**Art as Inspiration in Landscape Design** Amy Martin, 2004 *Conceptualist Landscapes* Paul Cooper, 2014-07-07 Conceptual gardens depend on inspiration which is the result of an exhaustive intellectual process The starting point is an IDEA or stimulus that pushes the design along rather than observing more conventional styles whether classical or modernist into which idea or relationships are fitted Horticultural considerations architectural or aesthetic doctrines and practically based problem solving are either

abandoned or regarded as a means to an end rather than the end in itself Idea driven design therefore cannot be taught by a rule of thumb methodology So the way to design a conceptualist garden is not the theme of this book nor does it contain of the peg solutions for garden and landscape designers Rather it encourages student and professional designers to think further towards their designed solutions

Landscape as Inspiration Hans Dieter Schaal, 1994-03-04 This text explores the elements of landscape design with clear detailed drawings which convey the effect of formal climatic geological textural and architectural botanical elements and their significance for the landscape designer
