A Feeling for Books Janice A. Radway, 2000-11-09 Deftly melding ethnography cultural history literary criticism and autobiographical reflection *A Feeling for Books* is at once an engaging study of the Book of the Month Club's influential role as a cultural institution and a profoundly personal meditation about the experience of reading Janice Radway traces the history of the famous mail order book club from its controversial founding in 1926 through its evolution into an enterprise uniquely successful in blending commerce and culture Framing her historical narrative with writing of a more personal sort Radway reflects on the contemporary role of the Book of the Month Club in American cultural history and in her own life Her detailed account of the standards and practices employed by the club's in-house editors is also an absorbing story of her interactions with those editors Examining her experiences as a fourteen-year-old reader of the club's selections and later as a professor of literature she offers a series of rigorously analytical yet deeply personal readings of such beloved novels as *Marjorie Morningstar* and *To Kill a Mockingbird* Rich and rewarding this book will captivate and delight anyone who is interested in the history of books and in the personal and transformative experience of reading *The Popular Book* James D. references to an art market divide through which books took on new significance as markers of taste and class Though this division has received considerable attention relative to the narrative structures of the period s texts little attention has been paid to the institutions and ideologies that largely determined a text s accessibility and circulated format and thus its mode of address to specific readerships Hammond addresses this gap in scholarship asking the following key questions How did publishing and distribution practices influence reader choice Who decided whether or not a book was a classic In a patriarchal class bound literary field how were the symbolic positions of author and reader affected by the increasing numbers of women who not only bought and borrowed but also wrote novels Using hitherto unexamined archive material and focussing in detail on the working practices of publishers and distributors such as Oxford University Press and W H Smith and Sons Hammond combines the methodologies of sociology literary studies and book history to make an original and important contribution to our understanding of the cultural dynamics and rhetorics of the fin de si cle literary field in England
