Gambling Hazard And Reward:

The Sociology of Risk and Gambling Reader James F. Cosgrave, 2006 First Published in 2006 Routledge is an imprint of Taylor Francis an informa company

Gambling Risks Gideon Fairchild, AI, 2025-03-12 Gambling Risks examines the complex relationship between gambling addiction cognitive psychology and personal finance revealing how compulsive gambling can alter decision making and undermine financial stability It highlights that gambling addiction recognized as a behavioral disorder fundamentally changes brain function impairing judgment and increasing susceptibility to risky financial behaviors The book explores the direct financial consequences such as mounting debts and damaged credit alongside the associated emotional distress demonstrating how addiction acts as a catalyst for irrational financial choices The book adopts an interdisciplinary approach integrating neuroscience behavioral economics and practical financial strategies Beginning with a historical and social context it progresses through the neurobiological underpinnings of addiction behavioral manifestations like distorted risk perception and socio economic fallout on families and communities Through case studies statistical analyses and econometric models Gambling Risks offers a comprehensive understanding of the financial risks associated with gambling It culminates by proposing strategies for prevention intervention and financial rehabilitation offering actionable advice for building financial resilience and managing debt

THE SOCIOLOGY OF GAMBLING Mikal Aasved, 2003-01-01 This is the second in a series of books intended to review and evaluate the most popular and influential explanations for gambling and the many research studies that have been conducted to confirm or refute them This book focuses on the contributions of specialists in the social sciences most of whom are convinced that gambling is a consequence of the social or subcultural environment in which the gambler lives To further the understanding of why people gamble investigators went to places where gambling occurred and spent time among and interacted with the gamblers Some attended Gamblers Anonymous meetings and others became participant observers in gambling establishments by becoming employed as roulette croupiers or card dealers Topics covered include the gambler s point of view the researcher s point of view social structure economics statistical tests of earlier ideas special populations armchair theories gambling and the public problem correlates and risk factors In addition a critique of the qualitative and quantitative studies involving survey research methods and interview research methods is given that provides theoretical explanations for why people gamble Numerous results from geographical surveys are provided as well as tables that examine the research of problem gambling

THE PSYCHODYNAMICS AND PSYCHOLOGY OF GAMBLING Mikal Aasved, 2002-01-01 The Psychodynamics and Psychology of Gambling is the first volume in the four volume The Gambling Theory and Research Series Author Mikal Aasved felt a need to fill what he perceived to be a lack of background sources or reviews of literature pertaining to gambling theory and research This series will present major findings of leading researchers as they study the causes and effects of gambling both recreational and excessive This first entry in the series reviews the most influential psychodynamic and

psychological theories that explain why people gamble Psychoanalytical theorists discussed include Freud Von Hattingberg Fenichel Bergler Simmel Greenson Stekel and others Aasved includes sections on behavioral learning or reinforcement theory psychological approaches to gambling with discussion of Skinner s ideas and research findings as well as Pavlov s principles This book begins with the question Why do people gamble and offers many theories proposed by clinicians laboratory and field researchers and participants as they seek to explain the motivation behind gambling The differences between gambling as entertainment and gambling compulsion is a focus of much research Aasved addresses ideas set forth as to why some people are able to control their gambling and others cannot even when it means sacrificing their jobs family and material possessions This text provides a comprehensive background into theories of addiction research as studied by leaders in the field

Gambling Cultures Jan McMillen,2005-12-20 First published in 1996 Routledge is an imprint of Taylor Francis an informa company

Gambling, Losses and Self-Esteem Cormac Mc Namara,2019-11-18 This book provides new insights into contemporary betting shops with a particular focus on the manner in which losing bets are dealt with by customers Drawing on research undertaken in Ireland it demonstrates that customers tend to shift responsibility for monetary losses onto factors external to themselves as part of a collective process engaged in to restore self esteem and considers the role played by announcements made in betting shops in creating an atmosphere of inclusion and the implications of this for problem gambling Through an analysis of newspaper representations of the first legally operating betting shops in Ireland which opened in the 1920s the author places the contemporary betting shop in historical context and examines trends in gambling across the British Isles with reference to social class and the security or precarity of work An interactionist study not only of gambling but also of responsibility and the connection between the micro world and social structures this volume will appeal to sociologists with interests in symbolic interactionism and strategies of blame

The Development of the Law of Gambling National Institute of Law Enforcement and Criminal Justice,1977

