Ideology in Winnipeg, 1880s-1920s Kurt Korneski, 2015-06-09 During the late nineteenth and early twentieth centuries a host of journalists ministers medical doctors businessmen lawyers labor leaders politicians and others called for an assault on poverty slums disreputable boarding houses alcoholism prostitution sweatshop conditions inadequate educational facilities and other social evils Although they represented an array of political positions and advocated a range of strategies to deal with what they deemed problems historians have come to term this impulse urban reform or the urban reform movement This book considers the history of reform ideology in Canada It does so by considering four leading reformers living in what might be described as the most Canadian of Canadian cities Winnipeg Manitoba While the book engages in discussions debates surrounding the particular individuals it considers its more general argument is that to understand the history of reform in Canada requires viewing reformers as simultaneously experiencing and responding to two basic phenomena simultaneously It requires understanding them as confronting the polarizing tendencies exploitation and sometimes grinding poverty that was central to the economic order they often unwittingly helped to impose in northern North America It also however requires seeing them as fundamentally shaped by the process and legacy of the dispossession of Aboriginal peoples and the changing nature of Aboriginal settler relations that were also central to the development of Canada

United States Army in the World War, 1917-1919: Military operations of the American Expeditionary Forces, 1988 A seventeen volume compilation of selected AEF records gathered by Army historians during the interwar years This collection in no way represents an exhaustive record of the Army's months in France but it is certainly worthy of serious consideration and thoughtful review by students of military history and strategy and will serve as a useful jumping off point for any earnest scholarship on the war from Foreword by William A Stofft

secondary and archival sources all of which are exhaustively documented Appendices follow the two catalogue sections and include detailed information on several Confederate and Union flags associated with the states of Mississippi North Carolina and Indiana that are also contained in the Tennessee State Museum collection Complete with nearly 300 color illustrations and meticulous notes on textiles and preservation efforts this volume is much more than an encyclopedic log of Tennessee related Civil War flags Stephen Cox and his team also weave the history behind the flags throughout the catalogues including the stories of the women who stitched them the regiments that bore them and the soldiers and bearers who served under them and carried them Civil War Flags of Tennessee is an eloquent hybrid between guidebook and chronicle and the scholar the Civil War enthusiast and the general reader will all enjoy what can be found in its pages Unprecedented in its variety and depth Cox s work fills an important historiographical void within the greater context of the American Civil War This text demonstrates the importance of Tennessee state heritage and the value of public history reminding readers that each generation has the honor and responsibility of learning from and preserving the history that has shaped us all and in doing so honoring the lives of the soldiers and civilians who sacrificed and persevered **This Great Struggle** Steven E.

Woodworth,2011-04-16 Referring to the war that was raging across parts of the American landscape Abraham Lincoln told Congress in 1862 We shall nobly save or meanly lose the last best hope on earth Lincoln recognized what was at stake in the American Civil War not only freedom for 3 5 million slaves but also survival of self government in the last place on earth where it could have the opportunity of developing freely Noted historian Steven E Woodworth tells the story of what many regard as the defining event in United States history While covering all theaters of war he emphasizes the importance of action in the region between the Appalachians and the Mississippi River in determining its outcome Woodworth argues that the Civil War had a distinct purpose that was understood by most of its participants it was primarily a conflict over the issue of slavery The soldiers who filled the ranks of the armies on both sides knew what they were fighting for The outcome of the war after its beginnings at Fort Sumter to the Confederate surrender four years later was the result of the actions and decisions made by those soldiers and millions of other Americans Written in clear and compelling fashion This Great Struggle is their story and ours *A Journal of the American Civil War: V5-2* Theodore P.
