Scanzoni, 2021-10-05 Sexual Bargaining in the Digital Era follows the evolution of genders sexualities and so on away from their Old Normal ON pattern which prevailed during the Agricultural Age and the Industrial Age and into the New Normal NN pattern which is currently surfacing in concert with an emerging Digital Era ON was based on the ancient traditional script governing how women men children ought to behave within the spheres of genders marriages families relationships sexualities Over the centuries ON eventually modified into the familiar 1950s style nuclear patriarchal cisgender husband wife with children and family And now that style itself is fading away into NN NN is based not on script but on improvisation it is essentially a continual work in progress To make it function the partners engage in ongoing negotiation governed by the principle that everything is negotiable except the principle that everything is negotiable NN has thus far been pursued most frequently by persons New Lights who are educated and relatively advantaged ON has been pursued mostly by persons Old Lights who are less educated and relatively less advantaged ON is also strongly embraced by persons of a traditional religious bent persons who tend to be rigid and unbending in their religious views Currently they tend to be extremely right wing evangelicals and extremely right wing Catholics Importantly their political clout far exceeds their relatively modest numbers within the larger population In brief the shift from ON to NN is a move away from the sanctity of a particular structure to the primacy of persons engaged in ongoing processes of inventing and reinventing certain arrangements of genders marriages families relationships sexualities enabling them to fulfil their needs for primary intrinsic emotional satisfactions such as liking loving empathy companionship sexual and so forth Among other things this shift replaces the preeminence of the historic binary or cisgender approach heterosexual legal children and so on in favor of the diversity variety multiplicity approach which incorporates under one conceptual umbrella all persons of whatever genders sexualities and so on All persons are thus engaged in a common struggle to achieve personal satisfactions as well as contribute to the Greater Good **SERI-SP**, 1979 *Drugs & Society*

**Measuring and Evaluating the Results of Federally Supported Research and Development** United States. Congress. House. Committee on Science and Technology. Subcommittee on Domestic and International Scientific Planning and Analysis, 1976 *How to Fight Back from Big Debt* S. A. Brown, 2011 *A to Z Word Potpourri* Dick Pellek, 2019-02-01 The Chronicles of a Footloose Forester were compiled over a number of years one story at a time Events observations encounters and episodes were the ingredients in the mix that got filed into his memory banks and extracted years later but only after it was decided to make them into his memoirs Afghanistan to Zambia Chronicles of a Footloose

Forester published in 2010 was the first distillation of those memories and was based on an alphabetical recounting of places he had been. In the beginning there was no intention of putting his chronicles into a book; the alphabetical listing of countries he had visited was at the time, in the early 1960s, only a device to properly respond to inquiries about his travels pursuant to obtaining and updating a yearly security clearance. At one time or another, the FBI, the Army Security Agency, the Department of Agriculture, and the Department of State all wanted his biographical information, which included the places and the addresses where he had lived since 1931. Obviously that meant every place since he was born. Thus it was easier to compile a logical listing and to keep that list in his records for easier updating. The countries of Afghanistan and Zambia eventually worked their way into the list, thus his first book, *Afghanistan to Zambia: Chronicles of a Footloose Forester*, was chosen as the title of his first book of memoirs. The process is ongoing. Since the travel history to other countries swelled to 106 countries and territories of the United States, the A to Z listing was also a way to compartmentalize some of his fond memories of people, places, and events. As a forester who worked in domestic and international locales, the A to Z listing had other applications for a footloose forester who had a lifelong interest in forest trees and tropical fruits. Accordingly, the second book of chronicles had a title that reminded him that the very common red maple tree, *Acer rubrum*, could be seen daily from Maine to Florida and everywhere in between in the states he had visited: forty-nine of fifty during his career. A suitable title for the second book thus began to emerge. An A to Z theme led to bookend tree species names that were also a part of his reveries. It was gratifying to settle on a subtropical fruit tree commonly known as the jujube and with the botanical name *Zyzyphus jujuba*. Two jujube trees are growing and thriving right next to his house in Virginia. Thus another A to Z listing became the receptacle that included personal anecdotes about a potpourri of things in other countries and in the natural world in general. The eventual name of his second book of memoirs emphasized his forestry interests except that the stories that he wanted to share did not dwell solely on trees or on people's places, animals, or events. Dreams and viewpoints about abstract subjects that he wanted to share were also summoned, sorted out, and organized into volume 1, *Essays: Dreams*, that was published in 2015. And the personal blogs regarding tangible, physical, sometimes hair-raising, real-time episodes in reality were written into volume 2, *Stories: Adventures*, that was published in early 2016. Of the 340 blogs that still reside in computer archives, there are perhaps a hundred or so that have not yet been selected for inclusion in another book. This book and its title, *A to Z: Word Potpourri: Chronicles of a Footloose Forester*, is the final product. The next job is to make another list and decide which stories, essays, dreams, and adventures might become a suitable fifth book of memoirs that does not require chronology, background, history, logical train of thought, or other *raison d'être*.
