histories written in the past in different political times dealt with considered or avoided and disavowed Britain's imperial role and issues of difference. Ranging from enlightenment historians to the present, these essays consider both individual historians including such key figures as E. A. Freeman, G. M. Trevelyan, and Keith Hancock, and also broader themes such as the relationship between liberalism, race, and historiography, and how we might re-think British history in the light of transnational, trans-imperial, and cross-cultural analysis. Britishness and what British history is have become major cultural and political issues in our time. But as these essays demonstrate, there is no single national story; race, empire, and difference have pulsed through the writing of British history. The contributors include some of the most distinguished historians writing today: C. A. Bayly, Antoinette Burton, Saul Dubow, Geoff Eley, Theodore Koditschek, Marilyn Lake, John M. MacKenzie, Karen O'Brien, Sonya O. Rose, Bill Schwarz, Kathleen Wilson.

Religions and Followers Naiter Mohan Chopra, 2016-08-13 To understand what is happening in the troubled world, it is necessary to comprehend the nature and the characteristics of the world's religions and their followers without any political correctness. I am from the East and I am a scientist. The scientists are mostly objective. They are unbiased and free from their personal feelings and prejudices. In writing this book, I have tried to be objective and represent how a man from the East views the religions and their followers. This book is dedicated to all the victims of religious violence.

Liberal Intellectuals and Public Culture in Modern Britain, 1815-1914 William C. Lubenow, 2010 Liberal Intellectual and Public Culture in Modern Britain shows how liberal values reconstructed public space in Britain after the repeal of the Test and Corporation Acts 1828 and the passage of Catholic emancipation 1829. It traces the century-long process against subscription to the Thirty-Nine Articles. It examines the emergence of the intellectual authority of the universities and the social authority of the professions. This cultural capital, antique and modern letters, mathematics, filled the public sphere and provided the materials for intellectual change. Roman Catholicism and nationalism revealed the fragilities of this public culture.

Back cover

Politicians, Diplomacy and War in Modern British History Keith Robbins, 1994-07-01 The aspirations of democracy and the requirements of diplomacy have always coexisted uneasily. The politicians discussed in this book, in particular the appreciation of the careers of John Bright and James Bryce, reflect obliquely or directly on the problems of politicians who seek the high moral ground either in domestic or international politics. There is also a discussion of the relationship between politicians and the press, as well as of the difficult link between cultural and political assumptions on the one hand and the facts of economic performance on the other.
