Fyodor Dostoyevsky: The Complete Novels (The Giants of Literature - Book 2) Fyodor Dostoyevsky,2023-12-25 Fyodor Dostoyevsky The Complete Novels The Giants of

Literature Book 2 offers readers a comprehensive exploration of the masterful novels that cemented Dostoyevsky's status as a titan of literary realism. This collection showcases his intricate narrative style characterized by psychological depth, moral complexity, and existential inquiry. Set against the tumultuous backdrop of 19th-century Russia, the novels tackle profound themes such as faith, free will, and the nature of suffering, while engaging with the philosophical currents of the time, including nihilism and existentialism. Fyodor Dostoyevsky, a writer whose life experiences marked by poverty, imprisonment, and a struggle with mental health profoundly shaped his worldview, produced these works as both a response to his tumultuous society and an exploration of the human condition. His encounters with radical ideologies and personal crises informed the philosophical dialogues that populate his narratives, making him an indispensable figure in modern literature. Dostoyevsky's unparalleled ability to delve into the human psyche allows readers to confront their own beliefs and doubts. This complete collection is highly recommended for anyone seeking an immersive journey into the intricacies of the human soul.

Dostoyevsky's timeless explorations of morality and existence resonate powerfully today, inviting readers to reflect deeply and question the nature of their realities. Delve into the mind of one of literature's greatest voices and discover the relevancy and nuance of his expansive oeuvre. *On Being Normal and Other Disorders* Paul Verhaeghe, 2020-06-16. The central argument of *On Being Normal and Other Disorders* is that psychic identity is acquired through one's primary intersubjective relationships. Thus, the diagnosis of potential pathologies must also be founded on this relation. Given that the efficacy of all forms of treatment depends upon the therapeutic relation, a diagnostic of this sort has wide-ranging applications. The author's critical evaluation of the contemporary DSM diagnostic shows that the lack of reference to and governing metapsychology impinges on the therapeutic value of the DSM categories. In response to this problem, the author sketches out the foundations of such a metapsychology by combining a Freud-Lacanian approach with contemporary empirical research. Close attention is paid to the processes of identity acquisition to show how the self and the Other are not two separate entities. Rather, subject formation is seen as a process in which both the subject's and the Other's identity, as well as the relationship between them, comes into being.

Many of his works contain a strong emphasis on Christianity and its message of absolute love, forgiveness, and charity, explored within the realm of the individual confronted with all of life's hardships and beauty. His major works include *Crime and Punishment* (1866), *The Idiot* (1869), *Demons* (1872), and *The Brothers Karamazov* (1880). Many literary critics rate him as one of the greatest and most prominent psychologists in world literature. His novella *Notes from Underground* is considered to be one of the first works of existentialist literature.
