Imagination At War:

Imagination at War Adam Piette, 1995 Analyses the fiction and poetry produced between 1939 and 1945 that has shaped postwar thinking *Next War* John F. Antal, 2023-09-28 a useful addition to the literature of the changing character of war Its scoping and focus and its application of the identified disruptors to current challenges offer immediate insights for today s commanders and defence policymakers *The Wavell Room* The nature of war is constant change We live in an era of exponential technological acceleration which is transforming how wars are waged Today the battlespace is transparent multi domain sensors can see anything and long range precision fire can target everything that is observed Autonomous weapons can be unleashed into the battlespace and attack any target from above hitting the weakest point of tanks and armored vehicles The velocity of war is hyper fast Battle shock is the operational informational and organizational paralysis induced by the rapid convergence of key disrupters in the battlespace It occurs when the tempo of operations is so fast and the means so overwhelming that the enemy cannot think decide or act in time Hit with too many attacks in multiple domains all occurring simultaneously the enemy is paralyzed In short the keys to decisive victory in war is to generate battle shock Imagine a peer fight against Communist China a new war in Europe against a resurgent Russia or a conflict against Iran in the Middle East How can our forces survive an enemy first strike in these circumstances Can we adapt to the ever accelerating tempo of war Will our forces be able to mask from enemy sensors How will leaders execute command and control in a degraded communications environment Will our command posts survive Will our commanders see and understand what is happening in order to plan decide and act in real time This book addresses these tough questions and more *War of the Ancient Dragon* Laurel A. Howe, 2016-04-24 Valuable above and beyond a case study because it remarkably grounds what can be very illusive alchemical imagery into psychological experience Margaret Johnson editor *Psychological Perspectives* A testament to the healing capacities of the imagination the humble star in man that connects us to the unconscious to unknown and unexpected developments in ourselves Literary Aficionado I suspect that far more would be resolved and much of the world s suffering wouldn t be in vain if only we could transform the wars in the Middle East and elsewhere in this world into the likes of Randy s sand trays *War of the Ancient Dragon* Transformation of Violence in Sandplay is a major contribution to Jungian Psychology Sandplay Therapy and to the world at large I urge you to read and to tell others about this powerfully moving book Mel Mathews Publisher Fisher King Press Six year old Randy conducts bloody wars in the sandtray calling them World War One World War Two and The War of the Ancient Dragon He burns fires and bombs helpless victims killing some and saving others What could possibly be going on in his imagination The contents of his imagination what the alchemists call the realm of subtle bodies are revealed in his sandplay from one session to the next and there we see the raw autonomous dynamism that motivates Randy already branded a bully and nearly expelled from first grade We see fiery destructive conflict part his part his culture s part lived part projected a conflict of archetypal opposites

that engulf Randy's personality and fuel his violent behavior. But also from Randy's imaginal world out of the very war between opposites that drives him the unknown third possibility unfolds. Allowed to exist and be seen with a paradoxical healing aim, the war fights itself out over time in the safe container of the sandtray finds its unpredictable resolution and gradually releases Randy from its grip. He finally emerges calling himself king of the bloodfire, returned to the rule of his own emotional life. He has adapted to school proud of his achievements, a star student in math. Randy's lively narratives animate his dramas and reveal the distinct hallmarks of an alchemical opus over the course of 24 therapy sessions. He remarkably echoes the words of the ancient sages such as Zosimos who centuries ago in his own imagination witnessed the torture of transformation in fire. Randy's process is thoroughly documented and amplified, unveiling the alchemical stages of transformation: nigredo, albedo, and rubedo in a way that helps us relate to those chapters in our own individuation struggles.

Psychological Perspectives editor Margaret Johnson writes that the work is valuable above and beyond being a case study because it remarkably grounds what can be very illusive alchemical imagery into psychological experience. *War of the Ancient Dragon* guides us through the gritty realities of the alchemical process, helping us realize how they can manifest in everyday life, dream images, and fantasy. Above all, the book is a testament to the healing capacities of the imagination, the humble star in man that connects us to the unconscious to unknown and unexpected developments in ourselves.

On War and Writing Samuel Hynes, 2018-02-27 In our imaginations war is the name we give to the extremes of violence in our lives, the dark dividing opposite of the connecting myth which we call love. War enacts the great antagonisms of history, the agonies of nations, but it also offers metaphors for those other antagonisms, the private battles of our private lives, our conflicts with one another and with the world and with ourselves. Samuel Hynes knows war personally; he served as a Marine Corps pilot in the Pacific Theater during World War II, receiving the Distinguished Flying Cross. He has spent his life balancing two careers: pilot and professor of literature. Hynes has written a number of major works of literary criticism as well as a war memoir, *Flights of Passage*, and several books about the World Wars. His writing is sharp, lucid, and has provided some of the most expert, detailed, and empathetic accounts of a disappearing generation of fighters and writers. *On War and Writing* offers for the first time a selection of Hynes's essays and introductions that explore the traditions of war writing from the twentieth century to the present. Hynes takes as a given that war itself, the battlefield uproar of actual combat, is unimaginable for those who weren't there; yet we have never been able to turn away from it. We want to know what war is really like for a soldier on the Somme, a submariner in the Pacific, a bomber pilot over Germany, a tank commander in the Libyan desert. To learn, we turn again and again to the memories of those who were there and to the imaginations of those who weren't but are poets or

