G I Generation A Memoir:

The GI Generation Frank F. Mathias, 2021-12-14 Frank Mathias was born in Maysville Kentucky pop 7000 in 1925 and grew up in nearby Carlisle pop 1500 where life in his small town was much like that in towns and villages all across America He came of age in an era of total security his parents never even had a key to their front door Daily living was infused with gossip no one had a secret and everyone knew everyone else s business Outdoor life was a vital part of growing up and teachers and mentors instilled a sense of right and wrong in young people Raised during the Great Depression Mathias became a member of a fighting force the likes of which the world had never known a legion now called The Greatest Generation The GI Generation tells Mathias s story of growing up with the sweet whistle of the L N train and the summer kitchen smells of hot salt rising bread and blackberry cobbler which could instantly halt even the most rousing game of cowboys and Indians Much of community life focused on the local high school which in Mathias s case was a tiny one with no chemistry courses no drivers training and no guidance counselors Yet the one hundred students who graduated between 1942 and 1944 became university professors top executives military commanders successful investors lawyers and physicians A vivid portrait of a bucolic pre war boyhood The GI Generation takes readers back to an era when boys rustled watermelons under the hot summer sun and young lovers danced to the sounds of farmhouse bands Whether describing the unfortunate but delicious end of his brother s pet chicken Don or the ominous clouds of war Mathias writes with humor honesty and compassion **WLA** ,2000 One from the Least and Disappearing Generation- a Memoir of a Depression Era Kid

Clarence G. Oliver, 2006-04-12 The Great Depression of the 1930s was a challenging time for most families especially those in the Dust Bowl states such as Oklahoma This is a true story of a young boy born just three months before the Crash of 1929 told with reflections on his growing up in Ada Oklahoma during the 1930s and 1940s as his and other neighborhood families struggled for survival and then recovered as the nation began to experience the Happy Days are Here Again promised by a new president Franklin Delano Roosevelt The book covers the childhood and youth years ending with high school graduation when writer recognizes that he has miles to go before I sleep Young Oliver hawked newspapers in Ada s downtown business area as a seven year old moved on to paper routes and other jobs and learned important life skills through family church work Scouting neighborhood activities and especially as he became the eyes for a loving blind grandfather who despite that handicap ran a small neighborhood store and taught the young man how to see with the mind s eye People and events remembered from childhood days are sometimes part fact and part perception The people existed and the events occurred The blending of reality with the thoughts and impressions left in the mind of a young child become the memories of an adult and are shared so that today s generation and future generations will know what life was like in that era These are reflections on the joys and trials neighborhood incidents play the murder of a neighbor falling in love memories of one person from the generation which was the smallest in number of all recent generations and one which is rapidly disappearing

A Nation Forged in War Thomas A. Bruscino, 2013-05-12 World War II shaped the United States in profound ways and this new book the first in the *Legacies of War* series explores one of the most significant changes it fostered a dramatic increase in ethnic and religious tolerance *A Nation Forged in War* is the first full length study of how large scale mobilization during the Second World War helped to dissolve long standing differences among white soldiers of widely divergent backgrounds Never before or since have so many Americans served in the armed forces at one time more than 15 million donned uniforms in the period from 1941 to 1945 Thomas Bruscino explores how these soldiers shared experiences enduring basic training living far from home engaging in combat transformed their views of other ethnic groups and religious traditions He further examines how specific military policies and practices worked to counteract old prejudices and he makes a persuasive case that throwing together men of different regions ethnicities religions and classes not only fostered a greater sense of tolerance but also forged a new American identity When soldiers returned home after the war with these new attitudes they helped reorder what it meant to be white in America Using the presidential campaigns of Al Smith in 1928 and John F Kennedy in 1960 as bookend events Bruscino notes a key change in religious bias Smith's defeat came at the end of a campaign rife with anti Catholic sentiment Kennedy's victory some three decades later proved that such religious bigotry was no longer an insurmountable obstacle Despite such advances Bruscino notes that the growing broad mindedness produced by the war had limits it did not extend to African Americans whose own struggle for equality would dramatically mark the postwar decades Extensively documented *A Nation Forged in War* is one of the few books on the social and cultural impact of the World War II years Scholars and students of military ethnic social and religious history will be fascinated by this groundbreaking new volume

