

Long Prehistory of Fire

First Fire

Carl C. Wilson, James Bernard Davis

First Fire:

Oceanside Fire Department Stu Sprung, Mark W. Finstuen, Oceanside Fire Department, 2010-10-04 For more than 120 years the firefighters of the Oceanside Fire Department have had the privilege of serving one of Southern California's most active and popular coastal communities. Its firefighters are well known regionally as being highly skilled, capable, and aggressive when it comes to firefighting. This legacy has been handed down from Oceanside's first firefighters as they lived in the Wild West of the late 1800s, fighting blazes similar to those of today but with dungarees, cowboy boots, and nothing to guide them but instinct and bravery. Today a force of more than 100 modern paramedic-trained firefighters protect over 180,000 Oceanside residents and visitors 24 hours a day, 365 days a year. **Bulletin**, 1924 **Life & Duty** Les Joslin, 2014-06-04 The fact of being a citizen of the United States of America offers the opportunity, not the guarantee, but the opportunity to live an extraordinary life. Les Joslin writes in the introduction to *Life Duty*, an autobiography in which he proves his thesis as he relives the first seventy years of his American adventure. He shares these years in twenty chapters that comprise this three-part volume. Part I covers his family heritage and early years from 1943 to 1967. Part II, his U.S. Navy career from 1967 to 1988, and Part III, his life in Oregon from 1988. From Part I, Chapter 5: Summer 1965 on the Toiyabe National Forest. That wasn't the first time I'd dealt with an armed citizen, and it wouldn't be the last. Some of the challenges of my fire prevention job had nothing to do with wildfire prevention but everything to do with the fact I was sometimes the only public servant around to handle a situation. It had to do with that sometimes gray area between official duty and moral obligation. The previous summer, on my way to Twin Lakes, I detoured to check the dump I'd burned a few days before. Suddenly I heard shots just as the Lone Ranger and Tonto did in the opening scene of almost every episode, and what I saw as I neared the dump scared me. A big, beefy, fortyish man standing next to a late model Cadillac sedan was firing a high-powered rifle. He'd heard me coming and turned as I stopped the patrol truck. He didn't look particularly threatening. But there were serious unknowns. I didn't know him, I didn't know what he might shoot at, I didn't know he wouldn't shoot at me. From Part II, Chapter 10: November 1979 aboard USS Kitty Hawk. On November 28, I got up, showered, and shaved, put on clean khakis as usual, and started toward the wardroom for breakfast. The usual scent of salt and jet fuel was in the air, and I had a lot on my mind. I descended two ladders to the hangar bay only to be brought up short by bumping my head on a helicopter that wasn't supposed to be there. A quick look around revealed seven more RH-53D Sea Stallion helicopters; their HM-16 markings told me they belonged to Helicopter Mine Countermeasures Squadron Sixteen, not part of the ship's air wing. So that's why they swung south to Diego Garcia. They'd been flown there, probably in C-5As, and had flown aboard last night. Had I actually slept through flight quarters? I forgot about breakfast, climbed the ladders back to the 02 level, and knocked on the door of the flag N-2's office. This isn't going to work, I said as he opened the door. We can't fly those helicopters into a city of five million hostiles and rescue fifty hostages. They don't want to hear that, he replied, and closed the door. From Part III, Chapter 15.

Summer 1992 on the Deschutes National Forest As I walked toward the fire I began to think Am I doing the right thing After all I m just a contract wilderness information specialist not part of the fire organization I hadn t been to the Deschutes National Forest s fire school I didn t have fire clothing I didn t have a fire shelter Except for a canteen I didn t have any water and I d turned in my last red card the fire qualification card that rated me as a crew boss in 1966 when I d left the Toiyabe National Forest to go on active duty in the Navy That was twenty six years ago Should I be doing this Sure I answered my own question I d started out in the old Forest Service where everybody did everything I d done this many times before in the days before fire shirts and Nomex britches and fire shelters I d had five fire seasons on the Toiyabe been on a couple big fires I knew this business I knew how to keep out of trouble About the time I resolved that little issue I was at the fire **Master Chief** Gary R. Smith,2011-05-04 The memoir of a man who spent most of his career facing death For UDT SEAL team member Gary R Smith just being part of an elite military organization wasn t enough he had to be in the thick of the action Because in bloody violent Vietnam he learned there s no stronger bond than the one forged in the gut wrenching chaos of combat During ambushes PRU combat patrols and extractions from hot LZs Smith depended on the courage and sacrifice of his fellow SEALs who time and again placed their own lives on the line so that he might survive In Master Chief Gary Smith covers his fifth tour in Vietnam and his rise to the highest enlisted rank master chief petty officer Characteristically Smith holds nothing back when describing life during wartime in one of the world s toughest fighting units Based on the author s own experience as well as his own and others diaries letters and documents and on extensive interviews Master Chief is an outstanding memoir of a warrior who answered the call to arms when his country needed him Field Artillery ,1992

Forest Fire Laboratory at Riverside and Fire Research in California Carl C. Wilson,James Bernard Davis,1988 The need for protection from uncontrolled fire in California was identified by Abbott Kinney Chairman of the State Board of Forestry more than 75 years before the construction of the Riverside Forest Fire Laboratory With the organization of the USDA Forest Service the need for an effective fire protection organization became apparent In response a somewhat fragmented research program got under way in the 19 10 s Although the research was successful in reducing fire damage undermost conditions severe fire years still made it clear that a strong cohesive fire research effort headquartered at an adequate laboratory was necessary However the Fire Laboratory did not just happen It was the result of considerable organized public and private support During the 50 years prior to the dedication of the Laboratory and the 25 years since there has been an effort to balance a pragmatic approach toward dealing directly with the fire manager and also maintaining scientific excellence There are currently six research projects at the Laboratory with emphases on fire management and the beneficial use of fire forest recreation effects of air pollution on forest ecosystem and watershed management
