Abb. 8° Giovanni Gullace, 1966-06 How France Built Her Cathedrals: A Study in the Twelfth and Thirteenth Centuries Elizabeth Boyle O'Reilly, 2022-08-01 In How France Built Her Cathedrals A Study in the Twelfth and Thirteenth Centuries Elizabeth Boyle O Reilly embarks on a meticulous exploration of the architectural and cultural evolution of France's most iconic cathedrals during a pivotal era Weaving together a narrative rich in historical detail and technical analysis O Reilly examines the intricate interplay between religious fervor societal aspirations and architectural innovation Her literary style combines erudition with accessibility making complex architectural concepts comprehensible to a wide audience This work situates itself within the broader context of medieval studies art history and architectural scholarship illuminating how cathedrals served not merely as places of worship but also as embodiments of emerging Gothic ideals and communal identities Elizabeth Boyle O Reilly is a distinguished historian and architectural scholar whose expertise in medieval architecture is well established Drawing on years of research both in the field and through extensive scholarly resources O Reilly's insights are informed by her engagement with ongoing debates in the historical narrative of architecture Her passion for the subject is rooted in a profound appreciation for how these grand structures fostered community and cultural identity amidst the transformative tides of medieval Europe This book is an invaluable resource for anyone intrigued by the realms of art architecture and history O Reilly's engaging prose and thorough research make it a compelling read for scholars students and enthusiasts alike By illuminating the profound significance of cathedrals in medieval France this study invites readers to appreciate these masterpieces not just as mere buildings but as vital reflections of their time Transnational Modernity and the Italian Reinvention of Walt Whitman, 1870-1945 Caterina Bernardini, 2021-07-15 Caterina Bernardini gauges the effects that Walt Whitman's poetry had in Italy from 1870 to 1945 the reactions it provoked the aesthetic and political agendas it came to sponsor and the creative responses it facilitated Particular attention is given to women writers and noncanonical writers often excluded from previous discussions in this area of study Bernardini also investigates the contexts and causes of Whitman's success abroad through the lives backgrounds beliefs and imaginations of the people who encountered his work Studying Whitman's reception from a transnational perspective shows how many countries were simultaneously carving out a new modernity in literature and culture In this sense Bernardini not only shows the interconnectedness of various international agents in understanding and contributing to the spread of Whitman's work but more largely illustrates a constellation of similar pre modernist and modernist sensibilities This stands in contrast to the notion of sudden innovation modernity was not easy to achieve and it did not imply a complete refusal of tradition Instead a continuous and fruitful

negotiation between tradition and innovation not a sudden break with the literary past is at the very heart of the Italian and transnational reception of Whitman The book is grounded in archival studies and the examination of primary documents of noteworthy discovery **Embodied Texts** Mary Fleischer, 2007-01-01 Embodied Texts Symbolist Playwright Dancer Collaborations explores the dynamic relationship between Symbolist theatre and early modern dance across Europe from the 1890s through the 1930s Gabriele D Annunzio s projects with Ida Rubinstein Hugo von Hofmannsthal s pantomimes for Grete Wiesenthal W B Yeats s work with Michio Ito and Ninette de Valois and Paul Claudel s collaborations with Jean B rlin and the Ballets Su dois are studied in depth to shed new light on an evolving dance theatre form within Symbolist culture Buoyed by the era's heightened interest in the expressive qualities of the body these playwrights were highly invested in the authority of language yet were drawn to the capacity of dance to evoke spiritual or psychological states which words could not completely capture In its belief of fundamental correspondences among the arts Symbolism encouraged experimentation across disciplines and this study traces interconnections among many of its significant figures including Max Reinhardt Claude Debussy Gertrud Eysoldt Edward Gordon Craig Bronislava Nijinksa Isadora Duncan Jaques Dalcroze Darius Milhaud Vsevolod Meyerhold Mariano Fortuny Terence Gray George Antheil Eleonora Duse and Michel Fokine **Encyclopedia of Literary Translation Into English: A-L** O. Classe, 2000 The Fishing Net and the Spider Web Claudio Fogu, 2020-11-23 This book explores the role of Mediterranean imaginaries in one of the preeminent tropes of Italian history the formation or making of Italians While previous scholarship on the construction of Italian identity has often focused too narrowly on the territorial notion of the nation state and over identified Italy with its capital Rome this book highlights the importance of the Mediterranean Sea to the development of Italian collective imaginaries From this perspective this book re interprets key historical processes and actors in the history of modern Italy and thereby challenges mainstream interpretations of Italian collective identity as weak or incomplete Ultimately it argues that Mediterranean imaginaries acted as counterweights to the solidification of a national Italian identity and still constitute alternative but equally viable modes of **Self-Made** Tara Isabella Burton, 2023-06-27 An exploration into the curation of the self in Western collective belonging civilization from Da Vinci to Kim Kardashian In a technologically saturated era where nearly everything can be effortlessly and digitally reproduced we re all hungry to carve out our own unique personalities our own bespoke personae to stand out and be seen As the forces of social media and capitalism collide and individualism becomes more important than ever across a wide array of industries branding ourselves or actively defining our selves for others has become the norm Yet this phenomenon is not new In Self Made Tara Isabella Burton shows us how we arrived at this moment of fervent personal branding As attitudes towards religion politics and society evolved our sense of self did as well moving from a collective to individual mindset Through a series of chronological biographical essays on famous and infamous self creators in the modern Western world from the Renassiance to the Enlightenment to modern capitalism and finally to our present moment of mass
