Literary Structures Of Religious Meaning In The Quran:

Literary Structures of Religious Meaning in the Qu'ran Issa J Boullata, 2013-09-05 This volume studies how the literary elements in the Qur'an function in conveying its religious message effectively. It is divided into three parts. Part one includes studies of the whole Qur'an or large segments of it belonging to one historical period of its revelation; these studies concentrate on the analysis of its language, its style, its structural composition, its aesthetic characteristics, its rhetorical devices, its imagery, and the impact of these elements and their significance. Part two includes studies on individual suras of the Qur'an, each of which focuses on the sura's literary elements and how they produce meaning; each also explores the structure of this meaning and the coherence of its effect. Part three includes studies on Muslim appreciations of the literary aspects of the Qur'an in past generations and shows how modern linguistic, semantic, semiotic, and literary scholarship can add to their contributions.

Knowledge and Education in Classical Islam: Religious Learning between Continuity and Change (2 vols) Sebastian Günther, 2020-07-13 Knowledge and Education in Classical Islam: Religious Learning between Continuity and Change is a pioneering collection of essays on the historical developments, ideals, and practices of Islamic learning and teaching in the formative and classical periods of Islam, i.e. from the seventh to fifteenth centuries CE. Based on innovative and philologically sound primary source research and utilizing the most recent methodological tools, this two-volume set sheds new light on the challenges and opportunities that arise from a deep engagement with classical Islamic concepts of knowledge, its production and acquisition, and of course learning. Learning is especially important because of its relevance to contemporary communities and societies in our increasingly multicultural global civilizations, whether Eastern or Western. The Qur'an and Its Biblical Subtext Gabriel Said Reynolds, 2010-06-10 Traditionally the Qur'an has been interpreted through medieval commentaries shaped by the biography of the prophet Muhammad. This book presents the Muslim holy book in light of its conversation with Jewish and Christian scripture, challenging the dominant scholarly method of reading the Qur'an.

Structural Dividers in the Qur'an Marianna Klar, 2020-12-03 This volume showcases a wide range of contemporary approaches to the identification of literary structures within Qur'anic surahs. Recent academic studies of the Qur'an have taken an increasing interest in the concept of the surah as a unity, and with it the division of complete surahs into consecutive sections or parts. Part One presents a series of case studies focussing on

individual Qur'anic surahs Nevin Reda analyzes the structure of Srat al Imr n Q 3 Holger Zellentin looks at competing structures within Srat al Ala Q 96 and A H Mathias Zahniser provides an exploration of the ring structures that open Srat Maryam Q 19 Part Two then focusses on three discrete aspects of the text Nora K Schmid assesses the changing structural function of oaths Marianna Klar evaluates how rhythm rhyme and morphological parallelisms combine in order to produce texture and cohesion while Salwa El Awa considers the structural impact of connectives and other discourse markers with specific reference to Srat h Q 20 The final section of the volume juxtaposes contrasting attitudes to the discernment of diachronic seams Devin Stewart examines surah medial oracular oaths Muhammad Abdel Haleem questions a range of instances where suggestions of disjointedness have historically been raised and Nicolai Sinai explores the presence of redactional layers within Srat al Nis Q 4 and Srat al M idah Q 5 Bringing a combination of different approaches to Qur'an structure into a single book written by well established and emerging voices in Qur'anic studies the work will be an invaluable resource to academics researching Islam religious studies and languages and literatures in general Chapters 3 and 6 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Interpreting the Qur'ān with the Bible (Tafsīr al-Qur'ān bi-l-Kitāb) R. Michael McCoy III, 2021-09-13 In *Interpreting the Qur'an with the Bible* R Michael McCoy III brings together two lesser known yet accomplished commentators on the Qur'an and the Bible the mu tabir Ab al akam Abd al Sal m b al I b l d 536 1141 referred to as Ibn Barra n and q ri al qurr lbr h m b Umar b asan al Biq d 885 1480 In this comparative study comprised of manuscript analysis and theological exegesis a robust hermeneutic emerges that shows how Ibn Barra n s method of na m al qur n and al Biq s theory of ilm mun sab t al qur n motivates their reading and interpretation of the Arabic Bible The similarities in their quranic hermeneutics and approach to the biblical text are astounding as each author crossed established boundaries and pushed the acceptable limits of handling the Bible in their day

