

## **The Bell Jar (Aft. Sylvia Plath)**

**You look at me, as though,  
I am a butterfly in a Bell Jar  
I have noticed you staring through  
Yr window, watching me getting my mail  
With my little dog  
You've been doing this for years  
But now, you are making me paranoid  
Sometimes, I see you with camera  
And see a flash in the corner of my eye**

**Are you taking pictures of me picking up sh\*t?  
And posting them online?  
I bet you are  
Please stop examining me  
I have done nothing wrong  
Knowing you are in love with yr lawn  
I'll try not to let my dog do his business on it  
But I feel like a butterfly in the Bell Jar  
A person without peace**

**Mapping Indigenous Presence** Kathryn W. Shanley, Bjørg Evjen, 2015-05-14

Despite centuries of colonization many Indigenous peoples' cultures remain distinct in their ancestral territories even in today's globalized world Yet they exist often within countries that hardly recognize their existence Struggles for political recognition and cultural respect have occurred historically and continue to challenge Native American nations in Montana and Sámi people of northern Scandinavia in their efforts to remain and thrive as who they are as Indigenous peoples In some ways the Indigenous struggles on the two continents have been different but in many other ways they are similar Mapping Indigenous Presence presents a set of comparative Indigenous studies essays with contemporary perspectives attesting to the importance of the roles Indigenous people have played as overseers of their own lands and resources as creators of their own cultural richness and as political entities capable of governing themselves This interdisciplinary collection explores the Indigenous experience of Sámi peoples of Norway and Native Americans of Montana in their respective contexts yet they are in many ways distinctly different within the body politic of their respective countries Although they share similarities as Indigenous peoples within nation states and inhabit somewhat similar geographies their cultures and histories differ

significantly S mi people speak several languages while Indigenous Montana is made up of twelve different tribes with at least ten distinctly different languages both peoples struggle to keep their Indigenous languages vital The political relationship between S mi people and the mainstream Norwegian government and culture has historically been less contentious than that of the Indigenous peoples of Montana with the United States and with the state of Montana yet the S mi and the Natives of Montana have struggled against both the ideology and the subsequent assimilation policy of the savagery versus civilization model The authors attempt to increase understanding of how these two sets of Indigenous peoples share important ontological roots and postcolonial legacies and how research may be used for their own self determination and future directions