A Memoir of Creativity Piri Halasz, 2009 A Memoir of Creativity chronicles one woman's life journey as she derives a theory revealing meaning in abstract painting from varied personal and professional experiences and tells how she locates this theory within a broader social context In 1966 Piri Halasz became the first woman within living memory to write a cover story for Time and not just any cover story either the notorious one on Swinging London With wit and wisdom she provides a glimpse into her red diaper childhood as well as reporting on her climb at Time from research to the writing staff Vividly she describes her controversial career as a female journalist during the sixties offering an inside view of newsweekly rivalries during that tempestuous decade Halasz then moves on to her initiation into the art world her lively

interaction with some of its most distinguished denizens and her immersion in graduate school She concludes with what she has learned about art history and history itself since the early eighties applying that knowledge to better understand the twenty first century Through sharing her life story Halasz encourages others to remain open to new experiences to try different ways of seeing and to use creativity to tackle hurdles

We the Dead Brian Michael Murphy, 2022-05-16 Locked away in refrigerated vaults sanitized by gas chambers and secured within bombproof caverns deep under mountains are America's most prized materials the ever expanding collection of records that now accompany each of us from birth to death This data complex backs up and protects our most vital information against decay and destruction and yet it binds us to corporate and government institutions whose power is also preserved in its bunkers infrastructures and sterilized spaces We the Dead traces the emergence of the data complex in the early twentieth century and guides readers through its expansion in a series of moments when Americans thought they were living just before the end of the world Depression era eugenicists feared racial contamination and the downfall of the white American family while contemporary technologists seek ever denser and more durable materials for storing data from microetched metal discs to cryptocurrency keys encoded in synthetic DNA Artfully written and packed with provocative ideas this haunting book illuminates the dark places of the data complex and the ways it increasingly blurs the lines between human and machine biological body and data body life and digital afterlife

Tobacco Town Futures Ann E. Kingsolver, 2010-12-29 Situated between the foothills of Appalachia to the east and bluegrass country to the west Nicholas County has been home to small tobacco farms in rural Kentucky for the past 200 years But now in the midst of tremendous economic changes generated by the movement of both textile jobs and tobacco production to other countries residents of Nicholas County face an uncertain future Based on twenty five years of research Kingsolver's longitudinal ethnography of Nicholas County her home community synthesizes geographical historical economic and political processes that have shaped lifeways and worldviews She documents the perspectives of farmers factory workers politicians those pursuing new niches in the labor market and middle school students in search of alternative futures Countering stereotypes Kingsolver emphasizes the skills and agency of rural residents and demonstrates how people in widely dispersed and seemingly isolated communities in the world are connected through capitalist logic and practice thereby illuminating globalizations far reaching effects

A New Way of Seeing Michael Sarnowski, 2025-06-04 A New Way of Seeing considers the poetry of five writers Louis Simpson Keith Douglas Richard Hugo Howard Nemerov and Randall Jarrell whose work draws on their activities as soldiers in World War II Basing his examination on extensive primary source research Michael Sarnowski identifies distance both literal and figurative and traumatic memory as two interconnected elements of how these poets internalized the war and made sense of the events they witnessed The book is structured on a gradient related to each poet's proximity to combat as the chapters in turn focus on an infantryman Simpson a tank commander Douglas a bombardier Hugo a pilot Nemerov and a stateside flight instructor Jarrell Sarnowski relies on a wealth of archival material overlooked by previous scholarship including poem drafts correspondence flight logs and personal belongings The conclusion revisits notions of legacy and representation by assessing factors that contributed to the early labeling of World War II soldiers as a Silent Generation in contrast to the outpouring of poetry published during and following the First World War By exploring how poets processed their wartime experiences A New Way of Seeing offers a stark reminder of why it remains vital to recognize the physical mental and psychological consequences endured by veterans
