Levy,Nicolas A. Valcik,2012-12-21 While the term benchmarking is commonplace nowadays in institutional research and higher education less common is a solid understanding of what it really means and how it has been and can be used effectively This volume begins by defining benchmarking as a strategic and structured approach whereby an organization compares aspects of its processes and or outcomes to those of another organization or set of organizations to identify opportunities for improvement Building on this definition the chapters provide a brief history of the evolution and emergence of benchmarking in general and in higher education in particular The authors apply benchmarking to Enrollment management and student success Institutional effectiveness The potential economic impact of higher education institutions on their host communities They look at the use of national external survey data in institutional benchmarking and selection of peer institutions introduce multivariate statistical methodologies for guiding that selection and consider a novel application of baseball sabermetric methods The volume offers a solid starting point for those new to benchmarking in higher education and provides examples of current best practices and prospective new directions This is the 156th volume of this Jossey Bass series Always timely and comprehensive New Directions for Institutional Research provides planners and administrators in all types of academic institutions with guidelines in such areas as resource coordination information analysis program

evaluation and institutional management **Transitions 2023-2024** Daniel B. Friedman,Katie Hopkins,Kristy Sokol,2024-03-27 A publication of University 101 Programs University of South Carolina Transitions is the customized textbook for students in the University of South Carolina s University 101 first year seminar It includes both general and institution specific information for first year students Topics include time management academic success strategies career development information literacy health and wellness and values and identity An ideal model for institutions working to design a custom published first year seminar text **Proceedings of The Focus Conference (TFC 2022)** Manyane Makua,Mariam Akinlolu,Mashango Sithole,Phiwayinkosi Gumede,Cebo Nyondo,2023-02-08 This is an open access book It is a common cause globally that the abrupt emergence of Covid 19 wreaked havoc in all sectors including the higher education system The sudden closure of campuses as a social distancing measure to prevent community transmission has shifted face to face classes to online teaching and learning a transformative experiment for academics and students in most institutions This has thrown the focus on utilising Learning Management Systems LMS eLearning tools and platforms for effective student engagement which may have limitations of accessibility and affordability for many students The pandemic has exposed the shortcomings of the current higher education system and the need for more training of academics and practitioners in digital technology to adapt to the rapidly changing educational climate In the post pandemic situation eLearning and virtual education may become an integral part of the higher education system hence the question of re inventing higher education The higher education institutions and universities need to plan the post pandemic education and research strategies to ensure student learning outcomes and standards of educational quality With the move to online teaching and learning subsequently traditional assessments followed and were adapted and adopted for online assessment Assessments lie at the heart of the teaching process It shapes students understanding of the curriculum and determines their ability to progress Reflections on assessments during Covid 19 abounded with the challenges that both academics and students faced regarding online assessments including cheating and quality assurance issues The focus on quality extended to the quality of teaching and learning in general Moreover the pandemic brought about the question of staff and student health and psychosocial support also became important For academics the abrupt shift to adapt to working from home and implementing online learning has led to over work low work life balance and compromised mental health With a view on constructive and futuristic discourse the sub themes of the 2022 Focus conference encapsulate the current realities in the higher education sector and beyond It further provides opportunities for an in depth analysis based on the benefit of hindsight and foresight The Organising Committee specifically coined the theme Re inventing higher education Insights trends and lessons learnt from specifically for the conference to reflect on and address the matters mentioned earlier Academics scholars and practitioners in the higher education sector are called upon to share their research and express their perspectives on the reinvention of higher education **Conducting Interinstitutional Comparisons** ,1987 **Resources**

in Education ,2001 **Leadership Transitions in Universities** Tom Kennie,Robin Middlehurst,2021-05-19 Combining expert knowledge experience and reflections from senior leaders to distil collective leadership experiences this book explores the realities of leadership at universities rather than the imagined and often unrealistic expectations and perceptions of how leaders should act This key text is an informed insider s guide to leadership transitions that will assist talented individuals in considering whether to apply for how to prepare for and how to take on the task of leading a university The collection of leadership experiences provided will help universities to be more successful students to have great educational experiences and staff at all levels to have more fulfilling working environments It will also consider how to avoid the emotional pain and suffering that can arise when leaders find themselves poorly equipped unprepared unable or unwilling to provide the sound and competent leadership that universities deserve Centred on the practice and experience of leadership this book will be a must read for all new and existing heads of universities It will also provide useful insights to those actively involved in the recruitment and development of senior leaders members of senior leadership teams and those who hold governance roles in universities Further updates and details about the application of the ideas in the book in practice can be found at www.leadershiptransitionsatthetop.com *Diversity and Inclusion on Campus* Rachelle Winkle-Wagner,Angela M. Locks,2013-09-05 As scholars and practitioners in higher education attempt to embrace and lead diversity efforts it is imperative that they have an understanding of the issues that affect historically underrepresented students Using an intersectional approach that connects the categories of race class and gender *Diversity and Inclusion on Campus* comprehensively covers the range of college experiences from gaining access to higher education to successfully persisting through degree programs Authors Winkle Wagner and Locks bridge research theory and practice related to the ways that peers faculty administrators and institutions can and do influence racially and ethnically underrepresented students experiences This book is an invaluable resource for future and current higher education and student affairs practitioners working toward full inclusion and participation for all students in higher education Special features Chapter Case Studies cases written by on the ground practitioners help readers make meaningful connections between theory research and practice Coverage of Theory and Research each chapter provides a systematic treatment of the literature and research related to underrepresented students experiences of getting into college getting through college and getting out of college Discussion Questions questions encourage practitioners and researchers to explore concepts in more depth consider best practices and make connections to their own contexts Stepping up to the Second Year at University Clare Milsom,Martyn Stewart,Mantz Yorke,Elena Zaitseva,2014-11-20 Programmes in higher education tend to focus attention on the student s first year because of concerns about student transition and retention and on their final year because of student exiting for their future careers The middle year s of programmes receive relatively little attention which can often lead to a slump in student development at a crucial point in their studies *Stepping up to the Second Year at University* provides practical advice

