Mobility for Smart Cities and Regional Development - Challenges for Higher

Education Michael E. Auer, Hanno Hortsch, Oliver Michler, Thomas Köhler, 2022-01-27 This book presents recent research on interactive collaborative learning We are currently witnessing a significant transformation in the development of education and especially post secondary education To face these challenges higher education has to find innovative ways to quickly respond to these new needs On the one hand there is a pressure by the new situation in regard to the COVID pandemic On the other hand the methods and organizational forms of teaching and learning at higher educational institutions have changed rapidly in recent months Scientifically based statements as well as excellent experiences best practice are absolutely necessary These were the aims connected with the 24th International Conference on Interactive Collaborative

Learning ICL2021 which was held online by Technische Universität Dresden Germany on 22-24 September 2021. Since its beginning in 1998, this conference is devoted to new approaches in learning with a focus on collaborative learning in Higher Education. Nowadays, the ICL conferences are a forum for the exchange of relevant trends and research results as well as the presentation of practical experiences in Learning and Engineering Pedagogy. In this way, we try to bridge the gap between pure scientific research and the everyday work of educators. This book contains papers in the fields of Teaching Best Practices, Research in Engineering Pedagogy, Engineering Pedagogy Education, Entrepreneurship in Engineering Education, Project Based Learning, Virtual and Augmented Learning, Immersive Learning in Healthcare and Medical Education. Interested readership includes policymakers, academics, educators, researchers in pedagogy and learning theory, schoolteachers, learning industry, further and continuing education, lecturers, etc.