The Qur'an and Late Antiquity Angelika Neuwirth, 2019-02-19 In this book Angelika Neuwirth provides a new approach to understanding the founding text of Islam Typical exegesis of the Qur'an treats the text teleologically as a fait accompli finished text or as a replica or summary of the Bible in Arabic Instead Neuwirth approaches the Qur'an as the product of a specific community in the Late Antique Arabian peninsula one which was exposed to the wider worlds of the Byzantine and Sasanian empires and to the rich intellectual traditions of rabbinic Judaism early Christianity and Gnosticism A central goal of the book is to eliminate the notion of the Qur'an as being a historical She argues that it is in fact highly aware of its place in late antiquity and is capable of yielding valuable historical information By emphasizing the liturgical function of the Qur'an Neuwirth allows readers to see the text as an evolving oral tradition within the community before it became collected and codified as a book This analysis sheds much needed light on the development of the Qur'an s historical theological and political outlook The book s final chapters analyze the relationship of the Qur'an to the Bible to Arabic poetic traditions and

more generally to late antique culture and rhetorical forms By providing a new introduction to the Qur'an one that uniquely challenges current ideas about its emergence and development *The Qur'an and Late Antiquity* bridges the gap between Eastern and Western approaches to this sacred text **The Quran, Epic and Apocalypse** Todd Lawson, 2017-10-05 How do people understand the Quran to be divine revelation What is it about the text that inspires such devotion and commitment in the reader believer Todd Lawson explores how the timeless literary genres of epic and apocalypse bear religious meaning in the Quran communicating the sense of divine presence urgency and truth Grounding his approach in the universal power of story and myth he embarks upon a fascinating inquiry into the unique power of one of the most loved widely read and recited books in the world **Logic, Rhetoric and Legal Reasoning in the Qur'an** Rosalind Ward Gwynne, 2014-04-08 Muslims have always used verses from the Qur'an to support opinions on law theology or life in general but almost no attention has been paid to how the Qur'an presents its own precepts as conclusions proceeding from reasoned arguments Whether it is a question of God's powers of creation the rationale for his acts or how people are to think clearly about their lives and fates Muslims have so internalized Qur'anic patterns of reasoning that many will assert that the Qur'an appeals first of all to the human powers of intellect This book provides a new key to both the Qur'an and Islamic intellectual history Examining Qur'anic argument by form and not content helps readers to discover the significance of passages often ignored by the scholar who compares texts and the believer who focuses upon commandments as it allows scholars of Qur'anic exegesis Islamic theology philosophy and law to tie their findings in yet another way to the text that Muslims consider the speech of God **Prophets in the Qur'ān and the Bible** Daniel S. Baeq, Sam Kim, 2022-05-24 The theme of prophets and prophecy is a central area of theological research and discussion in both Christianity and Islam While academic researches on the prophets of Islamic tradition do exist it is rare to find studies which compare them with the biblical accounts based on evangelical theology This book provides theological analysis of the biblical prophets which appear in the Qur'an and the Islamic literature The selection of prophets includes Adam Nuh Noah Ibrahim Abraham Yusuf Joseph Musa Moses Dawud David Ezekiel Dhul Kifl Zakariya Yahya John the Baptist and Mary the Mother of Jesus The contributors are a distinguished group of international scholars who combine impressive academic credentials with extensive ministry among Muslims Moreover the international nature of the contributors lends credibility to the work as an exercise in global theology This book lays a good foundation for the comparison of scriptural and theological traditions of two world major religions and for generating further discussions *Spiritual Quest* Reza Shah-Kazemi, 2014-01-21 The Qur'an is the sacramental foundation of prayer in Islam Its inspirational power is perpetually renewed through being recited and meditated upon by Muslims on a daily basis throughout their lives This succinct monograph provides a unique contemporary insight into the spiritual intellectual and moral dynamics set in motion by the short Qur'anic chapters recited in their prayers by Muslims of all traditions but which are particularly recommended within Shi'i Islam Dr Shah Kazemi engages creatively with the chapters of

