Inside Wall Street Robert Sobel, 2000-02-01 **Inside Wall Street** Robert Sobel, 2000 **From J.P. Morgan to the Institutional Investor** Jerry W. Markham, 2022-06-06 Originally published in 2002 this is the second of three volumes in a history of finance in America This volume starts with the investment bankers who dominated finance at the beginning of the twentieth century It then describes the Panic of 1907 and the resulting creation of the Federal Reserve Board the Fed The volume then traces finance through World War I and it examines the events that led to the stock market crash of 1929 and the Great Depression From there it reviews the rebirth of finance after World War II and the growth of the institutional investor Constructing Corporate America Kenneth Lipartito, David B. Sicilia, 2004 This collection of cutting edge research reviews the evolution of the American corporation the dominant trends in the way it has been studied and at the same time introduces some new perspectives on the historical trajectory of the business organization as a social institution The authors draw on cultural theory anthropology political theory and legal history to consider the place of the firm in nineteenth and twentieth century American Society *The Depression Dilemmas of Rural Iowa, 1929-1933* Lisa L. Ossian, 2012-01-01 To many rural Iowans the stock market crash on New York's Wall Street in October 1929 seemed an event far removed from their lives even though the effects of the crash became all too real throughout the state From 1929 to 1933 the enthusiastic faith that most Iowans had in Iowan President Herbert Hoover was transformed into bitter disappointment with the federal government As a result Iowans directly questioned their leadership at the state county and community levels with a renewed spirit to salvage family farms demonstrating the uniqueness of Iowa's rural life Beginning with an overview of the state during 1929 Lisa L. Ossian describes Iowa's particular rural dilemmas evoking through anecdotes and examples the economic nutritional familial cultural industrial criminal legal and political challenges that engaged the people of the state The following chapters analyze life during the early Depression new prescriptions for children's health creative housekeeping to stretch resources the use of farm playlets to communicate new information creatively and memorably the demise of the soft coal mining industry increased violence within the landscape and the movement to end Prohibition The challenges faced in the early Great Depression years between 1929 and 1933 encouraged resourcefulness rather than passivity creativity rather than resignation and community rather than hopelessness Of particular interest is the role of women within the rural landscape as much of the increased daily work fell to farm women during this time While the women addressed this work simply as making do Ossian shows that their resourcefulness entailed complex planning essential for families emotional and physical health Ossian's epilogue takes readers into the Iowa of today dominated by industrial agriculture and asks the reader to consider if this model that stemmed from Depression era innovation is sustainable Her rich rural history not only helps readers understand the particular forces at work that shaped the social and physical landscape of the past but also traces how these landscapes have continued in various forms for almost eighty years into this century **A Financial**

A Nation of Small Shareholders Janice M. Traflet, 2013-03-12 The little known story of Wall Street's effort to court individual investors during the Cold War in order to build a bulwark against communism Immediately after the frightening Great Crash of 1929 many Americans swore they would never or never again become involved in the stock market Yet hordes of Americans eventually did come to embrace equity investing to an extent actually far greater than the level of popular involvement in the market during the Roaring Twenties *A Nation of Small Shareholders* explores how marketers at the New York Stock Exchange during the mid twentieth century deliberately cultivated new individual shareholders Janice M Traflet examines the energy with which NYSE leaders tried to expand the country's retail investor base particularly as the Cold War emerged and then intensified From the early 1950s until the 1970s Exchange executives engaged in an ambitious and sometimes controversial marketing program known as Own Your Share of America which aimed to broaden the country's shareholder base The architects of the marketing program ardently believed that widespread share ownership would strengthen democratic capitalism which in turn would serve as an effective barrier to the potential allure of communism here in the United States Based on extensive primary source research *A Nation of Small Shareholders* illustrates the missionary zeal with which Big Board leaders during the Cold War endeavored to convince factions within the Exchange as well as the public of the practical and ideological importance of building a true shareholder nation

Anglo-American Corporate Taxation Steven A. Bank, 2011-09-22 The UK and the USA have historically represented opposite ends of the spectrum in their approaches to taxing corporate income Under the British approach corporate and shareholder income taxes have been integrated under an imputation system with tax paid at the corporate level imputed to shareholders through a full or partial credit against dividends received Under the American approach by contrast corporate and shareholder income taxes have remained separate under what is called a classical system in which shareholders receive little or no relief from a second layer of taxes on dividends Steven A Bank explores the evolution of the corporate income tax systems in each country during the nineteenth and twentieth centuries to understand the common legal economic political and cultural forces that produced such divergent approaches and explains why convergence may be likely in the future as each country grapples with corporate taxation in an era of globalization
