recognized the need to address topics that did not exist in Dr Scofield's day such as the establishment of the modern state of Israel in 1948. At the same time they were careful not to depart from the dispensational theology that is the Scofield's hallmark. This special edition celebrates the fortieth anniversary of a resource that has drawn untold numbers of readers closer to the Word of God. The contents of this work will show the reader the following mysteries: God manifest in the flesh, Christ in you, Christ and the Church, and Blindness of Israel. Those subjects along with the mystery Babylon and the Rapture will be dealt with. This thesis is setting out to explain those mysteries and show the reader that they have meaning today. *Dispensationalism, Israel and the Church* Craig A. Blaising, Darrell L. Bock, 2010-08-10. The relationship between Israel and the church is a crucial reference point in theology, especially in distinguishing between dispensational and nondispensational ways of thinking. The thesis of this book is that Israel and the church are distinct theological institutions that have arisen in the historical progress of divine revelation. But they are also related as successive phases of a redemptive program that is historically progressive and eschatologically converging. The approach to these issues

here is neither polemical nor apologetic rather it anticipates a convergence among evangelical scholars in the recognition of both continuity and discontinuity in the Israel church relationship This book has three purposes To offer a contemporary dispensational treatment of that relationship through an exegetical examination of key texts with a focus on theological concerns To foster genuine dialogue with nondispensational thinkers regarding major biblical themes tied to the plan of God To identify the changes in dispensational thought that have developed since the publication of Charles Ryrie s book Dispensationalism Today in 1965