the Qur'an including the Opening al-Fatiha chapter basing his own philosophical reflections on the teachings of Imam Ali. He focuses in particular on the relationship between the moral and the mystical aspects of the texts. The result is a stimulating philosophical meditation probing the depths of meaning comprised within the verses of a Revelation by which the spiritual quest of Muslims has constantly been inspired, nourished and fulfilled.

The Qur'an Seminar Commentary / Le Qur'an Seminar Mehdi Azaiez, Gabriel Said Reynolds, Tommaso Tesei, Hamza M. Zafer, 2016-11-07. The present volume is the work of 25 scholars who represent various specializations important to the study of the Qur'an including Arabic language, comparative Semitic linguistics, paleography, epigraphy, history, rhetorical theory, hermeneutics and Biblical studies. The starting point of this work was a series of five international conferences on the Qur'an at the University of Notre Dame over the academic year 2012-13, although the commentaries contributed during those conferences have been carefully edited to avoid repetition. Readers of The Qur'an Seminar Commentary will find that the 50 passages selected for inclusion in this work include many of the most important and influential elements of the Qur'an including Q 1 al-Fatiha, Q 2:30-39 the angelic prostration before Adam, Q 2:255 the Throne Verse, Q 3:7 the muhkamat and mutashabihat, Q 4:3 polygamy and monogamy, Q 5:112-15 the table al-ma'ida from heaven, Q 9:29 fighting the People of the Book and the jizya, Q 12 the story of Joseph, Q 24:45 the Light Verse, Q 33:40 the seal of the prophets, Q 53 the satanic verses, Q 96 including the passage often described as the first revelation, Q 97 the night of qadr, Q 105 the Companions of the Elephant, Q 112 on God and the denial of a divine son. The collaborative nature of this work which involves a wide range of scholars discussing the same passages from different perspectives offers readers with an unprecedented diversity of insights on the Qur'anic text.

Qur'an and the Just Society Ramon Harvey, 2017-10-23. Utilising a pioneering theological and hermeneutic framework adapted from both classical Muslim literature and contemporary academic studies of the Qur'an, Ramon Harvey explores the underlying principles of its system of social justice.

Islam and Its Past Michael Cook, Carol Bakhos, 2017. An edited collection on the historical religious and cultural contexts of the origins of the Qur'an.

Three Testaments Brian A. Brown, 2014-01-02. Three Testaments brings together for the first time the text of the Torah, the New Testament and the Quran along with commentaries from notable religion scholars to help readers explore the connections as well as the points of departure of the three Abrahamic traditions. This book is a much needed interfaith perspective on key sacred texts.

Marked Word Order in the Qur'an and its English Translations Dr Ahmed Saleh Elimam, 2013-10-28. The literature on Balaghah, the art of Arabic eloquence and commentaries on the Qur'an stress that the style of the Qur'an is beautiful, eloquent and inimitable. This literature identifies word order as one of the most distinctive aspects of Qur'anic style. One of the main reasons for this is that compared to English, Arabic has fewer restrictions on word order thanks to its elaborate verb inflection system and case marking. This flexibility allows for the foregrounding of some elements within the sentence resulting in a marked or non-canonical word order and fulfilling certain discursive functions including specification, restriction, emphasis, amplification, glorification and denial.

