**Peculiar Dynamics Of Corruption: Religion, Gender, Eu Membership, And Others** Omer Gokcekus,Kevin Bengyak,2014-10-17 Drawing from theories in economics sociology and psychology Peculiar Dynamics of Corruption examines how gender religion culture and history affect corruption It asks and answers many questions such as does employing more women than men reduce corruption in public sector organizations How does a country's religious landscape a hundred years ago affect corruption today Is corruption higher in recessions or times of economic growth The answers to these questions are surprising group dynamics may matter more than gender a history of Protestantism has lasting effects on a country and corruption is cyclical but not in a way most would assume Corruption is not motivated purely by financial gain and by offering simple explanations of these unexpected causes This book broadens our understanding of this global issue

Whether or not labor market rigidities are an important contributor to persistently high levels of unemployment remains at the center of an important debate in Europe European labor markets are often viewed as rigid and inflexible in opposition to those in North America where legislation is less protective and fosters more mobility This paper shows that the labor market policies adopted by Central and Eastern European countries aspiring to join the European Union do not appear excessively rigid However significant and wide ranging economic reform programs make it difficult to assess the impact of labor market institutions      *Czech Republic* João do Carmo Oliveira,Jorge Martinez-Vazquez,2001-01-01 This report contains the most
