Afterlives of Augustus, AD 14–2014 Penelope J. Goodman, 2018-04-26

The bimillennium of Augustus' death on 19 August 2014 commemorated not only the end of his life but also the beginning of a two thousand year reception history. This volume addresses the range and breadth of that history. Beginning with the Emperor's death and continuing through Late Antiquity, Early Christianity, the Middle Ages, the Renaissance and early modernity to the present day, chapters address political positioning, religious mythologisation, philosophy, rhetoric, narratives, memory and material embodiment. As they collectively reveal, Augustus has meant radically different things from one time and place to another and even to some individual commentators, as the circumstances around them changed. The weight of established narratives has often also shaped those of subsequent generations, with or without their conscious awareness. The book outlines and analyses the major themes in Augustus' reception history, clarifying the cultural and historiographical issues at stake and providing a platform for further scholarship.

The Cambridge Companion to the Age of Augustus Karl Galinsky, 2005-10-10

The age of Augustus, commonly dated to 30 BC–AD 14, was a pivotal period in world history. A time of tremendous change in Rome, Italy and throughout the Mediterranean world, many developments were underway when Augustus took charge, and a recurring theme is the role that he played in shaping their direction. The Cambridge Companion to the Age of Augustus captures the dynamics and richness of this era by examining important aspects of political and social history, religion, literature and art, and

architecture **Imperium and Cosmos** Paul Rehak, 2009-05-20 Caesar Augustus promoted a modest image of himself as the first among equals princeps a characterization that was as popular with the ancient Romans as it is with many scholars today Paul Rehak argues against this impression of humility and suggests that like the monarchs of the Hellenistic age Augustus sought immortality an eternal glory gained through deliberate planning for his niche in history while flexing his existing power Imperium and Cosmos focuses on Augustus's Mausoleum and Ustrinum site of his cremation the Horologium Solarium a colossal sundial and the Ara Pacis Altar to Augustan Peace all of which transformed the northern Campus Martius into a tribute to his major achievements in life and a vast memorial for his deification after death Rehak closely examines the artistic imagery on these monuments providing numerous illustrations tables and charts In an analysis firmly contextualized by a thorough discussion of the earlier models and motifs that inspired these Augustan monuments Rehak shows how the princeps used these on such an unprecedented scale as to truly elevate himself above the common citizen New Perspectives on the Roman Civil Wars of 49-30 BCE Richard Westall, Hannah Cornwell, 2024-01-25 Offering new and original approaches to the Roman civil wars of 49-30 BCE the eleven papers presented here for the first time shed light on this crucial moment in the forging of Roman identity They engage with a variety of problems and topics in political discourse diplomacy the concept of libertas divine paternity socio economic structures allied rulers military officials civil war finances Agrippa's family material culture the coinage of Julius Caesar the physical remains of Corfinium and literary commemoration Sallust on trauma the lost Histories of Asinius Pollio The case studies presented here contribute to our understanding of a period that is just as fundamental for our view of the Romans as it was to the Romans themselves Arguing for the unity of the period in question the volume deploys a multiplicity of methodologies to analyse how the trauma of armed conflict and the breakdown of accepted socio cultural models not only mediated the contemporary experience of Roman civil war but also left a lasting impression upon how Romans viewed the world Incisive and critical these contributions by a diverse team of international researchers both emerging scholars and leaders in their fields offer a new window into the world of the late Republic and early Principate God, Space, and City in the Roman Imagination Richard Jenkyns, 2013-11-28 God Space and City in the Roman Imagination is a unique exploration of the relationship between the ancient Romans visual and literary cultures and their imagination Drawing on a vast range of ancient sources poetry and prose texts and material culture from all levels of Roman society it analyses how the Romans used conceptualized viewed and moved around their city Jenkyns pays particular attention to the other inhabitants of Rome the gods and investigates how the Romans experienced and encountered them with a particular emphasis on the personal and subjective aspects of religious life Through studying interior spaces both secular basilicas colonnades and forums and sacred spaces the temples where the Romans looked upon their gods and their representation in poetry the volume also follows the development of an architecture of the interior in the great Roman public works of the first and second centuries AD While providing new insights into the working of the Romans