Marked word order is used to highlight or downplay certain elements in speech or writing. It constitutes one way of delivering meanings to the addressee as these meanings are ordered in the mind of the speaker in terms of their importance, making the style a precise reflection of the speaker's mind and feelings. This book is a descriptive study which attempts to examine how translations of the Qur'an have handled various verses of the Qur'an that feature lexical foregrounding, focusing on ten published translations into English carried out by translators from different ideological and linguistic backgrounds. It offers a systematic comparison of the ways in which the selected translators deal with the linguistic feature of word order variation and examines issues relating to the translator's style. Specifically, the book identifies and examines the following instances of marked word order discussed by commentators on the Qur'an and the function served by each case of lexical foregrounding: secondly, the options and/or patterns employed by translators to render the different functions of marked word order; thirdly, the recurrent options and/or patterns for rendering different types of word order variation. Finally, the book explores the factors which may have influenced the choice of particular strategies by different translators, including the translators' motivations and the various historical contexts in which the translations were made.

Sufi Commentaries on the Qur'an in Classical Islam Kristin Sands, 2006-07-13 Meeting the ever-increasing interest in Islam and Sufism, this book is the first comprehensive study of Sufi Qur'anic commentaries and includes translations of many writings previously unavailable in English. It examines the shared hermeneutical assumptions of Sufi writers and the diversity in style of Sufi commentaries. Some of the assumptions analyzed are: the Qur'an is a multi-layered and ambiguous text open to endless interpretation; the knowledge of deeper meanings of the Qur'an is attainable by means other than transmitted interpretations and rational thought; the self is dynamic, moving through states and stations which result in different interpretations at different times. The styles of Sufi commentaries are explored, which range from philosophical musings to popular preaching to literary narrative and poetry. Other commentaries from the classical period are also investigated to provide context in understanding Sufi approaches and exegetical styles.

The Oxford Handbook of Qur'anic Studies Mustafa Shah, M. A. Abdel Haleem, 2020 The Qur'an is the foundational sacred text of the Islamic faith. Traditionally revered as the literal word of God, its pronouncements and discussions form the bedrock of Islamic beliefs and teachings. Notwithstanding its religious pre-eminence and the fact that it is the sacred text for over one billion of the world's Muslims, the Qur'an is also considered to be the matchless masterpiece of the Arabic language. Its historical impact as a text can be discerned in all aspects of the heritage of the Arabic literary tradition. Over recent decades, academic engagement with the Qur'an has produced an impressive array of scholarship ranging from detailed studies of the text's unique language style and structure to meticulous surveys of its contents, concepts and historical contexts. The Oxford Handbook of Qur'anic Studies is an essential reference and starting point for those with an academic interest in the Qur'an. It offers not only detailed reviews of influential subjects in the field but also a critical overview of developments in the research discourse. It explores the tradition of Qur'anic

exegesis and hermeneutics making it a comprehensive academic resource for the study of the Qur'an. No single volume devoted to such a broad academic survey of the state of the field currently exists. *The Cambridge Companion to the Qur'ān* Jane Dammen McAuliffe, 2006-11-23 An introduction to the Qur'an, a text that has guided the lives of millions.

The Poetic Qur'ān Thomas Hoffmann, 2007 Slightly revised version of the author's thesis, doctoral University of Copenhagen. A Bibliography of Islamic Criminal Law, Supplement Olaf Köndgen, 2024-07-15 The present work supplements the original volume of *A Bibliography of Islamic Criminal Law*, the most extensive bibliography on Islamic criminal law ever compiled. Drawing on a multitude of sources online and offline, this bibliography covers in its thematic section not only the classical crime categories of *ud d qi* and *ta z r* but also a large number of newly emerging and related fields. In a second section dedicated to countries, eras, and institutions, Olaf Köndgen comprehensively covers the historical and modern application of Islamic criminal law in all its forms. Unlocking the richness of this sub-field of Islamic law, also with the help of two detailed indices, this innovative reference work is highly relevant for all those researching Islamic law in general and the application of Islamic criminal law over time in particular.
