A Rainbow of Gangs James Diego Vigil, 2010-07-05 Winner Best Book on Ethnic and Racial Politics in a Local or Urban Setting Organized Section on Race Ethnicity and Politics of the American Political Science Association 2002 This cross cultural study of Los Angeles gangs identifies the social and economic factors that lead to gang membership and underscores their commonality across four ethnic groups Chicano African American Vietnamese and Salvadorian With nearly 1 000 gangs and 200 000 gang members Los Angeles holds the dubious distinction of being the youth gang capital of the United States The process of street socialization that leads to gang membership now cuts across all ethnic groups as evidenced by the growing numbers of gangs among recent immigrants from Asia and Latin America This cross cultural study of Los Angeles gangs identifies the social and economic factors that lead to gang membership and underscores their commonality across four ethnic groups Chicano African American Vietnamese and Salvadorian James Diego Vigil begins at the community level examining how destabilizing forces and marginalizing changes have disrupted the normal structures of parenting schooling and policing thereby compelling many youths to grow up on the streets He then turns to gang members life stories to show how societal forces play out in individual lives His findings provide a wealth of comparative data for scholars policymakers and law enforcement personnel seeking to respond to the complex problems associated with gangs

Multiple Marginality and Gangs James Diego Vigil, 2020-08-20 Multiple Marginality and Gangs Through a Prism Darkly unravels the youth gang problem in a multidimensional approach that encompasses the place status social control subcultural and identity facets of urban street gangs The power of place and the

status of persons and groups are the major forces that generate the many situations and conditions that give rise to gangs In its simplest trajectory Multiple Marginality can be modeled as follows place status to street socialization to street subculture to street identity It is the actions and reactions among them that we fathom As we witness detrimental or absent family influence we also observe weaker underfunded schools that limit educators reach At the same time there has been an increase in the militarization of law enforcement to deal with the youth street populations the heaviest hand is that of the police There is a causal relationship between social marginalization factors and gang membership A psychological analysis also entails how street socialization leads to a street identity In a place and status group the cascading effects of marginalization have certainly affected and mostly thwarted social control institutions **The Extreme Gone Mainstream** Cynthia Miller-Idriss,2019-12-03 This book comes at a time that could hardly be more important Miller Idriss opens up a completely new approach to understanding the processes of violent radicalization through subcultural products and will surely become a standard work in the study of right wing extremism Daniel Koehler founder and director of the German Institute on Radicalization and De Radicalization Studies dies School Violence Intervention Jane Close Conoley,Arnold P. Goldstein,2004-07-26 This work offers effective intervention strategies for managing school violence Opening with a range of perspectives on student aggression it provides a comprehensive view on practical interventions at the student school and systems levels Practitioners present empirically grounded strategies for an array of school settings and situations seeking to help readers make informed decisions about the approaches that would be most effective in their own environments The first part of the text presents information on the nature and prevalence of youth violence today and outlines strategies geared toward making the school physically safer establishing clear behaviour standards providing adequate adult presence enforcing rules fairly and sanctioning offenders and creating partnerships with outside agencies The chapters that follow describe a range of interventions directed toward aggressive students themselves which have proved highly effective in outcome evaluation research These approaches include behavioural classroom management crises and gang orientated interventions and preventative pre school programmes In addition it details school orientated strategies such as academic and curriculum interventions vandalism control and effective security policy Exploring the complex relationship among school behaviour family life and community chapters also consider avenues toward effecting change in the larger context of the students lives A hands on manual for dealing with some of the most intractable problems education professionals face this book offers extensive information for school psychologists and researchers Youth Gang Programs and Strategies James C. Howell,2000 *Cockeyed Education* Gerard Giordano,2010-01-16 Should educators pay students Should they make them wear sunglasses regulate their clothing allow them to bring animals into classrooms discourage them from playing videogames or transform their schools into gymnasiums These are some of the suggestions that Cockeyed Education examines This book enables readers to differentiate substantive from cockeyed suggestionsfor improving schools It directs

them to the suggestions that scholastic experts politicians and members of the public have made Additionally it introduces them to the case method It helps them apply this analytical technique to events that range from early Chicago schooling to the 2009 economic stimulus package Methods That Matter M. Cameron Hay,2016-05-05 To do research that really makes a difference the authors of this book argue social scientists need questions and methods that reflect the complexity of the world Bringing together a consortium of voices across a variety of fields Methods that Matter offers compelling and successful examples of mixed methods research that do just that In case after case the researchers here break out of the traditional methodological silos that have long separated social science disciplines in order to better describe the intricacies of our personal and social worlds Historically the largest division between social science methods has been that between quantitative and qualitative measures For people trained in psychology or sociology the bias has been toward the former using surveys and experiments that yield readily comparable numerical results For people trained in anthropology it has been toward the latter using ethnographic observations and interviews that offer richer nuances of meaning but are difficult to compare across societies Discussing their own endeavors to combine the quantitative with the qualitative the authors invite readers into a conversation about the best designs and practices of mixed methodologies to stimulate creative ideas and find new pathways of insight The result is an engaging exploration of a promising new approach to the social sciences

And Words Can Hurt Forever James Garbarino, Ellen deLara, 2003-09-02 Citing the pervasiveness of emotional violence in schools a guide for parents and educators identifies how schools unwittingly support hostile environments and explains why listening to teens is a key to addressing all forms of violence *Youth Gangs, Violence and Social Respect* R. White, 2013-06-13 This is the first book dedicated to Australian youth gangs exploring the subtleties and nuances of street life for young men and their quest for social respect The key focus is on group violence and the ways in which the gang provides a forum for the expression of this violence Handbook of Children, Culture, and Violence Nancy E. Dowd, Dorothy G. Singer, Robin Fretwell Wilson, 2006 Each chapter contains recommendations for legislators policy makers researchers and families This book should be on the desk and minds of legislators attorneys social workers and other mental health professionals who encounter and wish to ameliorate the effects of violence in the lives of their young constituents clients and patients JOURNAL OF CHILD AND FAMILY STUDIES Questions relating to violence and children surround us in the media should V chips be placed in every television set How can we prevent another Columbine school shooting from occurring How should pornography on the internet be regulated The Handbook of Children Culture and Violence addresses these questions and more providing a comprehensive interdisciplinary examination of childhood violence that considers children as both consumers and perpetrators of violence as well as victims of it The Handbook offers much needed empirical evidence that will help inform debate about these important policy decisions Moreover it is the first single volume to consider situations when children are responsible for violence rather than focusing exclusively on occasions when they are victimized Providing

the first comprehensive overview of current research in the field the editors have brought together the work of a group of prominent scholars whose work is united by a common concern for the impact of violence on the lives of children The Handbook of Children Culture and Violence is poised to become the ultimate resource and reference work on children and violence for researchers teachers and students of psychology human development and family studies law communications education sociology and political science public policy It will also appeal to policymakers media professionals and special interest groups concerned with reducing violence in children s lives Law firms specializing in family law as well as think tanks will also be interested in the Handbook
