01 The man convicted of the vicious murders of five college students in Gainesville, Florida, discusses his motivations and actions in committing the crimes, reflects on what made him into a killer, and his struggle to come to terms with what he did. Original IP **A Monster of All Time** Jt

Hunter, 2020-06-24 This is the frightening story that inspired the movie *Scream*. Ambitious, attractive, and full of potential, five young college students prepared for a new semester. They dreamed of pursuing careers and starting their own families. They had a lifetime of experiences in front of them. But death came without warning in the dark of the night, brutally ending five promising lives, leaving behind three gruesome crime scenes. The Gainesville Ripper terrorized the University of Florida and surrounding area, casting an ominous shadow across a terrified college town. And the five Gainesville murders were not his first. What evil lurked inside him? What demons drove him to kill? What made him a monster of all time? **The Gainesville Ripper** Mary S. Ryzuk, 1994 A summer's madness, five young victims, the investigation, the arrest, and the trial. **Homicide Investigation** John J. Miletich, 2003 Professionals in law enforcement and those considering law enforcement as a career, students of sociology, psychology, criminal justice, and law, and criminology courses, and readers of true crime literature will find this book an engaging and informative reference. **BOOK JACKET** **Soul Eaters** Goñi RavenSkål Venås, 2019-08

This book paints a picture of how humanity is willing to kill and murder its own people. **The World's Most Bizarre Murders** James Marrison, 2010-06-07 This is no ordinary true crime book. If you think you've got the stomach for the most blood-curdling, sickening, and downright strangest murders you will ever come across, then look no further than these pages. You have been warned. Take, for example, Enriqueta Martí, who kidnapped children from the streets of Barcelona, then boiled away their flesh and crushed their bones for ingredients for her coveted magic potions. Or take Randy Kraft, known as The Scorecard Killer, a computer genius by day and a deranged psychopath by night. Finally arrested with a corpse slumped in the passenger seat of his car, it emerged that Kraft had spent over a decade cutting up and disposing of his numerous victims along the California highways. In this stomach-churning collection, all the stories have one thing in common: a unique, bizarre twist. True crime writer James Marrison draws upon the material that has featured in the hugely successful column *The*

Murder File in cult magazine Bizarre in order to disclose the kind of sickening deeds that are perpetrated more often than you might think but which sometimes go largely unreported by the media Welcome to The World's Most Bizarre Murders the most shocking true crime book you will ever read

Wilson, 2015-09-24 Creatively and intellectually there is no other species that has ever come close to equalling humanity's achievements but nor is any other species as suicidally prone to internecine conflict We are the only species on the planet whose ingrained habit of conflict constitutes the chief threat to our own survival Human history can be seen as a catalogue of cold hearted murders mindless blood feuds appalling massacres and devastating wars but with developments in forensic science and modern psychology and with raised education levels throughout the world might it soon be possible to reign in humanity's homicidal habits Falling violent crime statistics in every part of the world seem to indicate that something along those lines might indeed be happening Colin and Damon Wilson who between them have been covering the field of criminology for over fifty years offer an analysis of the overall spectrum of human violence They consider whether human beings are in reality as cruel and violent as is generally believed and they explore the possibility that humankind is on the verge of a fundamental change that we are about to become truly civilised As well as offering an overview of violence throughout our history from the first hominids to the twenty first century touching on key moments of change and also indicating where things have not changed since the Stone Age they explore the latest psychological forensic and social attempts to understand and curb modern human violence To begin with they examine questions such as Were the first humans cannibalistic Did the birth of civilisation also lead to the invention of war and slavery Priests and kings brought social stability but were they also the instigators of the first mass murders Is it in fact wealth that is the ultimate weapon They look at slavery and ancient Roman sadism but also the possibility that our own distaste for pain and cruelty is no more than a social construct They show how the humanitarian ideas of the great religious innovators all too quickly became distorted by organised religious structures The book ranges widely from fifteenth century Baron Gilles de Rais Bluebeard the first known and possibly most prolific serial killer in history to Victorian domestic murder and the invention of psychiatry and Sherlock Holmes and the invention of forensic science from the fifteenth century Taiping Rebellion in China in which up to 36 million died to the First and Second World Wars and more recent genocides and instances of ethnic cleansing and contemporary

terrorism They conclude by assessing the very real possibility that the internet and the greater freedom of information it has brought is leading gradually to a profoundly more civilised world than at any time in the past **Psychopedia**