Gambling and Speculation Reuven Brenner,Gabrielle A. Brenner,1990-03-30 Gambling and Speculation takes the long historic perspective of its controversial subject The book offers not only a better understanding of the recent gambling craze but also a fundamental inquiry into human nature and the structure of societies The Brenners argue that the negative image of gamblers and of speculators stems from prejudice whose roots are in the distant forgotten past Legal scholars have frequently confused gambling with speculation and the anti gambling laws were at times erroneously interpreted as implying the prohibitions of contracts in futures and insurance markets One consequence of all this confusion was that during this century both in the United States and England the legislation and law on betting and gambling became ambiguous The authors touch on this issue and make policy recommendations to abolish restrictions on the industry diminish the states role in selling lotteries and at the same time make legal distinctions capable of helping the tiny percentage of players who might be addicted The Brenners recommendations on gambling are based on their conclusion that gamblers are neither mentally ill

nor criminals and that gambling does not lead its practitioners to poverty Rather it is the other way around some of the poor and the frustrated gamble Looking at gambling in this way leads to questions about the nature of society What do the fortunate do for those who are not What is society's obligation to people who fall behind in the game of life Answers to these questions require a discussion on the principles of equality capitalism the role of religious influence on society topics that the Brennens have discussed in their previous studies and they do so here too putting gambling within its proper historical context *Gambling in America* United States. Commission on the Review of the National Policy Toward Gambling, 1976

Psychology in Legal Contexts Sally M. Lloyd-Bostock, 1981-06-18 **The Biology of Gambling** Mikal J. Aasved, 2003
The Biology of Gambling is the third volume in the Gambling Theory and Research Series Author Mikal Aasved wrote this series to meet the need for a comprehensive review and synthesis of the many published materials pertaining to gambling theory and research The series summarizes and critiques the findings and conclusions of investigators who have attempted to determine the motivations for gambling both normative and excessive Dr Aasved provides a thorough examination of the research efforts and theoretical explanations of leaders in the field of gambling studies This volume focuses on the etiological or causal theories that have been advanced by specialists in the medical sciences an increasing number of whom are adopting the view that biological factors play an important role in the development of many addictive obsessive compulsive and other maladaptive behavior disorders The fifteen chapters are divided into four parts Part I reviews medical or disease models of addiction discussing early and later conceptions The core features of addiction the alcohol dependence syndrome heritability of addiction longitudinal studies and the quest to discover the biological basis of addiction are explored in detail Part II examines the medical models of pathological gambling by exploring early ideas on gambling and human evolution recent definition and diagnosis of pathological gambling criticisms of the medical and addiction models treatment goals and the ongoing quest to discover the biological basis of pathological gambling Part III concerns multicausal models of pathological gambling and focuses on general theories of addiction gambling specific theories and finishes with a critique of multicausal approaches Part IV integrates the contents of the book by highlighting its main points and offering such concluding observations as Where do we now stand and where do we go from here This book as well as the entire

Legalized Gambling Rod L. Evans, Mark Hance, 1998 Forty eight states now permit legalized gambling in some form thirty seven states run lotteries forty seven allow bingo houses and more than a dozen states permit betting on dog races American gamblers wager over 300 billion yearly in legal gambling Although many Americans enjoy gambling and see it as harmless recreation and a fairly painless way to generate revenue without levying direct taxes many social conservatives see gambling as a socially destructive temptation that ought not to be indulged by private citizens much less sponsored by government Recently economic pressures resulting from less federal revenue and Americans growing aversion to tax increases have led many state governments to liberalize gambling laws or sponsor gambling sparking a lively debate

Legalized Gambling contains twenty articles focusing on different aspects of gambling policy by experts in the fields of public policy law psychiatry rhetoric religion economics and politics The contributors address all areas of the debate including the following What moral issues are at the center of the debate What are the true economic costs and benefits of legalized gambling How are they often hidden or misconstrued in order to support either prohibition or legalization How has the history of gambling in America shaped our current policies Is governmental regulation an invasion of personal privacy What are the legitimate uses of laws Is pathological gambling a justifiable medical diagnosis Do gambling establishments run by Native Americans deserve special consideration or regulation In a lottery the tax is laid on the willing only that is to say on those who can risk the price of a ticket without sensible injury for the possibility of a higher prize Thomas Jefferson

Gambling Mike Atherton, 2007-09-06 Gambling is a fascinating account of gambling through history from Greek mythology and the ancient role of lots dice and cards to the high profile cricket and football match throwing and super casinos of today Mike Atherton explores this controversial and captivating phenomenon and the way that many present day sports provide the most popular focus for gambling why so many of today's sportsmen become fervent gamblers and how in some cases this has led to corruption addiction and ruined reputations With recent high profile incidents involving the likes of Mohammad Amir and Joey Barton gambling in sport is a topic that remains at the top of the sporting agenda Scandalous cases such as the Cronje and Grobbelaar incidents are analysed in detail as well as an investigation into why such a high proportion of the world's population have always sought out risk and how this trend has encompassed all social classes and cultures *Gambling, Work and Leisure (Routledge Revivals)* David Downes, D. M. Davies, M. E. David, P.

