Instead Of Prison:

Prisons in Wartime United States. War Production Board,1944 **The Puzzle of Prison Order** David Skarbek,2020-07-01 Many people think prisons are all the same rows of cells filled with violent men who officials rule with an iron fist Yet life behind bars varies in incredible ways In some facilities prison officials govern with care and attention to prisoners needs In others officials have remarkably little influence on the everyday life of prisoners sometimes not even providing necessities like food and clean water Why does prison social order around the world look so remarkably different In **The Puzzle of Prison Order** David Skarbek develops a theory of why prisons and prison life vary so much He finds that how they re governed sometimes by the state and sometimes by the prisoners matters the most He investigates life in a wide array of prisons in Brazil Bolivia Norway a prisoner of war camp England and Wales women s prisons in California and a gay and transgender housing unit in the Los Angeles County Jail to understand the hierarchy of life on the inside Drawing on economics and a vast empirical literature on legal systems Skarbek offers a framework to not only understand why life on the inside varies in such fascinating and novel ways but also how social order evolves and takes root behind bars **Report on the Progress of the State Prison War Program Under the Government Division of the War Production Board** United States. War Production Board. Government Division,1944 **Prison Capital** Lydia Pelot-Hobbs,2023-11-28 Every year between 1998 to 2020 except one Louisiana had the highest per capita rate of incarceration in the nation and thus the world This is the first detailed account of Louisiana s unprecedented turn to mass incarceration from 1970 to 2020 Through extensive research Lydia Pelot Hobbs illuminates how policy makers enlarged Louisiana s carceral infrastructures with new prisons and jail expansions alongside the bulking up of police and prosecutorial power At the same time these infrastructures were the products of multiscalar crises the swings of global oil capitalism liberal federal court and policy interventions the rise of neoliberal governance and law and order austerity and racist and patriarchal moral panics surrounding crime However these crises have also created fertile space for anticarceral social movements From incarcerated people filing conditions of confinement lawsuits and Angola activists challenging life without parole to grassroots organizers struggling to shrink the New Orleans jail following Hurricane Katrina and LGBTQ youth of color organizing against police sexual violence grassroots movements stretch us toward new geographies of freedom in the lineage of abolition democracy Understanding Louisiana s carceral crisis extends our understanding of the interplay between the crises of mass criminalization and racial capitalism while highlighting the conditions of possibility for dismantling carceral power in all its forms The Letter from Prison W. Clark Gilpin,2024-06-24 Letters from prison testifying to deeply felt ethical principles have a long history extending from antiquity to the present day In the early modern era the rise of printing houses helped turn these letters into a powerful form of political and religious resistance W Clark Gilpin s fascinating book examines how letter writers in England ranging from archbishops to Quaker women consolidated the prison letter as a literary form Drawing from a large collection of

printed prison letters written from the reign of Henry VIII to the closing decades of the seventeenth century Gilpin explores the genre's many facets within evolving contexts of reformation and revolution The writers of these letters portrayed the prisoner of conscience as a distinct persona and the prison as a place of redemptive suffering where bearing witness had the power to change society The Letter from Prison features a diverse cast of characters and a literary genre that combines drama and inspiration It is sure to appeal to those interested in early modern England prison literature and cultural forms of resistance

Italian Prisons in the Age of Positivism, 1861-1914 Mary Gibson, 2019-07-11 During a period dominated by the biological determinism of Cesare Lombroso Italy constructed a new prison system that sought to reconcile criminology with nation building and new definitions of citizenship Italian Prisons in the Age of Positivism 1861-1914 examines this second wave of global prison reform between Italian Unification and World War I providing fascinating insights into the relationship between changing modes of punishment and the development of the modern Italian state Mary Gibson focuses on the correlation between the birth of the prison and the establishment of a liberal government showing how rehabilitation through work in humanitarian conditions played a key role in the development of a new secular national identity She also highlights the importance of age and gender for constructing a nuanced chronology of the birth of the prison demonstrating that whilst imprisonment emerged first as a punishment for women and children they were often denied negative rights such as equality in penal law and the right to a secular form of punishment Employing a wealth of hitherto neglected primary sources such as

yearly prison statistics this cutting edge study also provides glimpses into the everyday life of inmates in both the new capital of Rome and the nation as a whole Italian Prisons in the Age of Positivism 1861 1914 is a vital study for understanding the birth of the prison in modern Italy and beyond