that can be implemented by staff throughout higher education institutions Rather than providing a set of prescriptions to be slavishly implemented it prompts practitioners to think constructively about curriculum design and delivery and about maximising student potential within the context of their particular institution Amongst the questions asked in this book are In what way do students perceptions of their experience shift as they progress through the first two years of study How do psychological factors bear on student engagement and performance in the second year What in the second year curriculum might need greater attention How can the analysis of institutional data help This book builds on critiques existing international research on the mid years experience and also features evidence from a significant new research project from Liverpool John Moores University provides a number of starting points for institutions enhancement activities as they seek to make the experience of their students as rewarding as possible It is a must read for institutional managers of higher academic programmes higher education practitioners and anyone interested in the development of teaching at higher education level

Developing and Sustaining Successful First-Year Programs Gerald M. Greenfield, Jennifer R. Keup, John N. Gardner, 2013-07-29 Developing and Sustaining Successful First Year Programs First year programs and interventions have become critical launching pads for student success and retention in higher education However these programs often flounder not because of what they are trying to do but because of the ways in which they are implemented Developing and Sustaining Successful First Year Programs offers faculty academic administrators and student affairs professionals a comprehensive and practical resource that includes step by step guidance for developing new first year programs and enhancing existing programs The book explores the key elements that contribute to sustained student success and the programs that have the capacity to continue to meet student needs while making the most of scarce resources The authors show how to create and sustain critical partnerships put in place the needed organizational structures and include strategies for developing effective

assessments and evaluations Developing and Sustaining Successful First Year Programs is filled with illustrative examples and profiles of successful programs from a range of institutions that vary in size type selectivity and culture Examples of common programs and interventions include summer bridge programs student orientation first year seminars learning communities residential programs developmental education and many more Based in scholarly literature theory and practice the book highlights the initiatives that facilitate the transition learning development and success of new college students

Enhancing Quality in Higher Education Ray Land, George Gordon, 2013-06-19 Interest in the quality of higher education provision has been steadily increasing over the last twenty years This has been driven largely by the international creation of explicit policies and reporting requirements to review audit and evaluate provision The interest is associated in many countries with the granting by governments of greater autonomy to higher education institutions This crucially comes bound with increased requirements for accountability in the exercise of such power Enhancing provision promoting innovation cultivating exploration and adopting information led approaches to practice are at the very heart of higher education As such quality enhancement comes in many guises and is under constant scrutiny *Enhancing Quality in Higher Education* looks critically at recent developments in higher education taking snapshots of changing practices around the world and analysing the varied theoretical perspectives of quality enhancement that are emerging The opening section draws upon this theoretical base whilst the second section contextualises it through the analysis of a diverse range of international case studies The concluding section considers future prospects for the enhancement agenda in the light of the international pressures facing all systems of higher education in the future Policy will inevitably be shaped by the historical contexts within which national systems are located The book draws on a wide range of international case studies examined by a host of contributing experts The movement towards quality enhancement can be seen as stimulating action at the grassroots of the academy to self generate improvement It is a counter to the prevalent view that change in higher education is essentially about the institutional response to increasing societal pressure and state control and as such is a welcome contribution to the literature This comprehensive volume is essential reading for anyone involved in higher education and educational policy

Transition into Higher Education Harriet Jones, Hilary Orpin, Gemma Mansi, Catherine Molesworth, Heather Monsey, 2025-02-28 This book will help all academic staff in higher education HE develop more informed teaching and better support students as they transition to university It explores the organisations who advise students pre university and uncovers the myths and misconceptions held by HE stakeholders Induction and welcome activities are examined in order to identify best practice transition problems such as study skills employment mental health and identity are covered and a final chapter focuses on the effects of Covid 19 on transition issues The Critical Practice in Higher Education series provides a scholarly and practical entry point for academics into key areas of higher education practice Each book in the series explores an individual topic in depth providing an overview in relation to current thinking and practice informed by recent research