Stone, 2014-06-17 Since the legalisation of off course cash betting in 1960 and the rise of varying forms of gambling the British have come to be known as a nation of gamblers Until this study was published in 1976 barely any evidence existed against which to assess the claim that gambling had become a major social problem The authors present data drawn from area surveys carried out in Swansea Sheffield Wanstead and Woodford and explore how well previous sociological theories of gambling agree with their findings particular in connection with certain aspects of work and leisure Examining different forms of gambling including betting bingo and gaming machines the chapters consider how gambling choices vary between different social groups and how much time and money is spent on them With the internet making it easier than ever before to place bets this title is especially relevant and provides a systematic basis for an explanation of gambling in relation to social structure *Gambling: Hazard and Reward* Otto Newman, 1972

The Hubris Hazard, and How to Avoid It Eugene Sadler-Smith, 2024-03-15 Hubris is something we've all seen in action and experienced all too often It's a significant occupational hazard and a serious potential derailment factor for leaders organisations and civil society Hubristic leaders intoxicated as they are with power praise and success behave in ways that if left unchecked invite unintended and unforeseen negative consequences which impact destructively on individuals industries economies and nations Despite numerous

examples throughout history of hubris destructive consequences it nonetheless appears to be an ever present and growing danger Many leaders seem to be blind to the hazards of hubris and oblivious to the lessons of history Prevention is better than cure and understanding the nature of the hubris hazard and the associated risk factors will help leaders and managers improve their personal performance and avoid derailment and even more importantly protect the well being of employees and the resilience of their organisations over the long term This book explains the characteristics causes and consequences of hubris and shows how to combat the significant hazard it poses to managers leaders organisations and society With contemporary examples each chapter explores a particular hubris risk factor and shows how the risk can be managed and mitigated and exposure to the hubris hazard minimised The Hubris Hazard and How to Avoid It offers practical guidance and action points for managers and leaders on how to recognise hubris in themselves and others and what to do to combat it when it arises It will also be useful for business and executive coaches and leadership trainers and developers

Taking Risks Kenneth R. MacCrimmon, Donald Wehrung, W. T. Stanbury, 1988-09-19 Offers tests designed to measure one's willingness to take risks describes characteristics associated with this quality and discusses the importance of risk taking in management and investment situations

An Integral Approach to Development Economics Basheer A. Oshodi, 2016-04-15 Developing economies such as those in sub Saharan Africa are searching for realistic economic policy prescriptions Despite economic growth in countries like Nigeria poverty and unemployment blight the lives of many in the midst of plenty Simultaneously much neo classical economic thought is being questioned against the backdrop of global economic meltdown giving rise to inquiry about more integral approaches to sustainable development In *An Integral Approach to Development Economics* Basheer Oshodi examines modernization theories dependency theories world system theories and emerging 21st century economic theories and links a neo modern mix of economic thought with the practicalities of finance in parts of the World where poverty is rife In a specifically African setting over half of the population are Muslims Oshodi considers Islamic finance in the context of the triple heritage of indigenous culture Westernized Christianity and Islam He argues that the principles of Islamic banking and finance can be integrated with other elements of that heritage focusing on meeting the challenges of poverty and unemployment Islamic finance is not just a religiously oriented Sharia compliant alternative financial model It can contribute to overall socio economic transformation and a wider people centred approach to economic development International organizations financial institutions reserve banks policy makers donor agencies and students will find resonance in this valuable addition to Gower's Transformation and Innovation Series

Gambling, Space, and Time Pauliina Raento, David G. Schwartz, 2016-02-28 The eight essays in *Gambling Space and Time* use a global and interdisciplinary approach to examine two significant areas of gambling studies that have not been widely explored the ever changing boundaries that divide and organize gambling spaces and the cultures perceptions and emotions related to gambling The contributors represent a variety of disciplines history geography sociology anthropology political science and

law The essays consider such topics as the impact of technological advances on gambling activities the role of the nation state in the gambling industry and the ways that cultural and moral values influence the availability of gambling and the behavior of gamblers The case studies offer rich new insights into a gambling industry that is both a global phenomenon and a powerful engine of local change

Simulation-Gaming: On the Improvement of Competence in Dealing with Complexity, Uncertainty and Value Conflicts J.H.G. Klabbers,W.J. Scheper,C.A.Th. Takkenberg,D. Crookall,2016-01-26
