Inside The Foreign Office:

The Foreign Office and British Diplomacy in the Twentieth Century Gaynor Johnson, 2013-09-13 This book examines the evolution of the Foreign Office in the 20th century and the way in which it has responded to Britain's changing role in international affairs. The last century was one of unprecedented change in the way foreign policy and diplomacy were conducted. The work of The Office expanded enormously in the 20th century and oversaw the transition from Empire to Commonwealth with the merger of the Foreign and Colonial Offices taking place in the 1960s. The book focuses on the challenges posed by waging world war and the process of peacemaking as well as the diplomatic gridlock of the Cold War. Contributions also discuss ways in which the Foreign and Commonwealth Office continues to modernise to meet the challenges of diplomacy in the 21st century. This book was previously published as a special issue of the journal *Contemporary British History*.

The Foreign Office, Commerce and British Foreign Policy in the Twentieth Century John Fisher, Effie G. H. Pedaliu, Richard Smith, 2017-02-16 This book addresses the interface of the British Foreign Office foreign policy and commerce in the twentieth century. Two related questions are considered: what did the Foreign Office do to support British commerce and how did commerce influence British foreign policy. The editors of this work collect a range of case studies that explore the attitude of the Foreign Office towards commerce and trade promotion against the backdrop of a century of relative economic decline while also considering the role of British diplomats in creating markets and supporting UK firms. This highly researched and detailed examination is designed for readers aiming to comprehend the role that commerce played in Britain's foreign relations in a century when trade and commerce have become an inseparable element in foreign and security policies.

Spending reduction in the Foreign and Commonwealth Office Great Britain: Parliament: House of Commons: Committee of Public Accounts, 2011-09-30 Around half of the Foreign and Commonwealth Office's budget is spent in foreign currencies. In 2008 the Treasury removed the protection it had previously provided to the Department against exchange rate fluctuations. The FCO did not have the expertise or experience to effectively manage the risk of a fall in exchange rates and that the Treasury imposed poor value for money conditions on forward purchasing foreign currency. As a result of a decline in the value of sterling in September 2009 the FCO faced an overspend of 91 million on its 2009-10 budget: 72 million centrally and 18.8 million overseas out of its total budget of 1.6 billion. It made drastic cuts to reduce this overspend. The FCO did well to reduce spending so quickly which enabled it to live within its budget. However many of the spending cuts made were short term in nature and involved simply delaying or stopping some activities rather than making lasting efficiency improvements. Not enough was done to monitor and measure the impact of the cuts and there is a risk that such short term cuts can lead to increased spending in the future. The FCO needs to achieve sustainable reductions in running costs of 100 million over the next four years and sees the overseas estate as a potential source of these efficiencies and income. But in the past high charges have had the unintended consequence of discouraging other

government departments from sharing premises **Financial Management in the Foreign and Commonwealth Office** Great Britain. Parliament. House of Commons. Committee of Public Accounts, 2009 Against a backdrop of historically weak financial management and significant under spending the Foreign and Commonwealth Office has made considerable progress over the past three years to improve the accuracy reliability and timeliness of financial information Having recognised the need to take action the Department set up its Five Star Finance project which is due to be completed in the summer of 2010 Of particular benefit has been the recruitment of a professionally qualified finance director and increasing the number of professionally qualified accountants within the finance function An important factor has been the need for better information on the costs of individual embassies and this has been strengthened Further action though is still required to implement a workable and effective system of costing activity in all locations to enable it to make informed decisions about its operational priorities Given that over half of the Department's expenditure of some 2 billion is paid out in foreign currency the Department has suffered a significant reduction in purchasing power as a result of the weakening of the Sterling The Department now forwards purchases in US dollars euros and yen but with input from the Treasury it also needs to work with other Departments to identify the most effective way to manage exchange rate risk for the government as a whole The Department confirmed that its aim is to maximise the benefits from each of its embassies in pursuit of British trade and foreign policy interests and that it has no plans to sell off any of its prestigious buildings around the world **Inside the Foreign Office** John Dickie, 1992 **The Foreign Office and Foreign Policy, 1898-1914** Zara S.
