The First Christian Centuries Paul McKechnie, 2001 **Making Sense in (and of) the First Christian Century**
Francis Gerald Downing, 2000-08-01 The first Christian century must be approached with careful attention to its cultural and linguistic heterogeneity. It should not simply be assumed that this past is a different place; they do things differently there. Downing treats the ways in which early Christians tried to make things make sense within their cultures, noting both the similarities and differences between their ways and contemporary ones and stressing the variety of contexts and influences on first-century communication. Downing brings his renowned expertise to bear in illuminating the cultural features of early Christian society with a range of fascinating and telling examples. Charting the first six hundred years of the Christian movement, *THE EARLY CHRISTIAN CENTURIES* carries the reader from the world of second temple Judaism to the Byzantine age, the rise of Islam and the beginnings of medieval European polities. With a combination of rare tact and acuity, Philip Rousseau takes the measure of a generation of scholarship on early Christianity and the late Roman world. He stresses the importance of shifting historical consciousness, the continuity and development of ideas, and the urge for social respectability. Paying the greatest attention to the inner components of Christian life, the resulting story captures fully the major figures: Paul, the gospel writers, the early apologists, and the great figures of the patristic age, including the Cappadocian Fathers, Augustine, and Gregory the Great. **The First Three Christian Centuries** Islay Burns, 1890 **The First Three Christian Centuries** Islay Burns, 1886 [The First Three Christian Centuries](#) Islay Burns, 2015-06-16
Excerpt from *The First Three Christian Centuries: A History of the Church of Christ With a Special View to the Delineation of Christian Faith and Life From A.D. 1 to A.D. 313*. My aim in the following pages has been to present within a comparatively moderate compass the results of the most mature investigations into the history and life of the early Church in a form at once solid and popular, and thus to produce a work suited alike to the purposes of closet study and of general Christian edification. With this view I have adopted the following method: First I have excluded from the main body of the work all such minute details of theological sects and controversies as are necessarily unintelligible and repulsive to general readers, referring the student to a full Appendix at the close, chiefly from approved writers, for ampler information on special points; and secondly I have sought to enrich and enliven the meagre detail of ecclesiastical events and names with such graphic notices of Christian faith and manners, and such glimpses into the inner life of that old time as are usually presented in a separate form, but which constitute in truth the very soul of Christian history. Doing Things with Words in the First Christian Century Francis Gerald Downing,2000-10-01 Although its religious heritage was that of a variegated Judaism the tiny early Christian movement was nevertheless much more complexly and richly linked with the Graeco Roman world in which it came to birth than is usually allowed for In particular ordinary people were capable of a sophisticated use of words that can be detected also in the New Testament writings But the use of words in Graeco Roman times was often very different from what we suppose and this collection of studies attempts to identify some of the anachronisms that still pervade even the best of modern scholarship