Divine Interiors Eric M. Moormann, 2011 Divine interiors is een onderzoek naar de aankleding van Griekse en Romeinse heiligdommen met wand schilderijen Machtige marmeren figuren beeldhouwwerken en schilderijen speelden een belangrijke rol in het aanzien van deze monumenten Terwijl de officiële tempels die met de steden of de staat waren verbonden meestal een plechtige maar sobere uitstraling hadden waren de gebouwen die gericht waren op meer volkse uitingen van religiositeit juist bont beschilderd Scènes uit het leven van de vereerde godheid aanhangers en beoefenaren van de cultus planten en

dieren konden de bezoekers van deze heiligdommen in hogere sferen brengen Het valt op dat er in de uitgestrekte Grieks Romeinse wereld veel overeenkomsten te vinden zijn tussen vaak ver van elkaar gelegen tempels De muurschilderkunst kende net als andere kunstvormen stijl en smaakveranderingen maar die hadden wel overal dezelfde uitstraling

Recycling and Reuse in the Roman Economy Chloë N. Duckworth, Andrew Wilson, 2020-09-10 The recycling and reuse of materials and objects were extensive in the past but have rarely been embedded into models of the economy even more rarely has any attempt been made to address the scale of these practices Recent developments including the use of large datasets computational modelling and high resolution analytical chemistry are increasingly offering the means to reconstruct recycling and reuse and even to approach the thorny issue of quantification This volume is the first to bring together these new approaches and the first to present a consideration of recycling and reuse in the Roman economy taking into account a range of materials and using a variety of methodological approaches It presents integrated cross referential evidence for the recycling and reuse of textiles papyrus statuary and building materials amphorae metals and glass and examines significant questions about organization value and the social meaning of recycling

Poetry Underpinning Power Hans-Peter Stahl, 2016-03-31 In recent decades international research on Virgil has been marked if not dominated by the ideas of the Harvard School and similar trends according to which the poet was engaged in an elaborate work of subtle subversion directed against the new ruler of the Roman world Octavian Augustus Much of Virgil's oeuvre consists prima facie of eulogy of the ruler and of emphatic prediction of his enduring success this is explained by numerous modern critics as generic convention or as studied ambiguity or as irony This paradoxical position which runs against ancient as well as much modern interpretation of the poet continues to create widespread unease Stahl's new monograph is the most thorough study so far to question modern Virgilian criticism on philological grounds He based himself on the internal logic and rhetoric of the Aeneid and considers also political historical archaeological and philosophical subjects addressed by the poem He finds that the poet has so presented the morality of his central figure Augustus supposed ancestor Aeneas and of those who eventually clash with him Turnus and Dido as to make it certain that Roman readers and hearers of the poem were meant to conclude in Aeneas' favour Virgil's intention emerges from Stahl's thorough ingenious and original argumentation as decisively pro Augustan Stahl's work in short will not only enliven debate on current critical hypotheses but for many will enduringly affect their credibility

Building the Classical World Dorian Borbonus, Elisha Ann Dumser, 2022 This volume presents 13 case studies that examine structures from the ancient Greek and Roman world using the methodology known as *Bauforschung* This inductive method uses closely documented structural aspects to answer questions related to construction processes design theory building traditions and historical contexts

A Companion to Roman Religion Jörg Rüpke, 2011-03-25 A comprehensive treatment of the significant symbols and institutions of Roman religion this companion places the various religious symbols discourses and practices including Judaism and Christianity into a larger framework to

Pax and the Politics of Peace Hannah Cornwell, 2017-07-04 Perhaps in defiance of expectations Roman peace pax was a difficult concept that resisted any straightforward definition not merely denoting the absence or aftermath of war it consisted of many layers and associations and formed part of a much greater discourse on the nature of power and how Rome saw her place in the world During the period from 50 BC to AD 75 covering the collapse of the Republic the subsequent civil wars and the dawn of the Principate the traditional meaning and language of peace came under extreme pressure as pax was co opted to serve different strands of political discourse This volume argues for its fundamental centrality in understanding the changing dynamics of the state and the creation of a new political system in the Roman Empire moving from the debates over the content of the concept in the dying Republic to discussion of its deployment in the legitimization of the Augustan regime first through the creation of an authorized version controlled by the princeps and then the ultimate crystallization of the pax augusta as the first wholly imperial concept of peace Examining the nuances in the various meanings applications and contexts of Roman discourse on peace allows us valuable insight into the ways in which the dynamics of power were understood and how these were contingent on the political structures of the day However it also demonstrates that although the idea of peace came to dominate imperial Rome s self representation such discourse was nevertheless only part of a wider discussion on the way in which the Empire conceptualized itself