filmmakers or painters who give us a sense of these experiences that we can't possibly know. The essays in this book range from the personal Hynes's experience working with documentary master Ken Burns, his recollections of his own days as a combat pilot, to the critical explorations of the works of writers and artists such as Thomas Hardy, E. E. Cummings, and Cecil Day Lewis. What we ultimately see in *On War and Writing* is not military history, not the plans of generals, but the feelings of war as young men expressed them in journals and poems, and old men remembered them in later years. Men like Samuel Hynes.

On War Carl von Clausewitz, 1873 **War with Devils** Isaac Ambrose, 1769 When War Becomes Personal Donald Anderson, 2009-05-01

Donald Anderson, a former U.S. Air Force officer, has compiled a haunting anthology of personal essays and short memoirs that span more than 100 years of warfare. Alvord White Clements, himself a veteran of the Second World War, introduces his grandfather Isaac N. Clements's Civil War memoir; the novelist Paul West writes of his father, a British veteran of World War I, as well as of his own boyhood recollections of the London Blitz. John Wolfe details the life-changing and life-threatening injuries he sustained in Vietnam and the hallucinations he experienced afterward. Second Gulf War veteran Jason Armagost traces his journey to Iraq through the history of literature and the books he brought with him to the war zone.

The War of Dreams Marc Auge, 1999-06-20

Continues Auge's critical exploration of contemporary modernity with an examination of the role of dreams, myth, and fiction in the age of satellite TV and the Internet.

Future War Christopher Coker, 2015-11-12

Will tomorrow's wars be dominated by autonomous drones, land robots, and warriors wired into a cybernetic network which can read their thoughts? Will war be fought with greater or lesser humanity? Will it be played out in cyberspace and further afield in Low Earth Orbit? Or will it be fought more intensely still in the sprawling cities of the developing world, the grim black holes of social exclusion on our increasingly unequal planet? Will the Great Powers reinvent conflict between themselves, or is war destined to become much smaller, both in terms of its actors and the beliefs for which they will be willing to kill? In this illuminating new book, Christopher Coker takes us on an incredible journey into the future of warfare. Focusing on contemporary trends that are changing the nature and dynamics of armed conflict, he shows how conflict will continue to evolve in ways that are unlikely to render our century any less bloody than the last. With insights from philosophy, cutting-edge scientific research, and popular culture, *Future War* is a compelling and thought-provoking meditation on the shape of war to come.

The Spectator, 1917 **Modern Eloquence, Founded by Thomas B. Reed; Hart to Snyder** Ashley Horace Thorndike, Brander Matthews, Sir Robert Laird Borden, 1927 **Wetiko** Paul Levy, 2021-11-23

Explores how wetiko covertly operates both out in the world and within our minds, and how it underlies every form of self-destruction, both individual and collective. Reveals how wetiko's power lies in our blindness to it, and examines how people across the ages have symbolized wetiko to help see it and heal it. Examines the concept of wetiko as it appears in the teachings of the Kabbalah, Hawaiian Kahuna shamanism, mystical Christianity, and the work of C. G. Jung. In its Native American meaning, wetiko is an evil, cannibalistic spirit that can take over people's minds, leading to selfishness.

insatiable greed and consumption as an end in itself destructively turning our intrinsic creative genius against our own humanity Revealing the presence of wetiko in our modern world behind every form of destruction our species is carrying out both individual and collective Paul Levy shows how this mind virus is so embedded in our psyches that it is almost undetectable and it is our blindness to it that gives wetiko its power Yet as Levy reveals in striking detail by recognizing this highly contagious mind parasite by seeing wetiko we can break free from its hold and realize the vast creative powers of the human mind Levy explores how artists philosophers and spiritual traditions across the ages have been creatively symbolizing this deadly pathogen of the psyche so as to help us see it and heal it He examines the concept of wetiko as it appears in the teachings of the Kabbalah Hawaiian kahuna shamanism Buddhism and mystical Christianity and through esoteric concepts like egregores demons counterfeiting spirits and psychic vampires He reveals how visionary thinkers such as C G Jung Sri Aurobindo Philip K Dick Colin Wilson Nicolas Berdyaev and Rene Girard each point to wetiko in their own unique and creative way He explores how the projection of the shadow self scapegoating is the underlying psychological mechanism fueling wetiko and examines wetiko in the context of the Covid 19 pandemic showing that we can reframe the pandemic so as to receive the lessons and opportunities embedded in it Revealing how the power of imagination can cure the wetiko mind virus Levy underscores how important it is for each of us to bring forth the creative spirit within us which helps shed the light of consciousness on wetiko taking away its power over us while simultaneously empowering ourselves
